FOREWORD

The Constitution requires each house of the General Assembly to keep a Journal of its proceedings. The Journal is intended to assure a public account of legislative activity and constitutes the final official record of action by the General Assembly.

Under the provisions of Sections 6.161, 6.162 and 57.151 of the *Kentucky Revised Statutes*, the Legislative Research Commission is responsible for comparing, editing, correcting, and publishing the Journals as approved by each house of the General Assembly. This Journal represents the fulfillment of this obligation for the First Extraordinary Session of the House of Representatives of 1991.

The text of a bill is spread in full when it receives a first reading. The vote on passage of a bill is indicated upon its receipt of a third reading, or upon concurrence by the originating house in amendments by the second house. Simple and concurrent resolutions are printed on first reading when applicable or when adopted, and joint resolutions are treated as bills. A table of actions on bills and resolutions is appended. Roll calls on motions to pass legislation have been compiled in an Appendix.

Mrs. Jean Wallace, and Mrs. Wilda Bond prepared the House Journal for the First Extraordinary Session of 1991. The edited copy and index in this volume reflect the cooperative efforts of the Commission's staff.

The Honorable Wallace G. Wilkinson, Governor of the Commonwealth of Kentucky, addressed the Joint Session of the General Assembly as follows:

Lt. Governor Jones, President Pro-Tem Rose, Speaker Blandford, Distinguished Members of the General Assembly, Chief Justice Stephens, and Members of the Supreme Court

There are times when the issues of the day are eclipsed by graver concerns. As we take up the important matters before the Extraordinary Session of this General Assembly . . . we do so fully aware of the immediate threat in the Middle East. Whatever we do in the coming days . . . first and foremost in our hearts is the safety of American troops and our prayers for a swift and safe resolution to this conflict.

With the beginning of each new year, we resolve to set new goals for ourselves . . . and we resolve to do even more in the new year than we accomplished in the past. As I have done every year since I have been Governor . . . we begin this year with new goals. We begin 1991 aware of past achievements, but intent on mastering the opportunities and problems ahead of us now. Today in Kentucky, the Extraordinary has become the commonplace. First in the Southeast in the creation of new manufacturing jobs in the first quarter of 1990. One of only a handful of states east of the Mississippi without a budget deficit. The first state to restructure its schools and fund an entirely new system. The first to elevate workforce development to cabinet level status. The first to successfully complete a bond sale on the Japanese bond market. Many of those who thought that Kentucky could never lead now look to us for leadership. The people of this Commonwealth can be justifiably proud . . . and certainly the members of this General Assembly can be proud . . . As I am proud of what we have done together.

We meet now in Special Session to address issues of critical importance to all Kentuckians. An environmentalist commented some years ago that "Man shapes himself through decisions which shape his environment." Last year, this administration promulgated . . . and the General Assembly approved . . . regulations assuring that future landfills in Kentucky will be subject to technical standards among the most rigorous of any state in the nation. In addition, existing landfills that don't meet these new standards will be required to close by June, 1992. But now because of the required closures, operators of a number of existing facilities have decided to take in more waste for disposal in order to fill landfills at an accelerated pace . . . and maximize total profits in the shortest possible time. The purpose of our regulations is to eliminate the amount of waste coming into landfills not meeting the highest technical standards . . . and to decrease and manage better the amount of generated waste . . . not to invite the dumping of ever-increasing amounts. Thankfully, as our evaluation has shown, the problem is a narrow one. Only 8 of the 75 solid waste landfills in the state accept waste from outside the state. But, in whatever amount . . . it is affecting our capacity to handle our own waste. To address this specific problem, the legislation I am proposing in this session contains the following provisions.

First, any increase in the amount of waste from any geographic source . . . whether in state or out-of-state . . . that can be accepted for disposal by any current facility . . . will be limited to five percent per year. Second, the cabinet can increase that limit to assure enough capacity for proper disposal of waste generated within the Commonwealth. Third, all haulers of waste for disposal in Kentucky will have to be registered by the state . . . will be required to report on their service areas . . . and will be required to consent to the jurisdiction of the state. Fourth, landfills will be forbidden to accept waste from any unregistered haulers. Fifth, manifests will have to be filed for every solid waste shipment . . . with a record of the origin of the waste . . . and a certificate that no hazardous materials have been introduced into the waste.

We are also proposing strict scrutiny of owners and operators. The legislation will require . . . prior to any permit or permit renewal . . . a background check as thorough as any required in the nation. While out-of-state waste has been the primary concern for many Kentuckians . . . and in many respects it has been the driving force behind bringing public attention to our solid waste problems . . . of equal, if not greater importance, is proper disposal of the waste we generate in Kentucky and adequate capacity to take care of that waste in the future. We face a solid waste capacity crisis in Kentucky. If we fail to respond in a comprehensive fashion . . . if we allow the status quo to continue . . . then that crisis will be upon us all too soon.

More than 10 percent of the waste generated in Kentucky does not end up in a permitted landfill . . . about the same tonnage we now receive in out-of-state waste. Therefore, I am proposing that we adopt universal collection in Kentucky. We must provide collection systems for our citizens to place their garbage in a permitted facility. In so doing, we will place more demands on our capacity by adding an additional 10 percent to our waste stream. However, we will have identified 100% of the solid waste in Kentucky . . . and know where it's going. You can appreciate the crisis we face with our capacity to handle solid waste . . . unless we take bold steps to address the problem on many fronts in a comprehensive fashion. To deal with solid waste management over the long term . . . the legislation establishes a comprehensive local planning and management process.

Counties, individually, or as part of multi-county areas, will be responsible for developing and implementing solid waste management plans. Waste generated outside an area can be disposed of in that location . . . only if its consistent with the area solid waste management plan. Through this comprehensive local planning and management process . . . we can assure enough capacity for all of our waste disposal needs and establish effective local control of waste generated. With these area solid waste management plans we will develop a comprehensive state solid waste reduction and management plan to guide our future . . . and assure adequate solid waste capacity needed for continued economic growth.

The legislation before you calls upon the citizens of Kentucky to reduce the amount of waste we place in our landfills by 25 percent by the year 1997. I believe it is a realistic and achievable goal and an essential undertaking if we are to truly manage our waste in a responsible fashion. Finally, the legislation includes a system of higher fees for waste disposal generated outside approved areas. Only with such an approach can we realize and reap the fundamental benefits of our critical objective . . . of comprehensive managing and reducing our waste. Now, let me turn to the next order of business.

During this administration, we have waged a continuing battle against alcohol and drug abuse in this Commonwealth. But twenty-one times today . . . at different locations across Kentucky . . . There will be an accident involving an intoxicated driver. Why do they happen? Because there are people who turn on their ignition switch when they shouldn't . . . gambling that they can beat the odds and make it home. In 1989, 319 people died in Kentucky when intoxicated drivers gambled and lost. Throwing the book at intoxicated drivers isn't enough . . . we must get them off the road immediately.

Under current law, a person picked up for a D.U.I. violation spends four hours in jail and is released. It may be weeks, or even months, before a court appearance. What happens in the meantime? Individuals who have already proven that they will drive when they shouldn't drive . . . are as free to take the wheel as you or I. We need to tell individuals who drink too much that they can't share the privilege of driving with those who abide by the law. The best way to do that is by adopting illegal and administrative per se. As the names imply, these measures make it illegal for a person to operate a motor vehicle in Kentucky with a blood alcohol level of point one zero (.10) or above . . . and provide for the swiftest possible cancellation of the driver's license. But, it's not enough to get these drivers off the road. We need to help them beat their problem, so we can keep them from becoming repeat offenders. That's why all offenders' convicted of D.U.I. will have an assessment and be required to complete alcohol or substance abuse treatment or education programs.

There is little we can do that is more important than improving our efforts to see that every Kentuckian has a job. We have a unique opportunity in this session to direct new resources to economic development in our Commonwealth. I am placing before you a proposal to return an additional 13% of coal severance tax dollars to coal producing and impacted counties . . . and with it a plan to guarantee that the additional money will be used to create jobs. We established a trust with those counties when we first agreed to return a portion of coal severance taxes to them. I urge you to reaffirm our commitment and revive that trust in this session. Some have called the return of coal severance taxes to the counties economic justice. I call it common sense. Common sense tells us that we must prepare for the day when coal is not the primary source of income for some counties. For many that day is already here. Technology makes it possible to mine more coal with fewer people. For others the coal will simply some day run out. Only when we insure the future economic growth and stability of those counties dependent on coal . . . can we say that we have fully benefited from our most abundant natural resource. Members of this General Assembly have worked diligently with me to develop a plan that is worthy of your support. It is a plan for coal producing and impacted counties that is a positive step for the growth and stability of all of Kentucky.

I am also presenting for your approval incentive packages for Delta Airlines and Scott Paper. As in all incentive packages in this administrative . . . the Delta and Scott packages are cost-efficient . . . they are designed to meet the specific needs of two major employers . . . and they require the companies to earn incentives through investment and job creation.

You will also have the opportunity during this session . . . to correct the deficiencies in voter fraud legislation recently addressed by the Kentucky Supreme Court. I am asking you also to correct a deficiency in the statute addressing punishment for capital offenses. There is absolutely no reason that someone who has committed murder is eligible for parole sooner than someone who has committed a lesser offense. Nevertheless .we currently have a situation in which that is exactly the case. In other words, they are better off murdering someone than only wounding them.

I have asked you to extend the Kentucky income tax filing deadline for military personnel involved in Operation Desert Shield. This small but important gesture can help ease the burden on Kentucky families already under the strain of this crisis. Due to a surplus in funds appropriated for the Vietnam veterans' bonus . . . I am able to recommend to you the awarding of a bonus for those who also served in other wars and received some bonus. More than 6,000 Vietnam veterans are currently ineligible for the bonus approved in 1988 . . . because of service in a prior war. For example, one individual was ineligible for the Vietnam veterans' bonus after serving a full tour . . . because he had received a nine dollar Korean War bonus. That is an inequity we need to correct.

Also, I am placing before you confirmation of appointments to the State Board for Elementary and Secondary Education . . . and the Council for Education Technology.

Finally, I've placed on the agenda the impeachment of Commissioner of Agriculture, Ward "Butch" Burnette. It is unfortunate that this matter has come to this point. Only two other times in our history has it been necessary to impeach a duly elected constitutional officer. However, we need to move on with the business of agriculture in Kentucky . . . and we can only do that, unfortunately, by undergoing this process.

The issues on this agenda will let us begin this new year as we have each new year . . . determined to move Kentucky ahead. As the old saying goes . . . if you're not moving forward, you're standing still. For far too many years Kentucky did stand still. We stood in place . . . we marked time . . . and we saw state after state move ahead of us. But no more. Today, they look to us for leadership.

When was the last time Kentucky was held forth as an example of leadership in education? When was the last time Kentucky led the southeast in job creation? Or who remembers a time when Kentucky was recognized by organizations like the National Alliance of Business and Institutional Investors magazine not as a leader . . . but as the leader in innovation in state government. Today, we can say with pride that we lead in all this . . . and more. And if we do our part . . . you and I . . . Kentucky will continue to out-dream, out-work, and out-perform every other state in the nation. The actions you will take in this special session will mark the next important step. So now, in a spirit of cooperation and shared determination to do what's right for Kentucky . . . let's turn to the business at hand.

Thank you, and God bless you.

Representative Morris moved the adoption of the following **HR 28**:

HR 28, A RESOLUTION petitioning Congress to return some control over franchised cable television companies to local governments.

WHEREAS, Cencom Cable Television has increased rates to Hopkinsville residents six times in the six years since federal law freed cable companies from most local control, nearly tripling the cost of basic service since 1981; and

WHEREAS, Cencom has disregarded pleas by Hopkinsville city officials and a petition by residents, callously suggesting instead that the city reduce its three percent franchise fee; and

WHEREAS, since passage of the 1984 Cable Communications Policy Act, cable companies across the country have abused their unfettered market power with unprecedented increases, both in rates and in company profits; and

WHEREAS, the federal law rendered states powerless on this issue, so only Congress can undo what it has done, and correct the excessive deregulation of the 1984 Act;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

Section 1. That the House of Representatives petitions Congress to act quickly to return to local governments, such as the City of Hopkinsville, some control over the rates and services of cable television companies which operate under their franchises.

Representative Riner moved the adoption of the following **HR 18**:

HR 18, A RESOLUTION recognizing the supreme authority and just government of Almighty God in all the affairs of men and of nations and calling the citizens of the Commonwealth to prayer, fasting, and confession of national transgressions.

WHEREAS, in the words and spirit of Abraham Lincoln's Proclamation of March 30, 1863, calling the nation to prayer and fasting to end the curse of war: it is the duty of nations as well as of men to own their dependence upon the overruling power of God; to confess their sins and transgressions in humble sorrow, yet with the assured hope that genuine repentance will lead to mercy and pardon; and to recognize the sublime truth, announced in the Holy Scriptures and proven by all history, that those nations only are blessed whose God is the Lord; and

WHEREAS, we know that by His divine law, nations, like individuals, are subjected to punishments and chastisements in this world, may we not justly fear that the awful cloud of war which now hangs over the land may be but a punishment inflicted upon us for our presumptuous sins, to the needful end of our national reformation as a whole people? We have been the recipients of the choicest bounties of Heaven. We have been preserved, these many years, in peace and prosperity. We have grown in numbers, wealth, and power as no other nation has ever grown; but we have forgotten God. We have forgotten the gracious hand which preserved us in peace, and multiplied and enriched and strengthened us; and we have vainly imagined, in the deceitfulness of our hearts, that all these blessings were produced by some superior wisdom and virtue of our own. Intoxicated with unbroken success, we have become too self-sufficient to feel the necessity of redeeming and preserving grace, too proud as individuals to pray to the God that made us, too proud as a government to openly acknowledge our need for Divine forgiveness, mercy, guidance and favor; and

WHEREAS, it behooves us, then, to humble ourselves before the Living God, to confess our national sins, and to pray for clemency and forgiveness;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

Section 1. The Kentucky House of Representatives does hereby call the citizens of the Commonwealth to fasting and prayer for the forgiveness, mercy, and favor of Almighty God. All this being done in sincerity and truth, let us then rest humbly in the promise of God authorized by Holy Scripture that the united cry throughout the Commonwealth and the Nation will be heard on high, and answered with the assurance of God's providence and grace throughout the land:

"If My people who are called by My name will humble themselves, and pray and seek My face, and turn from these wicked ways, then I will forgive their sin and heal their land." (2 Chronicles 7.14)

Section 2. That on the day of passage, the Clerk of the House is directed to FAX copies of this Resolution and the sponsor's comments on the House Floor to all members of the Kentucky Delegation of Congress, the President of the United States, the Iraqi Embassy in Washington, D.C., and media designated by the sponsor.

Mr. President Pro Tem, Mr. Speaker, Governor Wilkinson, members of the General Assembly and honored guests.

This is a great honor for me to be here today to give voice to the intentions of the Kentucky Education Reform Act. And to begin the dialogue with you that is going to be so important over the next five or six years in bringing this creation to fruition. In the words of Kentucky's own Jesse Stuart, if all teachers in every school in American — rural, village and city — could inspire their pupils with all of the power they had; if they could teach them as they had never been taught before to live, to work, to play and to share; if they could put ambition into their brains and hearts, that would be the best way to make a generation of the greatest citizenry America has ever had.

The events of the last week show that America and Kentucky need to be great in these days, in these years, in this decade. There is a new world order emerging and much is at stake. Whether America will continue to be that beacon of inspiration for democracy and prosperity is at stake. Whether this next generation will be fully employable in jobs that challenge them, that reward them, that sustain their quality of life; whether we can continue to be first in peace, and yes, when necessary, first in defense of our freedoms and those of our allies; all of those things are at stake. Through your leadership, the Kentucky Education Reform Act commits our Commonwealth to the vision of Jesse Stuart that is as relevant today in the 1990's as it was when he wrote about it. Let me assure you that: (1) I share that vision very deeply; (2) I am very enthusiastic about this particular reform in this particular state; and (3) I will do everything in my power to bring it into being as you envisioned it.

I want to thank you very much for this leadership opportunity as well as for this moment to address you today. I'm reminded of the job description which calls for someone who can walk on water. I think each one of you has that kind of job description and I'm feeling that I may have one too . . . but I'm a little bit consoled by the story of the Chancellor at the University of California at Santa Barbara who took this new job located on the shore of the Pacific Ocean. He called in his cabinet, leaders and faculty and said to them, what could he do very quickly to establish his authority in the new job. They put their heads together and came back with the suggestion.

"Chancellor, you should call the faculty and students together next Sunday afternoon. Go down there to the lagoon and walk across that lagoon. If you do that, you will have their undivided attention."

He said, "bring them together".

He went down there the next Sunday afternoon. He walked across the lagoon. There was not a ripple of comment or applause. The student paper came out the next morning and said "New chancellor can't swim." So I am going to live up to your expectations in every way I can and I feel deeply privileged to be able to that.

This opportunity today is the first of an annual series that we will have on the implementation of KERA. I think it is especially important that we spend a little bit of time on the vision today so we start off with the right things in our hearts and souls about it.

I am aware that the General Assembly has a special duty to monitor what it has created. As stated by the Supreme Court, "the General Assembly must not only establish the system but it must monitor it on a continuing basis." Let me assure you that I and the other members of the Kentucky Department of Education look forward to working with you and your staff on the full, enthusiastic and intensive implementation of the Kentucky Education Reform Act.

That act starts with a vision, with the intention of closing two gaps that really threaten our society and our youngsters in particular. One of those gaps is equity: the difference between high spending districts and low spending districts, and above all, making adequate resources available. I know that each one of you really put your reputation on the line to make it move forward so that not only would the differences within Kentucky be lessened, but that Kentucky districts would come out of the bottom five or ten states in the country and move up toward the middle so that the investment would be there, so that the production could be created. And there was the other gap, the excellence gap, the difference between the average of Kentucky schools in the bottom quarter of the distribution of states and the rest of the country. But the really serious gap is the difference between American schools and schools in Europe and Asia. So as I take on this challenge I view it as an American challenge in which Kentucky has had an awakening first. If the automobile industry had this much insight about itself in the late 60's and early 70's, we would probably be living in a different world today. We are trying to keep American public education relevant and especially to keep Kentucky education relevant.

Let me give you an example of that excellence gap. In 1988 a report called "A World of Difference" was issued in which eight countries were reviewed in terms of what their 13-year olds knew and could do in the areas of science and math. There were three Asian countries, three European, Canada and America. We were last in math and second to last in science. In math the Koreans were first. They were 50 percent higher than our thirteen-year olds. All of those students were asked a bunch of questions, one of which was: answer yes or no, I am good at math. Twenty-one percent of the Koreans said yes and 70 percent of the Americans said yes. Now that is a very perilous gap between perception and production and it is exactly the gap that we intend to close in Kentucky education. When President Bush and the governors said that we need to be first in math and science by the year 2000, Kentucky has accepted that challenge. I think it is a realistic challenge and one that we are starting work on already in the implementation of KERA. We need to be producing a generation of producers, and not consumers. In order to do that we have to call on our teachers and children to step up to the line and take on this challenge in the same way that you as legislators have done. The choice we have is between high skills and low wages. We are committed to high skills and appropriate wages that will sustain our quality of life.

Let me credit the leadership of this state, the political leadership, the supreme court, the governor, the general assembly for having an insight which no other state to this point has had. Others have been confronted with this kind of school funding equity issue but they have taken a half a step, which is to try to deal with the equity issue and close the spending gap. In Kentucky the conclusion was that more money was necessary but not sufficient and that we would need to have much higher standards and powerful strategies for transforming schools along with the influx of new money. So the genius of KERA is that it brings together a grand vision for the children and youth of this state with these powerful strategies. That vision includes the assumption that all children can learn at dramatically higher levels that would put us into the same level as the competition all around the world and too, that we know how to make that happen. In doing those things, we will close a pedagogic gap, a difference that has grown up between what we know works in the classroom and what in fact is happening.

I'd like to talk about these strategies as having four pieces: results, restructuring, refinancing and rejoicing. Let me say just a word about results. We are looking for big gains, not small gains. I think they will be smaller in the first years than they will be later but that has to be our perception, to get up with the competition. In order to do that we will be bringing up a very strong measurement system.

In restructuring, we usually think about things like site-base decision making. That's important in this decentralized system, to let the workers and parents design for production. But we need to be looking at changes in teaching and learning behavior.

One that always catches my eye is the gap between what we know about homework and what we do about homework. There is a very strong connection between homework and learning. Students that practice get better. Basketball teams that practice win games. We know that during the whole 1980's the average time spent on homework stayed at about five hours per week for high school students. Meanwhile they're watching 15, 20 hours of television a week. We pumped lots of money in and did many other things but we didn't change that variable. In this comprehensive approach that we're taking, homework is the kind of thing that we need to change. It's not enough, it's not the only thing, but it's representative of the kind of change that has to happen.

We also need to be thinking about the so-called thinking curriculum and implementing it. There was a time when I was in school when I think it was believed that only students who were going to college really needed to learn how to write. It wasn't that important for other students to know how to write. But we know now that writing and thinking are so strongly connected that we have to insist that all students learn how to write, and that writing be presented to them in a way that is exciting and challenging and that they can succeed at and not be sitting in front of a piece of paper. As one person put it, "writing is easy, you just sit in front of the paper until beads of blood form on your forehead". If that's the experience of writing, we won't get the job done. But we know enough from writing in Kentucky and around the country to present that challenge much more engagingly.

We have talked about refinancing. You have really stepped up the line on that. My commitment to you is to use the resources that we have and that have been committed over time to make this thing happen.

Rejoicing. We have to make school more like basketball, more intensive, more strategic, more emotional, more competitive and cooperative, and more popular with the fans. When we start keeping score better, when we get competitions going, we're going to seen all of these things happening.

The design is impressive. It is the state of the art education design. The National Business Roundtable has now packaged what was done in Kentucky and is recommending it to other states around the country. I read recently where several other states are bringing proposals to their legislatures, proposals to do what Kentucky is committed to doing.

What is truly awesome about this situation is the political act of getting this reform through with as many features as it has. That's the piece that will be the subject of study by the "think tanks" that study state government to see what works and what doesn't work. In this case, a very unusual thing has happened, the political leadership of the state came together around a very powerful idea and made it happen. So I say to each one of you, congratulations, commendations, A+.

A word about the KERA implementation. We are going to begin soon, this week, our dialogue with your committees about the implementation of this very comprehensive act. I've been here now about two weeks, and I have been pleased to look in on many, many of the features and to receive and examine the status report which will be coming to your legislative committees within a week or ten days. I'm pleased with the teams that have been formed in the department to implement the reforms. I look forward to strengthening them, and working with them and being very responsive to legislative feedback.

We will be submitting another report at the end of June and we are going to be in conversation, which we've already started, with the Office of Education Accountability and the Legislative Research Commission on the types of information that legislators would find useful in making their own independent judgments about how well this is working. I want to say to you that I am personally going to be involved in every one of the features that is in any way problematic. I realize in saying that I'm getting ready to stretch myself but that's why I'm here, to learn on the job and really to burn the midnight oil to make this thing work.

Other parts of the implementation need to be kept in mind too. That is, this is a very wide reform. It certainly has educational aspects, and with the state board of education, I will be deeply involved in those. There are powerful continuing political and cultural matters, and we need to stay in attention with those. For example, I'm working with the coalition of education groups that is so important in representing school board members and teachers and administrators and the business community and others so that we can have a meeting of the minds about the implementation of this. I try to encourage us to view ourselves all as champions of change, as catching the spirit of the Kentucky Education Reform Act. I'm ready to welcome the state board of education to their important policy role as soon as they are confirmed by this body. They do have a very strong leadership role in all of this.

The act gives to me the opportunity to reorganize the Department of Education to make sure that it is the strongest state department in the country, and especially aligned with making KERA happen. That's what we're doing in these next six months. And finally the act eliminates all of the positions in the Department of Education at the end of June. As I've said to the people in the department, this is something that we have to take seriously at, both the reorganization and the restaffing. We have to approach that with great vigor and great integrity. This is a once in a lifetime opportunity. Our credibility with the legislature, the governor, and the people of Kentucky is on the line, and we want to do this right. I get a very positive response from the people in the department and that is the spirit with which we are going into this.

We need to bear in mind several impediments as we work together to make KERA happen over the next five or six years. There is the possibility of too much tinkering, I might say, too early. Now, there is a fine line between adjusting and tinkering, but let me put it this way. It's sometimes been said in school reform that we are so intent on it that we treat it like a plant. We pull it up every six months to check the roots for signs of growth. We want to keep the focus on making happen the commitments that we've already made.

The other piece that we have to bear in mind is continuing to deliver on the political courage that each one of you showed in voting for KERA. I know it is never easy to step up to the line on new taxes, and especially significant ones. It will continue to be an issue in implementation that we have adequate funding. I hope that you will stay the course and take the view that Howard Schnellenberger took at the University of Louisville when he came there five years ago and that he has carried through. He had a vision of a world class football team. He had strategies of recruiting and of getting the best players and coaches that he could. He made it happen. He built that program out of that vision continuously over that period of time. As we build our program we're not going to win every game., but we will win most. We're not going to complete every pass or score a touchdown in every possession. We may have to alter our game plan or vary our offense from game to game. As we build the program, our challenge, mine and yours, is to keep the vision before us, to persevere. If we do that together, then Kentucky will have a world class system of public schools within five years. And in 1996, we'll have our own fiesta.

In conclusion, I'd like to return to the vision of Jesse Stuart. He once wrote "the schoolroom is the gateway to inspire the nations's succeeding generations to greater and more beautiful living with each other, to happiness, to health, to brotherhood, to everything." I know, and you know, that the Kentucky Education Reform Act is committed to that vision. I want you to know that I come here with great enthusiasm and great confidence. We are going to make a mark for the children and youth of Kentucky. In so doing, we are going to show the way to American to sustain that vision that we all grew up believing in and that needs to be just as bright and beautiful and hopeful and powerful in the 21st century as it has been in the 20th century.

Thank you so much for this opportunity.

WHEREAS, American men and women are currently participating in Operation Desert Storm, defending the principles of America and democracy, risking their lives so that our brothers and sisters in Kuwait and across the world might enjoy the same freedoms which Americans take for granted; and

WHEREAS, America's great civil rights leader, Dr. Martin Luther King, Jr., whose birthday we celebrated yesterday, devoted his life to gaining the same freedoms for all Americans and once said, "If there is to be peace on earth and good will toward men, we must finally believe in the ultimate morality of the universe, and believe that all reality hinges on moral foundations;" and

Floor Amendments

The Clerk announced the filing of the following Floor Amendments to a Bill:

Floor Amendment No. 2 to **HB 1**, by Representative Noe:

Amend printed copy of **HB 1** on page 105, after line 22, by inserting:

"SECTION 43. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

(1) The General Assembly hereby finds, determines, and declares that the environmental problems caused by the consumption of disposable (single-use) diapers is a matter of statewide concern, that the continued production and use of disposable diapers only exacerbates the existing problems of waste disposal, depletion of natural resources, and litter, that reducing the amount of single-use diapers entering the waste stream and supporting the use of reusable cloth diapers will significantly improve the solid waste disposal problems Kentucky experiences, while improving the state's economy, and that the following information illustrates the distressing nature of the problem:

(a) Approximately eighteen billion (18,000,000,000) disposable diapers enter the solid waste stream in the United States each year. This is the equivalent of a barge load of diapers being thrown away every six (6) hours. Disposable diapers are one of the largest single components of the household waste stream, third only to food and beverage packaging and newspapers; and

(b) Seventy-five thousand (75,000) tons of plastic and over one million (1,000,000) tons of paper pulp are used each year to produce all types of disposable diapers.

(2) The General Assembly further finds, determines, and declares that cloth diapers provide a simple alternative that is both environmentally and economically sound and should therefore be promoted, that the promotion of cloth diapers through public education will spur economic growth through proliferation of small businesses that provide diaper services and related products, and that the use of cloth diapers by governmental agencies will provide Kentucky taxpayers with a substantial savings and will enhance the revenues of state institutions by decreasing their diaper budgets.

(3) The General Assembly further finds, determines, and declares that it is appropriate to develop innovative methods that encourage and support cloth diaper usage as the alternative to the use of disposable diapers and diapers labeled as biodegradable, as these products do nothing to reduce the volume of waste of landfills of this state.

SECTION 44. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

As used in Sections 43 through 50 of this Act, unless the context otherwise requires:

(1) "Birthing site" means any facility at which the delivery of a newborn infant takes place and which is licensed, certified, or approved by the Cabinet for Human Resources.

(2) "Child care center" means any facility which is maintained for the whole or part of a day for the care of five (5) or more children under the age of sixteen (16) years and not related to the owner, operator, or manager thereof, whether such facility is operated with or without compensation for such care and with or without stated educational purposes, and which facility is required to be licensed by the Cabinet for Human Resources. The term includes facilities commonly known as day care centers, day nurseries, nursery schools, kindergartens, preschools, play groups, day camps, and summer camps.

(3) "Cloth diaper" means any diaper made of material that allows for the reuse of the diaper by washing and sanitizing.

(4) "Cabinet" means the Revenue Cabinet.

(5) "Disposable diaper" means any diaper which is discarded after a single use, but "disposable diaper" does not include diapers intended to be used or which are in fact used by any person weighing over forty (40) pounds or who is over four (4) years of age.

(6) "Publicly funded facility" means any birthing site as defined in subsection (1) of this section and child care center as defined in subsection (2) of this section, which facilities receive public funds, directly or indirectly.

(7) "Sale" means any transfer, exchange, or barter, in any manner or by any means whatsoever, for a consideration. The term includes a gift made for advertising purposes by any person engaged in the business of selling disposable diapers as a means of evading the provisions of this Act or for any other purposes whatsoever.

(8) "Wholesaler" means any individual, firm, partnership, or corporation who first receives and distributes, in this state, disposable diapers for sale or resale.

SECTION 45. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

(1) On or after January 1, 1991, no person shall distribute, sell, or offer for sale in this state any package of disposable diapers manufactured after January 1, 1991, unless the package is labeled with a notice to consumers as set forth in this subsection regarding the solid waste impact of the product. The label shall be purchased from the Revenue Cabinet plus an additional charge that the cabinet may impose for the cost of producing the label, except that the cabinet shall procure and provide the labels in the most cost-efficient manner as possible. The label shall be located in a conspicuous place on the front display panel of the package, shall be in letters not less than twelve-point helvetica bold print type in a color that contrasts with the package, and shall state the following: This product may contribute to solid waste disposal problems in your community. Disposable diapers are used once and discarded. You may wish to consider the use of cloth diapers. Cloth diapers have less of an impact on the environment and your community.

(2) Any person who violates subsection (1) of this section shall be subject to a civil penalty, imposed in accordance with the Kentucky Rules of Civil Procedure, not to exceed fifty dollars ($50) per package of diapers.

(3) As used in this section, "person" means an individual, corporation, partnership, or association and includes any wholesaler or retailer.

SECTION 46. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

There is levied and shall be collected and paid to the Revenue Cabinet a tax upon disposable diapers by wholesalers or retailers of one-fourth of one cent ($0.0025) on each diaper. For the purposes of this section, "retailer" means any retailer who received disposable diapers for sale or resale from any source other than a wholesaler.

SECTION 47. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

(1) Payment of the tax imposed by the provisions of this Act shall be demonstrated by the affixing of labels described in Section 45 of this Act to any package of disposable diapers. The cabinet shall procure labels of a design and legend as required by Section 45 of this Act. The cabinet shall sell the labels for cash to wholesalers or retailers. In addition, the cabinet shall keep accurate records of all labels sold to

a wholesaler or retailer. No wholesaler or retailer who obtains labels from the cabinet shall sell or transfer any labels purchased pursuant to the provisions of this Act.

(2) Each wholesaler or retailer shall affix labels or cause the labels to be affixed to packages of disposable diapers and in a manner as the cabinet may specify. The labels may be affixed by a wholesaler or retailer at any time before the disposable diapers are transferred out of the person's possession.

(3) Credit shall be given by the cabinet for all taxes levied pursuant to the provisions of this Act on unsaleable merchandise when the cabinet is satisfied that the same has been returned to the manufacturer or has been destroyed by the wholesaler or retailer. The cabinet shall redeem any unused labels presented by any wholesaler or retailer within one (1) year after the date of issue of the labels at the price paid by the wholesaler or retailer.

(4) Any package of disposable diapers found at any place in this state without a label affixed thereto as provided in this Act, unless the diapers are in the possession of a wholesaler or retailer in the original unopened shipping package or in transit to a wholesaler or retailer, are declared to be contraband goods and may be seized without a warrant by the cabinet, its agents or employees, or by any peace officer in this state when directed or requested by the cabinet to do so. Nothing in this section shall be construed to require the cabinet to confiscate unlabeled packages of disposable diapers when it has reason to believe that the owner thereof is not willfully or intentionally evading the tax imposed by the provisions of Section 46 of this Act.

(5) Any package of disposable diapers seized by virtue of the provisions of this section shall be confiscated and the cabinet shall sell the confiscated goods at a public sale to a wholesaler or retailer to the best advantage of this state. The proceeds from the sale shall be remitted to the State Treasurer and distributed in accordance with Section 49 of this Act. The sale by the state shall not relieve the purchaser at the sale from paying the tax and labeling the packages so sold to a purchaser in the manner required by Sections 45 and 46 of this Act. The act or omission of any officer, agent, or other person acting for or employed by any person, firm, partnership, or corporation shall be deemed to be the act or omission of such person, firm, partnership, or corporation, as well as their own.

SECTION 48. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

(1) All sums of money received and collected in payment of the tax imposed on disposable diapers pursuant to Section 46 of this Act shall be transmitted to the State Treasurer, who shall distribute the money as follows:

(a) One hundred percent (100%) shall be credited to the general fund; and

(b) An amount equal to one hundred percent (100%) of the tax collected pursuant to Section 46 of this Act shall be transferred out of the general fund to the cash fund created in Section 49 of this Act to be available for appropriation by the General Assembly. The transfers shall be made by the State Treasurer as soon as possible after the twentieth day of the month following the collection of the tax.

(2) The secretary of the cabinet shall promulgate administrative regulations to effectuate the purposes of Sections 43 through 50 of this Act.

(3) No provision of Section 46 of this Act shall be construed to prevent the imposing, levying, and collecting of any tax upon sales of disposable diapers or upon the occupation or privilege of selling these products in any city in this state, nor shall the provisions of Section 46 of this Act be interpreted to affect any existing authority of local municipalities to impose a tax on disposable diapers to be used for local and municipal purposes.

SECTION 49. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

(1) There is hereby created in the State Treasury a fund to be known as the Alternatives To Disposable Products Cash Fund, which shall consist of money collected pursuant to Sections 46 and 47 of this Act. All money in the fund shall be subject to annual appropriation by the General Assembly in accordance with subsection (2) of this section. Any money not appropriated shall revert to the general fund at the end of each fiscal year.

(2) The money in the fund shall be available for appropriation as follows:

(a) For the direct and indirect costs of administering Sections 43 through 50 of this Act, but in an amount not to exceed five percent (5%) of the annual revenues to the fund that are attributable to taxes collected pursuant to Section 46 of this Act; and

(b) To the Cabinet for Human Resources to be distributed in equal shares for the following purposes:

1. Educational programs on the use of cloth diapers as the alternative to disposable diaper use, which programs shall be developed and administered in accordance with Subsection (1) of Section 50 of this Act; and

2. The development, administration, and evaluation of the cloth diaper alternative pilot project, which project shall be conducted in accordance with Subsection (2) of Section 50 of this Act.

4. The participation in or contribution of information to any clearinghouse for information concerning what consumers can do to reduce household waste, including information on alternatives to the use of disposable diapers and a list of diaper services in all areas of the state.

(2) On or before January 1, 1991, the secretary of the Cabinet for Human Resources shall develop and administer a one-year pilot project, using twenty (20) publicly funded facilities throughout the state that wish to participate in the project for the purpose of studying the impact of increasing the use of cloth diapers. The facilities shall include ten (10) birthing sites and ten (10) child care centers, each group of which shall represent rural and urban areas of the state and each of which shall represent the various sized facilities throughout the state. The study shall include, but need not be limited to, determinations concerning the following:

(a) Whether the use of cloth diapers increases or reduces the direct costs of purchasing diapers. For the purpose of making the determination, facilities shall document and report initial conversion costs;

(b) Whether increased use of cloth diapers in publicly funded facilities results in the increased use of cloth diapers by consumers of the facilities;

(c) Whether the use of cloth diapers in publicly funded facilities has any impact on disposable waste in the community served by the facilities; and

(d) Whether, as a result of the project, reliable information is available concerning the health of children diapered with cloth diapers as opposed to disposable diapers, including whether cloth diapering reduces diaper rash or other skin irritations.

(3) The secretary of the Cabinet for Human Resources shall submit written findings concerning the one-year pilot project to the General Assembly no later than April 1, 1992. The one-year pilot project authorization shall be repealed, effective July 1, 1992.

(4) The secretary of the Cabinet for Human Resources may contract with any individual or public or private agency or organization in carrying out the duties required in subsections (1) and (2) of this section.

HOUSE COMMITTEE ON IMPEACHMENT

FINAL REPORT

On January 15, 1991, the Speaker of the House of Representatives of the General Assembly of the Commonwealth of Kentucky, in Extraordinary Session, appointed a committee of seven to investigate the matter of Commissioner of Agriculture, Ward "Butch" Burnette, and upon completion of its investigation to report its findings and recommendations to the House. The members included: the Gentleman from Larue 26, the Gentleman from McCracken 3, the Gentleman from Laurel 85, the Gentleman from Union 7, the Lady from Jefferson 32, the Gentleman from Fayette 75, and the Gentleman from Floyd 95 who served as Chairman. Upon their appointment, the members stood before the House of Representatives to take the oath of office, swearing to fulfill their duties as charged.

The committee has met from time to time in executive session. The committee adopted Rules of Procedure to govern its proceedings, appointed Professor John M. Rogers, University of Kentucky College of Law, Special Legal Advisor, W. Stephen Wilborn, Counsel, and Anita Taylor, Clerk of the Impeachment Committee, with responsibility of maintaining a record of the committee's actions, the security of evidence received and assisting counsel.

The committee issued subpoenas to Secretary of State Bremer Ehrler and George Russell, Executive Director of the State Board of Elections; John C. Scott, Clerk of the Supreme Court of Kentucky; and Janice Marshall, Franklin Circuit Clerk requesting the following documents:

A copy of the Certificate of Election of Ward "Butch" Burnette to the office of Commissioner of Agriculture and any other relevant information concerning his current status in that office;

A copy of all proceedings before any court of the Commonwealth, including, but not limited to, pleadings, depositions, orders, videotapes, items of evidence, and briefs as would relate to the case of *Commonwealth of Kentucky v. Ward Burnette*, 90 CR 0126-2 and *Burnette v. Commonwealth*, 90 SC 204.

The subpoenas were continuing in nature, applicable to all items becoming available subsequent thereto.

The Committee chose to accept the judicial proceedings and resulting conviction as a valid basis upon which to believe that the conduct alleged did take place and the Committee found that such conduct is a sufficient basis on which to recommend that he be impeached.

Two complete records of the Impeachment Committee's actions, including copies of all evidence received are lodged in the office of the Committee Chairman, Room 304, State Capitol, for review by any member of the House.

The committee hereby recommends that the House of Representatives of the General Assembly of the Commonwealth of Kentucky, in Extraordinary Session, accept this Final Report of the House Committee on Impeachment, that the Resolution and Article of Impeachment attached hereto be adopted, and that the Article of Impeachment, accompanied with the original record of the Committee's actions, including the certified copies of all documents received by the Committee be laid before the Senate of the General Assembly of the Commonwealth of Kentucky as provided by law.

Complicity to Theft by Deception over $100, a felony in contravention of KRS 514.040 and KRS 502.020, in that he in the County of Franklin, Commonwealth of Kentucky, on or about June 20, 1988, and on or about July 16, 1988, with the intention of promoting or facilitating the commission of theft by deception, aided one Linda Campbell in committing the offense of theft by deception when he signed and approved time sheets submitted by Linda Campbell reflecting she had worked with the Department of Agriculture full time for the entire month of June, 1988, when he knew she had not been so employed and the time sheets reflecting such employment were false;

ARTICLE I

Ward "Butch" Burnette, was duly elected and qualified as Commissioner of Agriculture for the Commonwealth of Kentucky and continues to serve in that capacity; during his term of office, he engaged in conduct which resulted in his being charged with and convicted by a Franklin Circuit Court jury of Complicity to Theft by Deception over $100, a felony in contravention of KRS 514.040 and KRS 502.020, in that he in the County of Franklin, Commonwealth of Kentucky, on or about June 20, 1988, and on or about July 16, 1988, with the intention of promoting or facilitating the commission of theft by deception, aided one Linda Campbell in committing the offense of theft by deception when he signed and approved time sheets submitted by Linda Campbell reflecting she had worked with the Department of Agriculture full time for the entire month of June, 1988, when he knew she had not been so employed and the time sheets reflecting such employment were false; thereafter, his conviction was affirmed by the Supreme Court of Kentucky; the conduct reflected by his conviction resulted in a theft of funds belonging to the Commonwealth of Kentucky and thereby constituted a wilful disregard of his oath of office; and pursuant to Section 68 of the Constitution of Kentucky, such conduct is a misdemeanor in office and constitutes an impeachable offense under the Constitution of the Commonwealth of Kentucky.

"*(6) The court may, if it finds reasonable cause to believe that suspension would, for persons who must drive a motor vehicle as a condition of their employment, seriously affect the person's ability to continue in his employment, grant the person occupational driving privileges during the period of suspension.*

(7) If a person whose license has been suspended pursuant to this section or KRS Chapter 186 has not previously filed a petition alleging that the suspension would seriously affect the person's ability to continue his employment, the person may, at any time during the suspension, file a petition in the district court of appropriate jurisdiction alleging the fact. The court may, upon satisfactory proof that there is reasonable cause to believe that suspension would seriously affect the person's ability to continue in his employment, grant the person occupational driving privileges which shall be limited to the operation of a motor vehicle during the course of his employment, but not including travelling to or from the place of employment or elsewhere during the period for which the suspension would otherwise be imposed. The petitioner shall pay the costs of the proceeding and shall notify the Department of Vehicle Regulation. In this proceeding, the department shall be represented by the prosecuting attorney of the district court in which the petition is filed. The department shall provide to the prosecuting attorney evidence which shows that occupational driving privileges have been previously granted or other information pertinent to the petitioner's driving record.

The court shall deliver to the person a permit card, setting forth the time, place and other conditions limiting the defendant's use of a motor vehicle. The grant of occupational driving privileges shall be conditioned upon the person's having the permit in his possession at all times during which he is operating a motor vehicle.

(10) The court shall give information in writing to the Department of Vehicle Regulation of any action taken under this section."

(2) The filing of an appeal under subsection (1) of this section does not automatically stay the cabinet's revocation order. The court may grant a stay of the order only upon a motion and hearing with notice to the cabinet, and upon a finding that there is a reasonable probability that the petitioner will prevail on the merits and that the petitioner will suffer irreparable harm if the order is not stayed.

(3) The review shall be limited to the record before the cabinet, without taking additional testimony. If the court finds that the cabinet exceeded its constitutional or statutory authority, made an erroneous interpretation of the law, acted in an arbitrary and capricious manner, or made a determination which is unsupported by the evidence in the record, the court may reverse the cabinet's determination or remand the case to the cabinet for reconsideration in conformity with this chapter.

(4) The petitioner shall pay the cabinet the cost of preparing the transcript of the administrative hearing.

Section 22. KRS 189A.120 is amended to read as follows:

If an amendment of a charge of violation of KRS 189A.010 is granted the court shall record its reasons in the record of the case.

(2) When a blood alcohol reading in a prosecution for violation of KRS 189A.010 is ***.12*** [~~.15 percent (15/100%)~~] or above, no prosecuting attorney shall agree to the amendment of the charge to a lesser offense and shall oppose the amendment of such charge at trial, unless all prosecution witnesses are, and it is expected they will continue to be, unavailable for trial.

(3) ***No prosecuting attorney shall amend a blood alcohol content percentage, and shall oppose the amendment of such percentage, unless uncontroverted scientific evidence is presented that the test results were in error. In such cases the prosecutor shall state his reasons for agreeing with such amendment and the scientific data upon which the amendment was made shall be made a part of the record in this case.***

(4) The record of charges and disposition thereof, including reasons for amending the charges, shall be transmitted by the court to the Justice Cabinet for inclusion in the centralized criminal history record information system under KRS 17.150.

SECTION 23. A NEW SECTION OF KRS CHAPTER 189A IS CREATED TO READ AS FOLLOWS:

(1) The clerk of the court in which hearings for violation of KRS 189A.010 are heard shall report to the Administrative Office of the Courts on or within five (5) working days of January 1 and June 30 of each year the cases involving violations of KRS 189A.010 which have not resulted in a final ruling by the court within one hundred eighty (180) days of the date upon which the person was charged with a violation of KRS 189A.010.

(3) In any criminal prosecution for a violation of [~~KRS 189A.010 or~~] subsection (1) of this section, wherein the defendant is charged with having operated a vehicle ***which is not a motor vehicle*** while under the influence of intoxicating beverages, the [~~amount of~~] alcohol ***concentration, as defined in Section 1 of this Act,*** in the defendant's blood as determined at the time of making an analysis of his blood, urine, ***or*** breath [~~or other bodily substance~~], shall give rise to the following presumptions:

(a) If there was ***an alcohol concentration of less than*** 0.05 [~~percent (5/100%) or less by weight of alcohol in such blood~~], it shall be presumed that the defendant was not under the influence of ***alcohol*** [~~intoxicating beverages~~];

If through an inadvertence the defendant should be issued a license, the cabinet shall forthwith cancel it.

(3) The cabinet upon receiving a record of the conviction of any person upon a charge of operating a motor vehicle while the license of that person is denied or suspended, or revoked, or while his privilege to operate a motor vehicle is withdrawn, shall immediately extend the period of the first denial, suspension, revocation, or withdrawal for an additional like period.

In such cases the prosecutor shall state his reasons for agreeing with such amendment and the scientific data upon which the amendment was made shall be made a part of the record in this case.***

Motions, Petitions and Communications

Representative Richardson moved the adoption of the following Legislative Citation No. 6. Agreed.

The House of Representatives of the Commonwealth of Kentucky hereby recognizes and commends Al Runk for your concern, compassion for others and your "Good Samaritan" life-style. On a cold, rainy December 17, 1990, you stopped to assist a traveler experiencing car trouble. While this deed was one that appeared simple and unnoticeable, it was very much appreciated by the traveler. Barbara Rendel was so grateful, she wrote of your kindness in a letter to the editor in the Lexington Herald-Leader.

This prestigious body joins Representative Paul Richardson and Representative Louie Mack in saluting George Fritz and Al Runk for your kind acts and good deeds. We are proud to have you serve as officers of the House of Representatives. We extend to you our very best wishes.

However, in the case of a married nonresident taxpayer with income from Kentucky sources, whose spouse has no income from Kentucky sources, the taxpayer shall determine allowable tax credit(s) by either:

Prorating his tax credit(s) plus the tax credits for his spouse and dependents by the ratio of his Kentucky adjusted gross income as determined by KRS 141.010(10), without the adjustments contained in (f) and (g) of that subsection, to the total joint federal adjusted gross income of the taxpayer and his spouse;

(i) In the case of an individual who becomes a resident of Kentucky during the taxable year, the tax credits allowable under this subsection shall be that portion of those permitted therein that is represented by the ratio of the taxpayer's Kentucky adjusted gross income as determined by subsection (10) of KRS 141.010, without the adjustments contained in paragraphs (f) and (g) of that subsection, to his adjusted gross income as defined in Section 62 of the Internal Revenue Code;

Floor Amendment No. 2 to the Committee Substitute to **HB 11**, by Representative Yates:

Amend printed copy of **HB 11/HCS** on page 12, between lines 4 and 5 to add the following:

"***(6) The court may, if it finds reasonable cause to believe that suspension would, for persons who must drive a motor vehicle as a condition of their employment, seriously affect the person's ability to continue in his employment, grant the person occupational driving privileges during the period of suspension.***

(7) If a person whose license has been suspended pursuant to this section or KRS Chapter 186 has not previously filed a petition alleging that the suspension would seriously affect the person's ability to continue his employment, the person may, at any time during the suspension, file a petition in the district court of appropriate jurisdiction alleging the fact. The court may, upon satisfactory proof that there is reasonable cause to believe that suspension would seriously affect the person's ability to continue in his employment, grant the person occupational driving privileges which shall be limited to the operation of a motor vehicle during the course of his employment, but not including travelling to or from the place of employment or elsewhere during the period for which the suspension would otherwise be imposed. The petitioner shall pay the costs of the proceeding and shall notify the Department of Vehicle Regulation. In this proceeding, the department shall be represented by the prosecuting attorney of the district court in which the petition is filed. The department shall provide to the prosecuting attorney evidence which shows that occupational driving privileges have been previously granted or other information pertinent to the petitioner's driving record.

(8) In granting occupational driving privileges, the court may impose any condition it considers reasonable and necessary to limit the use of a motor vehicle by the person. The court shall deliver to the person a permit card, setting forth the time, place and other conditions limiting the defendant's use of a motor vehicle. The grant of occupational driving privileges shall be conditioned upon the person's having the permit in his possession at all times during which he is operating a motor vehicle.

(9) It shall be a violation of KRS 186.620(2) for a person granted occupational driving privileges to operate a motor vehicle for other than occupational purposes, in violation of any condition imposed by court, or without having the permit in his possession.

(10) The court shall give information in writing to the Department of Vehicle Regulation of any action taken under this section."

(1) A permanent nuisance shall be any private nuisance that:

(a) Cannot be corrected or abated at reasonable expense to the owner; and

(b) Is relatively enduring and not likely to be abated voluntarily or by court order.

(1) Any private nuisance that is not a permanent nuisance shall be a temporary nuisance.

(2) A temporary nuisance shall exist if and only if a defendant's use of property causes unreasonable and substantial annoyance to the occupants of the claimant's property or unreasonably interferes with the use and enjoyment of such property, and thereby causes the value of use or the rental value of the claimant's property to be reduced.

SECTION 6. A NEW SECTION OF KRS CHAPTER 411 IS CREATED TO READ AS FOLLOWS:

(1) In determining whether a defendant's use of property constitutes a private nuisance, the judge or jury, whichever is the trier of fact, shall consider all relevant facts and circumstances including the following:

1. The claimant occupied the property during the continuance of the nuisance, compensatory damages shall be measured by the diminution in the value of the use of the property which resulted from the nuisance; or

(2) A defendant who contributes to a nuisance is responsible for damages as provided in this section only to the extent of such defendant's proportionate contribution to the nuisance as provided in the provisions of KRS 411.182.

(3) No damages shall be awarded for annoyance, discomfort, sickness, emotional distress, or similar claims for a private nuisance. In the event a claim for injury or damage to a person is asserted in the same proceeding as a claim for damage to the claimant's property caused by a private nuisance, liability for such personal injury or damage shall be determined on the basis of applicable principles of tort law independent of whether the defendant's use of property is found to constitute a nuisance.

SECTION 8. A NEW SECTION OF KRS CHAPTER 411 IS CREATED TO READ AS FOLLOWS:

This Act shall not be construed as repealing any of the statutes or common law of the Commonwealth relating to nuisance, nor shall be construed to abridge any other rights or remedies available for personal or property damage, but shall be held and construed as ancillary and supplemental thereto.

WHEREAS, former WKYT-TV sports director Denny Trease created the fund as a memorial to his son, Todd, who died of lukemia at age 6, on October 24, 1975; and

WHEREAS, one of the groups thirty volunteers, Grace Lynch of Lexington, helped Trease create the memorial in 1976; and

WHEREAS, occasionally small donations along with a letter of thanks from grateful parents are sent to the fund, more is needed; and

HR 56 was adopted by voice vote.

Representative B. Smith moved that the rules be suspended to act upon a Resolution. Agreed.

Representative B. Smith moved the adoption of the following **HR 51**:

HR 51, A RESOLUTION petitioning and requesting the Congress of the United States to enact federal earthquake insurance and reinsurance legislation in order to assure a more effective means of providing aid to earthquake victims.

WHEREAS, the United States Congress and the United States Geological Survey have determined that all fifty states are vulnerable to the hazards of earthquakes, and at least thirty-nine states are subject to major or moderate seismic risk; and

WHEREAS, seventy million Americans are exposed to severe earthquake risk and an additional one hundred twenty million people are exposed to moderate earthquake risk; and

WHEREAS, because earthquake risk exists throughout most of the United States, earthquakes are a national problem requiring a national solution; and

WHEREAS, the next major earthquake may occur east of the Rocky Mountains, especially along the New Madrid Fault, where the strongest seismic events ever recorded in American history took place in 1811 and 1812; and

WHEREAS, a Midwestern and Eastern earthquake will do more damage than a California earthquake, due to geological differences which will cause damage over a larger geographic area, and due to the large number of structures in the East and Midwest that are not built to withstand major earthquakes; and

WHEREAS, states other than Kentucky, facing an especially high risk for earthquakes include Alaska, California, Washington, Oregon, Idaho, Utah, Missouri, Montana, Nevada, Wyoming, Arizona, New Mexico, Illinois, and Hawaii; and

WHEREAS, the probable maximum loss realized from an earthquake measuring 8.0 or higher on the Richter Scale is estimated at fifty to sixty billion dollars, including claims for workers' compensation, business interruption, property loss, and personal injuries; and

WHEREAS, the Loma Prieta earthquake which devastated northern California gave us a preview of the potential destruction in business and the financial community brought on by a great quake; and

WHEREAS, regardless of where in the United States an earthquake actually occurs, the financial implications will be nationwide, as indicated by the following examples:

(a) Infrastructure damage will affect the entire nation in the event of a major quake, which can rupture pipelines, down transmission power lines, block river traffic, and destroy interstate highways;

(b) The municipal bond market would be impacted by the sudden sale of billions of dollars in bonds by insurance companies to pay claims, and local communities across the country may find it difficult to enter the municipal bond market for some time after a major quake;

(c) Policyholders nationwide would be impacted as some insurance companies would become insolvent and others would have insufficient reserves to write new coverage for conventional risks, such as auto and homeowners coverage;

(d) Taxpayers throughout the country would pay for disaster relief efforts, as evidenced by the fact that taxpayers are currently paying for the four billion dollar federal rescue package passed by Congress in the aftermath of the California quake; and

WHEREAS, the current system of earthquake coverage is unacceptable to both the insurance industry and policyholder, inviting adverse selection and resulting in earthquake insurance coverage being unaffordable for many and unavailable for those most susceptible to the perils of earthquakes; and

WHEREAS, the Loma Prieta earthquake has shown how inefficiently the current coordination of federal and state relief funds operates, leaving many individuals without any assistance long after the earthquake has occurred; and

WHEREAS, a prepaid insurance fund, built up from premiums collected from homeowners throughout the nation, should save the federal government money in the long run by reducing the need for disaster relief; and

WHEREAS, the principal beneficiaries of a federally co-sponsored program would be the insurance policyholders themselves—America's homeowners and business owners who currently cannot afford earthquake insurance, and such a program would also protect our nation's economic health, which would be jeopardized by a severe disruption of a catastrophic earthquake;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

Section 1. That this honorable body is extremely concerned about the welfare of our citizens when we reflect upon the possibility of a major earthquake disaster occurring east of the Rocky Mountains, especially along the New Madrid Fault, which could greatly disable our Commonwealth.

Section 2. That this honorable body recognizes the importance of federal earthquake insurance legislation, and petitions and requests that the Congress of the United States enact a federally mandated earthquake insurance bill that will provide the security and aid our citizens so deserve.

Section 3. That the Clerk of the House of Representatives is directed to transmit copies of this Resolution to the Honorable Wendell H. Ford, 173A Russell Senate Office Building, Attention: Rob Mangas, Washington, D.C. 20510; the Committee on Banking, Housing and Urban Affairs, Dirksen Senate Office Building, Room 534, Washington, D.C. 20510; and Mr. Peter W. Friedman, Alliance of American Insurers, 1501 Woodfield Road, Suite 400 West, Schaumburg, Illinois 60173-8602.

(1) The person whose license was suspended or revoked may apply to the circuit clerk for reinstatement of the license. If all requirements of KRS Chapter 186 have been met and the license has not been suspended or revoked by the Transportation Cabinet for other reasons, the license shall be returned.

(2) Prior to the license being returned, the Transportation Cabinet shall require that an approved ignition interlock device be installed in any vehicle owned or operated by the person.

(a) As a condition of full reinstatement of the person's driving privileges after the ending date of the suspension which would have resulted from the conviction, the Transportation Cabinet shall require a device under this paragraph for at least the first six (6) months after the ending date of the use of the device caused by the conviction. Violation of the condition imposed under this paragraph is a Class B misdemeanor.

(b) If an ignition interlock system is required pursuant to this section, the person shall pay to the provider the reasonable costs of leasing, installing, maintaining, and monitoring the device.

(c) The Transportation Cabinet shall suspend the driving privileges or right to apply for driving privileges of a person who fails to install or use an ignition interlock device when required by this section. The suspension shall continue until six (6) months after the ending date of the suspension resulting from the conviction.

(3) A person commits a Class B misdemeanor if the person knowingly furnishes a motor vehicle without an ignition interlock device to someone who is not authorized to drive such a vehicle, if the person rents, leases, lends, or otherwise furnishes a motor vehicle to someone the person knows is required to install an ignition interlock device and the motor vehicle is not equipped with such a device that is in working order.

(4) A person commits the offense of unlawfully soliciting another to blow into an ignition interlock device or start a motor vehicle equipped with an ignition interlock device if the person has such a device as a requirement under this section, and the person requests or solicits another to blow into the device or start a motor vehicle so as to circumvent the device. The offense described in this subsection, unlawfully soliciting another to blow into an ignition interlock device or start a motor vehicle equipped with an interlock device, is a Class B misdemeanor.

(5) As used in this section, "ignition interlock system" or "ignition interlock device" means a constant monitoring device certified by the secretary of the Transportation Cabinet, which prevents a motor vehicle from being started at any time without first determining the equivalent blood alcohol level of the operator through the taking of deep lung breath sample for testing. The system shall be calibrated so that the motor vehicle may not be started if the blood alcohol level of the operator, as measured by the test, exceeds the level established by the Transportation Cabinet.

(6) The secretary of the Transportation Cabinet shall certify or cause to be certified ignition interlock systems for use in the Commonwealth and promulgate administrative regulations for the certification of these systems.

(a) The standards shall include, but not be limited to, the following:

1. The system shall not impede the safe operation of the vehicle;

2. The system shall have features that make circumventing difficult but do not interfere with the normal use of the vehicle;

3. The system shall correlate well with established measures of alcohol impairment;

4. The system shall work accurately and reliably in an unsupervised environment;

5. The system shall resist tampering and give evidence if tampering is attempted;

6. The system shall be difficult to circumvent and shall require premeditation to do so;

7. The system shall require a deep lung breath sample as a measure of blood alcohol concentration available;

8. The system shall operate reliably over the range of automobile environments; and

9. The system shall be manufactured by a party who shall provide liability insurance.

SECTION 31. A NEW SECTION OF KRS CHAPTER 189A IS CREATED TO READ AS FOLLOWS:

(c) The sticker shall be displayed during the entire time period the person has an occupational driver's license and the entire time period that the person is required to use an ignition interlock device.

(2) The Transportation Cabinet shall design a suitable sticker, not less than two inches (2") by three inches (3") which identifies persons to whom an occupational driver's license has been issued. The sticker shall readily identify its purpose, be yellow in background color, be tamper resistant, and be serially numbered.

(3) The Transportation Cabinet shall provide the stickers to circuit clerks for issuance to persons permitted to drive with an occupational driver's license.

(4) A person to whom an occupational license has been issued who fails to display the sticker required in this section in the manner prescribed and for the duration of time required by this section shall be guilty of a Class B misdemeanor, and the persons' occupational driver's license shall be revoked."; and

SB 1, AN ACT relating to tax incentives for the development and expansion of the air transportation industry in the Commonwealth of Kentucky.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 154 IS CREATED TO READ AS FOLLOWS:

For purposes of Sections 1 to 5 of this Act, the General Assembly finds and declares that:

(1) The general welfare and the material well being of citizens of the Commonwealth of Kentucky depend in large measure upon the development and expansion of industry in the Commonwealth, including the air transportation industry;

(2) The development and expansion of domestic and international air transportation service promotes economic development within the Commonwealth for the public purposes of relieving unemployment, and stabilizing and promoting the economy of the Commonwealth through the location of new industry and the retention of existing industry within Kentucky;

(3) It is in the best interest of the Commonwealth to induce the location and expansion of domestic and international air transportation service from within the Commonwealth in order to advance the public purposes of relieving unemployment by creating jobs that but for the inducements to be offered by the Commonwealth to certificated air carriers as provided by Sections 1 to 5 of this Act would not exist and of creating new sources of tax revenues for the support of public services provided by the Commonwealth; and

(4) The authority granted and the purposes to be accomplished by Sections 1 to 5 of this Act are proper governmental and public purposes for which public monies may be expended, and that inducement

for the location or expansion of air transportation facilities and related equipment by certificated air carriers within the Commonwealth is of paramount importance, mandating that the provisions of Sections 1 to 5 of this Act be liberally construed and applied in order to advance the public purposes.

SECTION 2. A NEW SECTION OF KRS CHAPTER 154 IS CREATED TO READ AS FOLLOWS:

As used in Sections 1 to 5 of this Act, unless the context requires otherwise:

(1) "Air transportation facilities and related equipment" means any facilities, improvements, or equipment located at an airport and used, directly or indirectly, by the certificated air carrier or its customers in the carriers business of transporting persons or property for hire. It includes exclusive space leased or owned by the certificated air carrier, common access areas, concession areas, aircraft ramps, taxiways, roadways, and vehicles which are part of an intra-airport train, subway, or automated fixed guideway transit system, but excludes any other ground vehicles and aircraft.

(2) "Investment" means all costs which, consistent with the fundamental project scope, the certificated air carrier, airport operator, or any bond trustee pays, commits to pay, or incurs in any manner for the purchase or acquisition of additional air transportation facilities for which construction was started after the base period, and related equipment which was not located at an airport in this Commonwealth prior to the base period. Included are costs directly related to the design, construction, purchase, acquisition, lease, use, or financing of part or all of the additional air transportation facilities and related equipment whether owned, leased, or used by the carrier or its customers. Financing costs shall be limited to the principal amount of bonds or other obligations, capitalized interest, and any related issuance costs and expenses. The total investment shall not be offset or otherwise reduced if the certificated air carrier or airport operator is or subsequently becomes eligible for any reimbursement from either federal funds or other funds which may be available, including funds generated directly or indirectly from passenger facility charges. Likewise, any subsequent adjustment to the total investment provided in a carrier's contractual obligation shall not adversely affect the amount of the investment if the fundamental project scope is not reduced.

(3) "Annual period" means the certificated air carrier's taxable year as provided in KRS 141.140.

(4) "Base period" means the certificated air carrier's annual period ending in 1990.

(5) "Contractually obligated" or "contractual obligation" means having entered into a written agreement or commitment to make an investment in air transportation facilities and related equipment in this state.

(6) "Gross Kentucky real wage base" means the wages subject to Kentucky income tax and Kentucky income tax withholding pursuant to KRS Chapter 141, paid by a certificated air carrier during the base period adjusted to reflect changes in the United States Department of Labor's "Employment Cost Index - Wages and Salaries" for the transportation industry or, at the option of the carrier and upon verification by the Revenue Cabinet, the carrier's actual general wage increases, through the end of the annual period for which tax credit is claimed pursuant to Section 4 of this Act.

(7) "Nonqualifying employees" means employees of the certificated air carrier whose employment with the carrier began after the base period; and

(a) The employees perform essentially the same functions which, by contract or otherwise, were performed in this Commonwealth for the carrier by another company at any time after the base period; or

(b) Their employment continued in this Commonwealth as the result of the carrier's purchase, merger, or other acquisition of or combination with another company.

(8) "Fundamental project scope" means the total project consisting of the additional air transportation facilities and related equipment as reflected in the carrier's application filed pursuant to Section 5 of this Act. It shall be measured by the carrier's increased capacity. Measures of increased capacity may include such factors as square footage, cost, employment, passenger or freight loadings or handling capabilities, number of aircraft departures, and other factors related to the increased investment.

SECTION 3. A NEW SECTION OF KRS CHAPTER 154 IS CREATED TO READ AS FOLLOWS:

(1) Subject to the provisions of subsections (4), (5), and (6) of this section and Section 5 of this Act, any certificated air carrier which is engaged in the air transportation of persons or property for hire shall be entitled to a Kentucky sales and use tax credit, as computed in subsection (3) of this section, on aircraft fuel, including jet fuel, purchased after June 30, 1991, for any annual period in which the carrier meets or exceeds the investment and fuel purchase qualification requirements prescribed in subsection (2) of this section.

(2) To qualify for the sales and use tax credit provided in subsection (1) of this section, the certificated air carrier shall:

(a) Prior to or during the annual period for which the credit is claimed, have made, caused to be made, or obtained contractual obligations to make, consistent with the fundamental project scope, an investment in the aggregate of at least three hundred million dollars ($300,000,000) in new and expanded air transportation facilities and related equipment in this Commonwealth; and

(b) During the annual period for which the credit is claimed, purchase and place into the fuel supply tank of its aircraft in this state not less than one hundred million (100,000,000) gallons of aircraft fuel, including jet fuel, for the carrier's direct operation of the aircraft in interstate or foreign commerce exclusively for the conveyance of property or passengers for hire. Nominal use of the aircraft fuel in intrastate commerce shall not affect this provision.

(3) The sales and use tax credit shall be an amount equal to the Kentucky sales and use tax otherwise applicable to aircraft fuel, including jet fuel, purchased by the certificated air carrier for its storage, use, or other consumption during the annual period, less four million dollars ($4,000,000). The four million dollar ($4,000,000) amount shall be increased to reflect the Kentucky sales and use tax on aviation fuel attributable to operations of any other company purchased, merged, acquired, or otherwise combined with the certificated air carrier after the base period. The amount of the increase shall be based on the Kentucky sales and use tax applicable to such aircraft fuel purchased during the twelve (12) month period immediately preceding the purchase, merger, or other acquisition by or combination with the certificated air carrier.

(4) To facilitate administration of the tax credit provided pursuant to this section, each qualifying certificated air carrier purchasing aircraft fuel, including jet fuel, on which the Kentucky sales and use tax for the annual period is reasonably expected to exceed the amount provided in subsection (3) of this section shall report and pay directly to the Revenue Cabinet the tax applicable to aircraft fuel, including jet fuel, purchased for its storage, use, or other consumption during the annual period, less the credit provided herein.

(5) Notwithstanding the provisions of subsection (1) of this section, no certificated air carrier shall be entitled to any tax credit pursuant to this section unless the carrier meets the requirements of subsection (2) of this section by the annual period ending in 1997.

(6) Each certificated air carrier claiming the sales and use tax credit authorized pursuant to this section shall file an annual sales and use tax reconciliation report with the Revenue Cabinet on or before the fifteenth day of the fourth month following the end of each annual period for which the credit is claimed. The report shall be filed as provided in Section 7 of this Act.

SECTION 4. A NEW SECTION OF KRS CHAPTER 154 IS CREATED TO READ AS FOLLOWS:

(1) Subject to the provisions of subsections (4) through (9) of this section and Section 5 of this Act, any certificated air carrier which is engaged in the air transportation of persons or property for hire shall be entitled to a general tax credit, as computed in subsection (3) of this section, for any annual period in which the certificated air carrier meets or exceeds the investment and gross wage qualification requirements prescribed in subsection (2) of this section and has elected to begin claiming the credit.

(2) To qualify for the general tax credit provided in subsection (1) of this section, the certificated air carrier shall:

(a) Prior to or during the annual period for which the credit is claimed, have made, caused to be made, or obtained contractual obligations to make, consistent with the fundamental project scope, an investment in the aggregate of at least three hundred million dollars ($300,000,000) in new and expanded air transportation facilities and related equipment in this Commonwealth; and

(b) During the annual period for which the credit is claimed, have gross wages subject to Kentucky income tax and Kentucky income tax withholding pursuant to KRS Chapter 141 which are at least fifteen million dollars ($15,000,000) greater than its gross Kentucky real wage base. In calculating the gross wages paid for the annual period for which the credit is claimed, there shall not be included the wages of any nonqualifying employees of the certificated air carrier.

(3) The general tax credit shall be an amount equal to ten percent (10%) of the increase in gross wages subject to Kentucky income tax and Kentucky income tax withholding paid by the certificated air carrier during the annual period as compared to the carrier's gross Kentucky real wage base. In calculating the gross wages paid for the annual period for which the credit is claimed, there shall not be included the wages of any nonqualifying employees of the certificated air carrier.

(4) The general tax credit may accrue for only five (5) consecutive annual periods of the qualifying certificated air carrier. The five (5) year limitation period shall begin at the election of the qualifying certificated

air carrier, but not later than the carrier's annual period beginning in 1997. The tax credit shall accrue to the carrier only for the annual periods during which the carrier meets or exceeds the requirements as provided in subsection (2) of this section.

(5) The general tax credit authorized to a qualifying certificated air carrier shall not exceed three million dollars ($3,000,000) for any annual period.

(6) The general tax credit authorized to a qualifying certificated air carrier shall not exceed a total of fifteen million dollars ($15,000,000).

(7) The general tax credit authorized shall be claimed by the qualifying certificated air carrier first against its Kentucky corporation income tax liability, then against its Kentucky corporation license tax liability, with any remaining balance to be claimed against its Kentucky sales and use tax liability. The credit shall not be applied to any other liability due the Commonwealth. The Revenue Cabinet may prescribe the method or manner for the qualifying certificated air carrier to claim the tax credit on applicable tax returns filed with the cabinet.

(8) If the tax liabilities against which the tax credit is to be claimed pursuant to subsection (7) of this section are not sufficient to fully absorb the allowable tax credit, or if a net operating loss carryback or other subsequent adjustment reduces the carrier's liability against which a credit authorized by this section has previously been claimed, the unused or excess balance of the allowable credit may be applied against the carrier's liabilities for the specified taxes for previous or subsequent annual periods within the five (5) year limitation period. However, no refund in excess of the net tax actually paid by the carrier shall be made by the Commonwealth because of the carrier's application of the unused or excess credit. Interest shall not apply to any tax refunded for a prior period resulting from the credit carryback provisions of this subsection.

(9) Each certificated air carrier claiming the general tax credit authorized pursuant to this section shall file an annual general tax credit reconciliation report with the Revenue Cabinet on or before the fifteenth day of the fourth month following the end of each annual period for which the credit is claimed. The report shall be filed as provided in Sections 6, 7, and 8 of this Act for each type tax against which the credit is applied.

SECTION 5. A NEW SECTION OF KRS CHAPTER 154 IS CREATED TO READ AS FOLLOWS:

(1) No certificated air carrier shall claim any tax credit pursuant to Sections 1 to 5 of this Act until its entitlement thereto is first determined by the Revenue Cabinet. Upon application to the cabinet, a certificated air carrier desiring to claim a tax credit pursuant to Sections 1 to 5 of this Act shall present documentation as may reasonably be required by the cabinet to define the fundamental project scope and verify the required investment, the increased capacity which is to result from the investment, and the anticipated project completion date. Documentation may include the carrier's contractual obligations, its corporation board resolutions or stockholder reports, airport board resolutions or actions, related financial transactions, and any other documentation which defines or describes the fundamental project scope and the carrier's planned investment and increased capacity. The secretary of the Revenue Cabinet shall, upon the cabinet's review of the documentation submitted by the carrier, make a tax credit entitlement determination and immediately give notice thereof to the carrier. In making an entitlement determination, the Revenue Cabinet shall seek whatever third-party counsel and advice deemed appropriate to satisfy itself that the fundamental project scope is sufficient to support at least a three hundred million dollar ($300,000,000) investment in additional air transportation facilities and related equipment. An entitlement granted by the secretary of the Revenue Cabinet for a certificated air carrier to claim any tax credit pursuant to this Act shall be subject to the provisions of subsection (2) of this section.

(2) Any certificated air carrier which is granted entitlement to claim any tax credit pursuant to Sections 1 to 5 of this Act shall, by the anticipated project completion date specified in the carrier's application filed pursuant to subsection (1) of this section, but not later than the carrier's annual period ending in 1997, demonstrate to the satisfaction of the Revenue Cabinet that an investment of at least three hundred million dollars ($300,000,000) has been made or that the carrier has completed at least ninety percent (90%) of the fundamental project scope. An investment of three hundred million dollars ($300,000,000) or the completion of at least ninety percent (90%) of the fundamental project scope shall constitute fulfillment of the investment requirement. Without precluding the carrier's demonstration by other means, completion of ninety percent (90%) of the projected increased passenger or freight handling or loading capacity, as measured by the number of gates or loading facilities, or completion of at least ninety percent (90%) of the total square footage of the buildings, including the fixtures and equipment therefor, which were to be constructed and equipped as a part of the fundamental project scope shall demonstrate completion of at least ninety percent (90%) of the fundamental project scope. If the carrier has not made an investment of at least three hundred million dollars ($300,000,000) and has not completed at least ninety percent (90%) of the fundamental project scope by the anticipated project completion date, but not later than the

carrier's annual period ending in 1997, all or a portion of the tax credit otherwise authorized pursuant to Sections 1 to 5 of this Act shall be forfeited as follows:

Fundamental Project Scope Completion Percentage	*Portion of Credit Forfeited*
At least 80%, but less than 90%	*25%*
At least 70%, but less than 80%	*50%*
Less than 70%	*100%*

(3) The Revenue Cabinet shall be responsible for determining the extent of the certificated air carrier's completion of the fundamental project scope. In making the determination, the cabinet shall consult with the certificated air carrier, the affected airport board and, if deemed necessary, with other persons.

(4) Subject to the provisions of KRS 131.110, notwithstanding the provisions of KRS 136.076, 139.620, 141.210, 413.120, or any other provision of the Kentucky Revised Statutes limiting the time for assessing taxes, the Revenue Cabinet shall assess against the carrier the amount of any tax credit previously claimed which is forfeited pursuant to subsection (2) of this section. Interest at the tax interest rate as defined in KRS 131.010(6) shall apply to the forfeited tax credit amount from the date the credit was claimed until reimbursement is made to the Commonwealth. The carrier shall be allowed to claim in any applicable subsequent annual periods only that portion of the credit otherwise authorized pursuant to Sections 1 to 5 of this Act which has not been forfeited as provided in this section.

(5) The dates set forth in subsection (2) of this section shall, upon notice by the carrier to the secretary of the Revenue Cabinet, be extended by an amount of time equal to any delay caused by circumstances reasonably beyond the carrier's control which prevent the carrier from completing the project by the anticipated project completion date, including construction delays and delays resulting from the carrier's compliance with applicable federal, state, or local laws, rules and regulations, or an order or judgment of a court or administrative agency. They may also be extended by the secretary of the Revenue Cabinet upon the carrier's showing of any other good cause. The Governor and the Legislative Research Commission shall be immediately notified of any extension granted pursuant to this subsection and the reason for granting the same.

(6) Upon the making of an initial tax credit entitlement determination pursuant to subsection (1) of this section, the Revenue Cabinet shall immediately give written notification to the Governor and the Legislative Research Commission and shall include a description of the fundamental project scope and a summary of the estimated costs. Upon making a final determination as provided in subsections (2) and (3) of this section, the Revenue Cabinet shall immediately give written notification to the Governor and the Legislative Research Commission of the extent to which the fundamental project scope was completed. Such notification shall include a summary of the total costs expended for the completed project and a description of any changes to or deviations from the fundamental project scope.

SECTION 6. A NEW SECTION OF KRS CHAPTER 136 IS CREATED TO READ AS FOLLOWS:

The general tax credit reconciliation report required to be filed by qualifying certificated air carriers pursuant to Section 4 of this Act shall be submitted to the Revenue Cabinet in a form and contain information and documentation as the cabinet may reasonably require to verify the carrier's computation of the tax credit and the use of the credit against the tax levied by KRS 136.070.

SECTION 7. A NEW SECTION OF KRS CHAPTER 139 IS CREATED TO READ AS FOLLOWS:

The sales and use tax aviation fuel tax credit reconciliation report and the general tax credit reconciliation report required to be filed by qualifying certificated air carriers pursuant to Sections 3 and 4 of this Act shall be submitted to the Revenue Cabinet in a form and contain information and documentation as the cabinet may reasonably require to verify the carrier's computation of the applicable tax credit and the use of the credit against the taxes levied by KRS Chapter 139.

SECTION 8. A NEW SECTION OF KRS CHAPTER 141 IS CREATED TO READ AS FOLLOWS:

The general tax credit reconciliation report required to be filed by qualifying certificated air carriers pursuant to Section 4 of this Act shall be submitted to the Revenue Cabinet in a form and contain information and documentation as the cabinet may reasonably require to verify the carrier's computation of the tax credit and the use of the credit against the tax levied by KRS 141.040.

(4) Notwithstanding the provisions of KRS 40.400, 40.430, or any other statute to the contrary, persons who have received the Kentucky veterans' bonus provided under KRS 40.005 to 40.230 or their beneficiaries may apply for the bonus provided for by KRS 40.400 to 40.560 by filing an application on or before the thirtieth day of June, 1992, but if an application is sent by mail, the adjutant general shall receive it if the postmark on the envelope shows date and time of mailing at or before midnight, central daylight time, on or before the thirtieth day of June, 1992. The form of application shall be that specified in KRS 40.460, except that the statement required by KRS 40.460(1)(d) shall be omitted.

Section 6. KRS 40.560 is amended to read as follows:

(4) Each claim coming before the board shall promptly be considered and decided by the three (3) members designated for that purpose. In every case, the board shall either affirm the decision of the administrator, or determine that a veterans' bonus should be paid, and to what persons and in what amounts. No written opinions or recitations of reasons for any decision need be made. A statement of the decision made shall be signed by at least two (2) of the three (3) members designated to decide the claim, and upon concurrence of two (2) members, a decision shall be final and not subject to reconsideration.

(5) When, after ***September 1, 1992*** [~~March 1, 1990~~], the board of review shall have decided all cases coming before it for decision, the chairman shall report such fact to the Governor in writing. The Governor shall thereupon declare that the board of review is dissolved, and shall so notify the members, and the functions and duties of the board shall be deemed to have been fully performed.

(2) Any person who is dead, unconscious or who is otherwise in a condition rendering him incapable of refusal is deemed not to have withdrawn the consent provided in subsection (1) of this section and the test may be given.

SECTION 13. A NEW SECTION OF KRS CHAPTER 189A IS CREATED TO READ AS FOLLOWS:

(1) The breath, blood, and urine tests administered pursuant to Section 12 of this Act shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person has committed a violation of KRS 189A.010(1). (4) Only a physician, registered nurse, phlebotomist, or medical technician, not otherwise prohibited by law and acting at the request of the law enforcement officer, can withdraw any blood of any person submitting to a test under this section.

(5) The person tested shall be permitted to have a person listed in subsection (4) of this section of his own choosing administer a test or tests in addition to any tests administered at the direction of the law enforcement officer. If for any reason, including but not limited to the inability of the defendant to deliver an adequate breath sample, the alcohol concentration cannot be measured by breath testing, the law enforcement officer shall require the defendant to take a blood test in lieu of the breath test.

(5) If the defendant then refuses, either by word or act of refusal, to submit to the blood test in lieu of the breath test, after the required warnings are given by the law enforcement officer, the defendant shall then be deemed to have refused to submit to alcohol concentration testing and be subject to the penalties provided for refusal to submit to the testing.

(6) Results of any test of the person's breath, blood, or urine, which is not performed in compliance with regulations promulgated under Section 14 of this Act, shall be inadmissible in any judicial or administrative proceeding.

If it is found that the defendant refused to take a test which was lawfully offered to him, the court shall impose the penalties provided in Section 16 of this Act.

(3) An appeal may be made from the ruling of the court in accordance with the Kentucky Rules of Criminal Procedure.

HR 65, A RESOLUTION requesting the Legislative Research Commission to study the needs and resources of county governments.

WHEREAS, county governments are essential to provide for the service needs of the citizens of the Commonwealth and to guide the economic development within their jurisdictions; and

WHEREAS, the demands upon all county governments to provide expensive services such as health care, emergency medical service, fire protection, jail facilities, solid waste programs, and economic development programs have increased and will continue to increase; and

WHEREAS, the capacity of counties to raise revenues for general governmental functions is strictly limited by the Constitution to property taxes and occupational license fees and taxes; and

WHEREAS, revenues generated by the state are currently shared with counties through a number of revenue sharing programs; and

WHEREAS, no study has been conducted to determine the relationship between the amount of state revenue shared with the various counties, the source of those revenues, and the needs of the counties for assistance;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

Section 1. The Legislative Research Commission is requested to conduct a study of the needs and resources of all counties. Elements of this study should include:

1. An analysis of constitutional restrictions on the capacity of county governments to raise revenues, and suggestions for possible constitutional amendments to enhance the capacity of county governments to raise their own revenues;

2. An examination of the possibility of increasing certain state revenue generating taxes and fees, with the increases returned to the counties of origin for the provision of services and economic development programs;

3. Analysis of the cost and benefit to the state and to local governments of industries located throughout the state, including extractive, manufacturing, and service industries. The analysis should consider all direct and indirect revenues generated and costs incurred, including but not limited to taxes generated, cost of incentives to locate, and the cost of services required by the industries, and the effect on environmental resources;

4. An analysis of the distribution of state governmental resources throughout the state through shared revenues and program implementation. The analysis should include transfers to all levels of local government, and should consider the source of revenues, the geographic distribution of revenue transfers and program implementation, use of revenue transfers, and the needs of the various counties and regions for state revenues.

Section 2. Due to the scope of this resolution, the Legislative Research Commission is requested to assign this study to various interim committees most qualified to accomplish the elements of the study. The commission is requested to appoint a coordinator of the research effort, and a single combined report of the findings of the various committees shall be submitted to the Legislative Research Commission no later than November 1, 1991.

For applications with a notice of intent filed prior to the effective date of this Act, the cabinet shall continue to process the application but no permit shall be approved until the governing body for the solid waste management area in which the facility is or will be located has made a determination in accordance with this section.

(2) No permit to construct or expand a municipal solid waste disposal facility shall be approved unless the applicant affirmatively demonstrates and the cabinet makes a written finding in the preliminary determination made pursuant to KRS 224.855(1) that the application conforms to and is consistent with all of the following:

(a) The capacity needs identified in the area solid waste management plan;

(b) Other elements of the area solid waste management plan, for permit applications filed after approval of those elements;

(c) The statewide solid waste reduction and management plan, for permit applications filed after completion of the plan; and

(d) Applicable zoning regulations adopted pursuant to KRS Chapter 100.

A municipal solid waste disposal facility meeting the requirements of subsection (1)(b) of this section shall not accept waste for disposal after July 1, 1995, unless it meets the most stringent contaminant standards effective January 1, 1991.

(2) The cabinet shall revise upward or downward the limitation contained in subsection (1) of this section if it determines that the revision is necessary to be consistent with the statewide solid waste reduction and management plan or the area solid waste management plan; to assure capacity for disposal of solid waste generated in Kentucky; to assure capacity for disposal of industrial solid waste generated in Kentucky as the result of economic development; to protect against risks to health, welfare, or the environment; or to allow a solid waste disposal facility to accept those wastes it is required to accept by a contract executed before October 1, 1990.

(3) The provisions of this section shall be incorporated in the permits of solid waste disposal facilities to which it applies not designed in accordance with the most stringent containment standards adopted by the cabinet for these facilities.

SECTION 19. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

The Governor is authorized to negotiate and enter into compacts with other states relating to the management of solid waste including reduction, collection, transportation, and disposal. Such compacts must be ratified by the General Assembly.

SECTION 20. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) In addition to its other powers, the cabinet may suspend the authority of a municipal solid waste management facility to accept waste streams upon any of the following grounds:

(a) The cabinet finds that any shipment of waste contains waste excluded by law from municipal solid waste disposal facilities in the Commonwealth;

(b) Any part of the waste streams in question are being transported by transporters who are not registered or certified in the Commonwealth in accordance with Section 22 of this Act.

(2) The suspension described in subsection (1) of this section shall terminate upon the cabinet's determination that the basis for the suspension has been corrected.

SECTION 21. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) No person shall transport or cause to be transported from outside the Commonwealth to a municipal solid waste management facility in the Commonwealth any waste unless each of the following persons, if not a resident of the Commonwealth at the time the waste is transported, has first irrevocably consented in writing to the jurisdiction of the courts of the Commonwealth and service of process in the Commonwealth, including summons and subpoenas, for any civil or criminal proceeding arising out of or relating to the waste that is shipped to a facility in this state:

(a) Any person who actually transports the waste;

(b) The employer of the person who actually transports the waste;

(c) Any person acting as a broker or otherwise arranging or contracting for the transportation of the waste, with the exception of persons initially generating municipal solid waste; and

(d) Any person who has contracted with the owner or operator of the facility for management of the waste at that facility.

(2) The original of the consent-to-service document shall be filed with the cabinet. A copy shall be filed with the owner or operator of each municipal solid waste management facility to which the waste is transported. The original and each copy shall be sent by certified mail, return receipt requested, at least seven (7) days before the first shipment of waste to a waste site or facility in the Commonwealth in the year for which the document is filed. The document shall be updated to reflect any changes in circumstances and refiled.

(3) A person who enters the Commonwealth pursuant to a summons, subpoena, or other form of process authorized by this section is not subject to service of process in connection with nonrelated matters that arise before his entrance into the Commonwealth.

(4) No owner, operator, or employee of a municipal solid waste management facility shall accept for treatment, transfer, storage, or disposal at the facility any waste from outside the boundaries of the Commonwealth unless a copy of the consent-to-service document required by this section and applicable to the waste is on file at the facility.

(5) The owner or operator of a municipal solid waste management facility shall keep the consent-to-service documents filed with him under this section at the facility in such a location and manner that they are readily accessible to the cabinet.

SECTION 22. A NEW SECTION OF KRS CHAPTER 174 IS CREATED TO READ AS FOLLOWS:

(1) As used in this section, "municipal solid waste transportation vehicle" means any truck, automobile, tractor, or other self-propelled vehicle not operated or driven on fixed rails or track used in the transportation of municipal solid waste; but does not include a vehicle used to transport municipal solid waste from a residence if the vehicle is owned or leased by an individual who lives in the residence, or a vehicle that is ten thousand (10,000) pounds or less.

(2) This section shall not apply to a vehicle used exclusively on private roads or to transport municipal solid waste within the boundaries of or to real property owned or leased by the generator of the municipal solid waste.

(3) This section shall apply to both publicly and privately owned municipal solid waste transportation vehicles.

(4) No person shall operate a municipal solid waste transportation vehicle within the Commonwealth without first having obtained a license from the Transportation Cabinet to operate a municipal solid waste transportation vehicle pursuant to regulations promulgated by the cabinet.

(5) No person shall cause municipal solid waste to be transported by a municipal solid waste transportation vehicle which has not been licensed by the cabinet as required by this section.

(6) The cabinet shall establish a municipal solid waste transportation vehicle licensing program. No more than one (1) license shall be required for any single business entity. An applicant shall file an application with the cabinet containing such information in such form as the cabinet requires, to include:

(a) Name, home address and Social Security number of a natural person who is the applicant or an officer of the applicant;

(b) Name and address of the principal place of business of the applicant;

(c) Vehicle identification number of each vehicle; licensing jurisdiction and registration number of each vehicle; type and gross weight rating or combination weight rating of each vehicle to be operated under the license;

(d) A consent-to-service jurisdiction document executed in accordance with KRS Chapter 224; and

(e) The applicant's Kentucky highway use tax identification number required by KRS 138.665 or proof that the applicant is not under the purview of KRS 138.665, and either the applicant's Interstate Commerce Commission identification number or United States Department of Transportation identification number.

(7) A copy of the municipal solid waste transportation license, which is specific to each individual vehicle operated by the licensee, issued by the cabinet under this section:

(a) Shall be carried at all times on any municipal solid waste transportation vehicle operating under the license; and

(b) Is valid for a period specified by the cabinet not to exceed three (3) years from the date of issuance.

(8) Each application for a license to operate a municipal solid waste transportation vehicle or vehicles shall be submitted with a registration fee equal to the product of ten dollars ($10) per year multiplied by the number of municipal solid waste transportation vehicles to be operated in the Commonwealth by the applicant. A license shall be amended annually if the number of municipal solid waste transportation vehicles operated by the applicant increases. The cabinet may promulgate by regulation a schedule for the annual amendment of municipal solid waste transportation licenses to add vehicles covered. Additional vehicles acquired or leased by the licensee after the beginning of the licensing year established by the Transportation Cabinet may be operated under an existing license, without amendment, until the annual amendment date specified by the cabinet. However, the licensee shall obtain a vehicle specific copy of the license from the Transportation Cabinet prior to using the vehicle in Kentucky to transport municipal solid waste. The registration fee for additional vehicles shall be prorated according to the amount of time remaining in the license period as of the amendment date.

(9) The cabinet shall promulgate regulations to implement this section within one hundred eighty (180) days after the effective date of this Act. The regulations shall include a procedure to allow the licensing of a vehicle in an emergency and shall require the cabinet to issue licenses and vehicle tags within thirty (30) days of receipt of an application. No municipal solid waste transportation vehicle shall be required to obtain a license until at least ninety (90) days after the effective date of regulations promulgated by the cabinet.

(10) Within ninety (90) days after the effective date of this Act, all municipal solid waste transportation vehicles shall display a placard which indicates that the vehicle is transporting municipal solid waste. A vehicle shall be in compliance with this subsection (10) if the placard has the words "SOLID WASTE" clearly printed in English and is clearly displayed or printed on the cab, container, or rear of the vehicle.

(11) This section shall not apply to a vehicle, or its operator, owned and used by a generator hauling waste generated by the generator to a municipal solid waste disposal facility or to a vehicle or person operating the vehicle which is hauling waste of a waste generator disposing of waste in its own solid waste facility.

Section 23. KRS 224.842 is amended to read as follows:

No person shall establish, construct, operate, maintain, or permit the use of a waste site or facility without first having obtained a permit from the cabinet [~~to establish, construct, maintain, operate or permit the use of the waste site or facility~~] pursuant to *this chapter and administrative* [~~rules and~~] regulations *adopted* [~~promulgated~~] by the cabinet.

SECTION 24. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) The cabinet may revoke, modify, suspend, or deny a permit for a waste site or facility if the applicant, or any of its key personnel has:

(a) Intentionally misrepresented or concealed any material fact in the application;

(b) Obtained or attempted to obtain the permit by misrepresentation or concealment;

(c) Been convicted by final judgment of any felony within five (5) years preceding the filing of the application;

(d) Been adjudged by an administrative agency or a court to have violated the environmental protection laws or administrative regulations of the United States, the Commonwealth, or any other state, and the cabinet determines that the conviction or adjudication is sufficiently probative of the applicant's inability or unwillingness to operate the facility in a lawful manner as to warrant revocation, modification, suspension, or denial of the permit. In making the determination, the cabinet shall consider:

1. The nature and details of the acts attributed to key personnel;

2. The degree of culpability of the applicant, if any;

3. The applicant's policy or history of discipline of key personnel for such activities;

4. Whether the applicant has substantially complied with all rules, administrative regulations, permits, orders, and statutes applicable to the applicant's activities in Kentucky;

5. Whether the applicant has implemented formal management controls to minimize and prevent the occurrence of these violations; and

6. Mitigation based upon demonstration of good behavior by the applicant, including prompt payment of damages, cooperation with investigations, termination of employment or other relationship with key personnel or other persons responsible for the violations, or other demonstrations of good behavior by the applicant that the cabinet finds relevant to its decision.

(2) (a) Before an application for the issuance, renewal, or transfer of a permit for a solid waste management facility may be granted or before there is a change in key personnel of the applicant, the applicant and each person who is a key personnel of the applicant shall submit to the cabinet a disclosure statement that meets the requirements set forth in subsection (2)(b) of this section and is executed under subsection (2)(c) of this section.

(b) In a disclosure statement required under this section, the applicant shall set forth the following information:

1. The name, business address, and Social Security number of the applicant and its key personnel;

2. A description of the applicant's and its key personnel's experience in managing solid and hazardous waste including any past or present permits or licenses held by the applicant or its key personnel since 1980;

3. A description of all civil and administrative complaints against the applicant and its key personnel for the violation of any state or federal environmental protection law that:

a. Have resulted in a fine or penalty of more than one thousand dollars ($1,000) within five (5) years before the date of the submission of the application; or

b. Allege an act or omission that constitutes a violation of a state or federal environmental protection law and that presented a substantial endangerment to the public health or the environment;

4. A description of all pending criminal complaints alleging the violation of any state or federal environmental protection law that have been filed against the applicant and its key personnel within five (5) years before the date of submission of the application;

5. A description of all judgments of criminal conviction entered against the applicant and its key personnel within five (5) years before the date of submission of the application for the violation of any state or federal environmental protection law;

6. A description of all judgments of criminal conviction of a felony under the laws of any state or the United States that are entered against the applicant and its key personnel within five (5) years before the date of submission of the application; and

7. The identification and location of all waste sites or facilities and solid waste management facilities in which the applicant or any of its key personnel has a financial or equitable interest, or is an officer, director, or manager;

(c) A disclosure statement submitted under subsection (2)(a)1. of this section shall be executed under oath or affirmation and shall be subject to the penalty for perjury under KRS Chapter 523;

(d) The cabinet shall investigate to verify the accuracy of the information set forth in a statement required under this section.

(3) The provisions of subsection (2) of this section shall not apply to an industrial solid waste disposal facility operated exclusively by the industrial solid waste generator on property owned by the industrial solid waste generator and which accepts only industrial solid waste exclusively from the industrial solid waste generator or wholly-owned subsidiary.

(4) This section shall not apply to a waste site or facility which is operated exclusively by a solid waste generator on property owned by the solid waste generator for the purpose of accepting industrial solid waste exclusively from the solid waste generator.

(5) This section shall not apply to a medical waste incinerator which is owned, operated, and located on the property of a hospital or university which is regulated by the cabinet and used for the purpose of treatment, prior to landfill, of medical waste received from the generator exclusively or in combination with medical waste generated by professionals or facilities licensed or regulated or operated by the Commonwealth.

(6) The provisions of this section shall not prohibit the cabinet from establishing by administrative regulation other grounds for the revocation, modification, suspension, or denial of a permit for a waste site or facility.

SECTION 25. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) The cabinet shall establish by administrative regulation a time frame for the review and issuance or denial of applications for a solid waste management facility permit or modification.

(2) The applicant shall have the burden of establishing that the application complies with all requirements of KRS Chapter 224 and the administrative regulations adopted by the cabinet. The cabinet shall make specific findings with respect to the compliance of the application with this chapter and the regulations of the cabinet.

Section 26. KRS 224.847 is amended to read as follows:

The General Assembly of the Commonwealth of Kentucky hereby finds, determines and declares, as follows:

(1) That Congress enacted the Hazardous and Solid Waste Amendments of 1984 establishing a clear bias against the disposal of hazardous waste in or on the land, and prohibits land disposal of a hazardous waste unless the Environmental Protection Agency determines that the prohibition is not necessary to protect human health and the environment and further recognized the environmental hazards of disposing of limited quantities of hazardous waste into solid waste landfills absent adequate design considerations.

(2) That in 1983 the U.S. Office of Technology Assessment published a comprehensive report which concluded that current land disposal technologies cannot guarantee the containment of hazardous wastes and protection of groundwater supplies.

(3) That a majority of Kentucky is underlaid by geology which is permeable and of little protection to groundwater resources from the contaminates, including hazardous waste, which can leach from a landfill disposal site.

(4) That Congress and the U.S. EPA have expressed the intention, in regards to environmental protection, that each state should be able to regulate to protect the environment in ways that are specific to the needs of each state and that each state does regulate the disposal of small amounts of hazardous waste differently.

(5) That waste flowing into solid waste landfills contains limited quantities of hazardous waste commingled with nonhazardous waste which produces a waste stream that is impossible to separate the hazardous components from nonhazardous contents.

(6) It is therefore the purpose of KRS 224.848 to require all waste streams ***disposed in Kentucky*** [~~coming into Kentucky for land disposal to be demonstrated~~] to be free of limited quantity hazardous waste components or that such waste streams be regulated [~~in the same manner as Kentucky waste generators~~] by being required to dispose of the waste in a landfill meeting strict design standards for groundwater protection.

Section 27. KRS 224.848 is amended to read as follows:

(1) [~~Any solid waste landfill in existence as of July 15, 1988, and accepting waste generated from outside of the boundaries of the Commonwealth shall demonstrate, within thirty (30) days of July 15, 1988, to the cabinet that:~~

~~(a) The site or facility conforms to the restrictions contained in subsection (3) of this section; or~~

~~(b) The waste accepted for disposal from outside of the boundaries of the Commonwealth does not contain limited quantity generator hazardous waste.~~

~~(2) After July 15, 1988,~~] All new solid waste ***disposal facilities and horizontal expansions of existing solid waste disposal facilities*** [~~landfills~~], with the exception of ***construction/demolition*** [~~inert~~] or residual landfills, shall meet the design, operating, monitoring, and recordkeeping requirements for contained landfills as defined in accordance with ***administrative*** regulations ***adopted*** [~~promulgated~~] by the cabinet. Special waste, as defined in KRS 224.868, except for waste from sanitary wastewater treatment facilities, shall be exempt from this section.

(2)[~~(3)~~] Limited quantity generator hazardous waste as defined by the cabinet and its administrative regulations shall not be disposed [~~of~~] in a solid waste ***disposal facility*** [~~landfill~~] unless the ***facility*** [~~landfill~~] meets the recordkeeping, groundwater monitoring, leachate collection and control systems, and liner system requirements of the ***administrative*** regulations ***adopted*** [~~promulgated~~] by the cabinet for contained landfills.

(3)[~~(4)~~] The cabinet shall implement procedures to assist limited quantity hazardous waste generators to dispose of such waste in compliance with the requirements of this section. Such procedures shall include assistance in the development of limited quantity waste collection and disposal programs, and maintenance of a list of [~~solid~~] waste ***sites or facilities*** [~~landfills~~] which meet the requirements of this section.

Section 28. KRS 224.849 is amended to read as follows:

In order to assist in solid waste planning and management, to further the goals of waste reduction and recycling, and to assist in identification of parties in the event of environmental problems arising from the transport or disposal of the waste, the cabinet ***shall adopt administrative regulations creating a manifest system which shall require that each shipment of waste received at a municipal solid waste management facility be accompanied by written documentation in a form determined by the cabinet. The manifest shall identify the geographic source or sources of the waste, by county, city, and state; contain a detailed description of types of waste contained in the shipment; list the names and addresses of the persons responsible for the collection and initial shipment of the waste; and list the names and addresses of the persons who subsequently stored, handled, transferred for shipment, contracted for or arranged its transportation or disposal, or transported the waste to the facility for disposal. The manifest shall provide a certification by each person named in the manifest that while the waste was in his custody or control no waste regulated by the cabinet as hazardous waste or infectious waste was introduced into the waste. A copy of each manifest shall be maintained at the municipal solid waste management facility and shall be open to inspection by representatives of the cabinet, shall be transmitted to the cabinet on a quarterly basis, and shall be considered non-exempt records available for public inspection. Ninety (90) days after the effective date of the initial administrative regulations adopted by the cabinet to effectuate this section, no municipal solid waste management facility shall accept waste unless it is accompanied by a manifest*** [~~may, as a permit condition, require a manifest system~~].

Section 29. KRS 109.011 is amended to read as follows:

The General Assembly of the Commonwealth of Kentucky hereby finds, determines, and declares, as follows:

(1) That an ever-increasing volume of solid waste ***both*** within ***and outside*** the Commonwealth is being generated as a result of increasing economic and commercial activity, continuing technological progress, and changes in methods of manufacturing, packaging, and marketing of consumer products, which results in additional solid wastes discarded by the users of ***these*** [~~such~~] products;

(2) That the continued economic and population growth of the Commonwealth has required increased industrial and commercial expansion and has made necessary the demolition of obsolete structures, the construction of new structures, the provision of highways and other avenues of transportation, and the construction and installation of public works which, together with pre-existing commercial, industrial, and agricultural operations, have resulted in the generation of further volumes of solid ***waste*** [~~wastes~~];

(3) That the handling of solid wastes has been primarily carried out through the dumping of [~~such~~] wastes on open soil and in landfills, which in some cases are inimical to the public health, safety, and welfare;

(4) That by the enactment by the Congress of the United States of the Resource Conservation and Recovery Act of 1976 (Public Law 94-580), as amended, the collection, sanitary disposal, and recovery of solid ***waste*** [~~wastes~~] has been determined to be a matter of nationwide importance, recognizing that the management of solid ***waste*** [~~wastes~~] should continue to be primarily the function of state, regional, and local agencies; and that pursuant to ***this*** [~~such~~] federal law, the Commonwealth has taken and will take certain actions in respect to the planning and implementation of solid waste plans within the guidelines of time requirements set forth in ***this*** [~~such~~] federal law;

(5) That as a result of the conditions described in the foregoing findings, problems of solid waste collection, management, and treatment, and resource recovery activities in connection therewith have become a matter of statewide concern necessitating action by the General Assembly to:

(a) Enable responsible planning and management agencies to be created to define solid waste management requirements, with all of the foregoing subject to regulation by the Natural Resources and Environmental Protection Cabinet***;*** [~~, and~~]

(b) Assist those units of government primarily responsible for the management of solid waste and the acquisition, financing and operation of facilities to dispose of ***solid waste*** [~~same~~] to fulfill their functions in a responsible and proper manner with primary emphasis on the regionalization of ***these*** [~~such~~] functions; ***and***

(c) Reduce the amount of solid waste generated and disposed in Kentucky;

(6) That it is the intent of the General Assembly of the Commonwealth of Kentucky that the primary responsibility for adequate solid waste collection, management, treatment, disposal, and resource recovery shall rest with [~~counties, or~~] combinations of counties and waste management districts, subject to standards set by ***administrative*** regulations ***adopted*** [~~promulgated~~] by the Natural Resources and Environmental Protection Cabinet. In those cities currently operating solid waste management systems, the city and county may assume joint responsibility of preparing a solid waste management plan. ***If*** [~~Where~~] it is in the best public interest to do so and with the mutual agreement of both the county and city, a county may delegate responsibility for adequate collection, management, treatment, disposal, or ***materials*** [~~resource~~] recovery to a city. ***This*** [~~Such~~] delegation of responsibility is contingent upon the approval of a solid waste management plan by the cabinet. The purpose of delegating responsibilities shall be to effectuate the safe and sanitary management, use, and handling of solid waste, the protection of the health, welfare, and safety of the citizens and inhabitants of the Commonwealth, and for making the most efficient use of all resources for the benefit of the citizens and inhabitants of the Commonwealth;

(7) That the General Assembly recognizes [~~that~~] the generation of solid waste is inevitable, but [~~that~~] much of it is unnecessary and should be discouraged. [~~;~~] However, where solid waste does exist, it should be considered to the extent possible as a valuable resource, and be made use of wherever and whenever desirable and economically justifiable. [~~;~~] Therefore, it shall be the policy of the Commonwealth to, above all things, encourage resource conservation and preservation of our natural resources before [~~such~~] waste contributes in a needless fashion to the volumes of solid waste and litter produced by our society***;*** [~~,~~] but in dealing with existing solid waste, materials recovery from the solid waste stream is deemed to be the most environmentally sound alternative for handling waste;

(8) It is not the intent of this chapter to prohibit or discourage the participation of the private sector in any aspect of solid waste management. Moreover, it is preferable for solid waste management functions to be performed by the private sector when ***it*** [~~such~~] is in the best interests of the public and conforms with the policies and provisions [~~set forth~~] in this chapter;

(9) ***It is the intent of the General Assembly that counties and waste management districts cooperate to develop and implement the solid waste management plans mandated by KRS Chapter 224 and the administrative regulations adopted by the cabinet with the goal of regionalizing the management of solid waste;***

(10) It is the intent of the General Assembly that waste requiring disposal in municipal solid waste disposal facilities be reduced and that solid waste be managed in an environmentally protective manner;

(11) Notwithstanding any provision of KRS Chapters 82, 83 and 94, it is the intent of the General Assembly that this chapter and KRS 67.083 (3)(o) provide counties with [~~primary~~] authority to develop a solid waste management system for solid waste generated within the geographical boundaries of the county, consistent with the provisions of this chapter and KRS Chapter 224. It is further the intent of the General Assembly that cities be authorized to finance, own, and operate solid waste management systems with the consent of the county or by contract with the county, except that in the event a county fails to submit a [~~plan for~~] solid waste management ***plan*** pursuant to KRS ***Chapter 224*** [~~224.887~~] cities may proceed to develop solid waste management systems consistent with ***administrative*** regulations ***adopted*** [~~promulgated~~] by the ***cabinet*** [~~department~~] pursuant to KRS Chapter 224. Cities that develop solid waste management facilities pursuant to this section shall have all the powers and restrictions set forth for counties in KRS 109.041, 109.056, 109.059, and 109.062; ***and***

[~~(10) It is the intent of the General Assembly that this chapter provide counties with three (3) alternative approaches to the development and implementation of solid waste management plans. With the approval of the department, a single county may function as a solid waste management area as provided in KRS 109.072, or counties may elect to operate as a multicounty area in which they may agree to function pursuant to the terms of a contract as provided in KRS 109.082, or a county or counties may elect to operate as a waste management district pursuant to this chapter; and~~]

(12)[~~(11)~~] It is the intent of the General Assembly that waste management districts [~~and solid waste management areas,~~] which are formed and operated under this chapter[~~,~~] shall comply with the standards set by ***administrative*** regulations ***adopted*** [~~promulgated~~] by the ***cabinet*** [~~department~~] pursuant to KRS Chapter 224.

(1) Any county or waste management district***, if authorized by all the counties that comprise the district,*** may levy an annual tax, not to exceed ten cents ($0.10) on each one hundred dollars ($100) of assessed valuation of real property within the area subject to taxation for county purposes. The proceeds of such tax shall be used for solid waste management expenses of the area and for redemption of any bonds issued.

(2) The county or waste management district***, if authorized by the counties that comprise the district,*** may in lieu of the tax provided in subsection (1) ***of this section*** or in addition thereto finance the maintenance, operation, and capital acquisition costs of the area by fees to be collected from all persons receiving services from the area. ***The*** [~~Such~~] charges shall be fixed in [~~such~~] amounts as can be reasonably expected to yield revenues not in excess of the cost of operation and maintenance of the system and for an adequate depreciation fund and amortization of capital acquisition costs.

(3) The service charges authorized by subsections (1) and (2) of this section may be collected by the area directly or the area may enter into an agreement with other utilities either public or private to collect such charges.

Section 33. KRS 109.041 is amended to read as follows:

(1) In addition to all other powers enumerated in Chapter 67 and other sections of the Kentucky Revised Statutes, counties, acting by and through their fiscal courts, may ***own and hold the permit for,*** plan, initiate, acquire, construct, and maintain solid waste management facilities***, enter into contracts or leases with private parties for the design, construction, or operation of a publicly-owned solid waste management facility,*** and ***adopt administrative*** [~~promulgate~~] regulations with respect thereto in accordance with this chapter. It is hereby determined and declared that in the implementation, acquisition, financing, and maintenance of solid waste management facilities, and in the enforcement of their use, counties will be performing state functions duly delegated to them for the public welfare. In such regard, the right of counties to condemn land necessary for the acquisition of solid waste management facilities pursuant to the Eminent Domain Act of Kentucky and to exercise the police power in respect thereto is confirmed. Any county may contract with third parties for the management by public or private means of solid waste within the county.

(2) No ***solid waste management facility*** [~~sanitary landfill~~] shall be acquired and constructed until the construction thereof has been approved in writing by the ***cabinet*** [~~department~~]. Planning for ***a solid waste management facility*** [~~sanitary landfills~~] shall be conducted [~~only~~] in accordance with the policy set forth in KRS 109.011(7) ***and KRS Chapter 224.***

(3) Except as provided in KRS 109.062, no county or waste management district shall prohibit or otherwise restrict ***materials*** [~~the resource~~] recovery [~~of materials~~] by:

(a) Any ***materials*** [~~resource~~] recovery operation in existence in the county or district on the effective date of the mandatory program;

(b) Any person supplying material to ***materials*** [~~resource~~] recovery operations on the effective date of the mandatory program;

(c) Any new ***materials*** [~~resource~~] recovery operation that reclaims the same type of materials as ***materials*** [~~resource~~] recovery operations included in paragraph (a) of this subsection;

(d) Any new suppliers to ***materials*** [~~resource~~] recovery operations included in paragraphs (a) and (c) of this subsection;

(e) Any ***materials*** [~~resource~~] recovery operation for glass, plastic, or metal beverage containers, unless a commitment has been made by a local government or other political subdivision of the state, by ordinance or contract, to a solid waste project consistent with the provisions of this chapter, that is dependent upon the ***materials*** [~~resource~~] recovery of glass, plastic, or metal beverage containers to meet its financial obligations for said project, and such commitment has been made prior to the operation of any other such ***materials*** [~~resource~~] recovery facility in the county or district; or

(f) Any other ***materials*** [~~resource~~] recovery operation within the county or district not included in paragraphs (a) through (e) of this subsection or the supply of materials to such operation unless it is established that such operation would jeopardize the ability of a local government or other political subdivision of the state to meet financial obligations incurred in the maintenance, operation, or amortization of capital acquisition costs for a solid waste management facility.

(4) Notwithstanding any other provision of the Kentucky Revised Statutes to the contrary, no county or waste management district shall regulate special wastes as defined in KRS 224.868, other than sludge from water and waste water treatment facilities as it pertains to landfarming, or solid waste from agricultural or mining operations.

(5) Any county undertaking the planning, implementation, construction, installation, acquisition, and financing of a solid waste management facility pursuant to this chapter shall have the authority set forth in Chapter 58 of the Kentucky Revised Statutes concerning the financing of such solid waste management facility, including the authority to promulgate, enforce, and collect reasonable rates, rentals, and charges for the use of such solid waste management facility.

(6) Bonds authorized to be issued by any county pursuant to the authority of this chapter for the financing of solid waste management facilities may be sold at either private or public sale as may in the sound discretion of the county be in the best interests of the county.

(7) Any county undertaking solid waste management pursuant to the provisions of this chapter may contract with any person for the provision of solid waste management services. A county may contract with any city to provide solid waste management services or may delegate the responsibility for solid waste management within incorporated areas to a city when the city agrees to assume such responsibility. In connection with solid waste management, any county may enter into contracts with any person for any term of years.

(8) Counties are authorized to charge a reasonable fee to ***transporters*** [~~haulers~~] for the handling of their waste at a solid waste management facility approved by the ***cabinet*** [~~department~~].

(9) Counties are authorized to sell or market materials and energy recovered from solid waste and to enter into long-term contracts guaranteeing supply to insure markets for the sale of recovered products.

(10) In carrying out the provisions of this chapter, counties shall be subject to standards set by regulations ***adopted*** [~~promulgated~~] by the ***cabinet*** [~~department~~] on waste management pursuant to KRS Chapter 224.

(11) No county or waste management district shall prohibit long-term contracts by ordinance or other means.

(12) Counties are expressly authorized in addition to the powers enumerated in KRS Chapter 65 and this chapter to contract with one another in order to regionalize solid waste management to the maximum extent practicable.

(13) Notwithstanding any other provision of law, a fiscal court may, by ordinance, create a solid waste district to exercise the powers of the county pursuant to this chapter, except that a district created for this purpose shall not levy or collect ad valorem property taxes.

Section 34. KRS 224.835 is amended to read as follows:

(1) No person shall transport to or dispose of waste at any site or facility other than a site or facility for which a permit for waste disposal has been issued by the cabinet. Upon request, any transporter of waste shall receive from the cabinet a current list of permitted waste disposal sites or facilities and shall be subsequently notified of any new permits or changes in the status of permits for waste disposal sites and facilities in the Commonwealth.

(2) The use of open dumps is prohibited except in the case of an open dump which is under a timetable or schedule for compliance approved by the cabinet. The cabinet may enjoin the operation of any open dump which does not have a timetable or schedule of compliance approved by the cabinet.

(3) The cabinet may require any person who violates this section or KRS 224.842 to take appropriate response actions to close and reclaim[~~,~~] or upgrade open dumps to comply with applicable ***administrative*** [~~landfill~~] regulations ***adopted*** [~~promulgated~~] by the cabinet. If a demand for response action is not implemented within a time period specified in a demand or timetable or schedule for compliance issued or approved by the cabinet, the cabinet may enjoin the operation of the open dump and restore the site.

(4) Except as provided in KRS 224.857, the cabinet may assess any person who violates this section by failing to take appropriate actions to close and reclaim or upgrade open dumps, damages in an amount equal to the cost of closure as estimated by the cabinet. The money collected shall be placed in the agency account established under KRS 224.846(4) to be used for the site closure and restoration. Any money remaining after site closure and restoration from the amount assessed shall be returned to the person against whom any assessment was made.

Section 35. KRS 224.846 is amended to read as follows:

(1) Before the cabinet may issue a permit to operate a solid waste disposal [~~site or~~] facility, the operator shall file with the cabinet a bond payable to the Commonwealth of Kentucky with surety satisfactory to the cabinet in a sum to be determined by the cabinet on the recommendation of the secretary of each acre or fraction thereof of the area of land affected, with a minimum bond of ten thousand dollars ($10,000) per site, conditioned upon the faithful performance of the requirements in this chapter and of the rules and

administrative regulations of the cabinet to insure satisfactory closure of the facility. The cabinet may accept liquid or semi-liquid assets deposited in an escrow account for the operating life of the landfill plus not less than two (2) additional years as an alternative guarantee of adequate financial responsibility for closure of the facility. ***The cabinet may accept other satisfactory financial assurance as adequate financial responsibility for a waste site or facility which is generated exclusively by a solid waste generator on property owned by the solid waste generator for the purpose of accepting industrial solid waste exclusively from the solid waste generator.***

(2) An operator may at any time during the term of the permit apply to the cabinet for an amendment of the permit so as to increase or reduce the acreage affected by it. The operator shall file an application and map in the same form and with the same content as required for an original application under this chapter and shall pay a basic fee set by ***administrative*** regulation bearing a reasonable relationship to the cost of processing the permit application and shall file with the cabinet a supplemental bond for each acre or fraction of an acre of the increase approved. If the cabinet approved a reduction in the acreage covered by the original or supplemental permit, it shall release the bond for each acre reduced but in no case shall the bond for the site be reduced below ten thousand dollars ($10,000).

(3) When the facility has been filled, covered, graded, seeded and revegetated according to regulations promulgated by the cabinet and approved by the cabinet the secretary shall release the bond or other guarantee of financial responsibility that has been provided to the cabinet. However, the bond or other guarantee of financial responsibility shall not be released earlier than two (2) years from the date of the last placement of waste at the facility. If such closure requirements are not accomplished by the operator of the facility, the cabinet shall forfeit the bond or demand release of the moneys held to guarantee financial responsibility.

(4) All funds from the forfeiture of bonds or other sureties required pursuant to this section shall be placed in the State Treasury and credited to a special trust and agency account which shall not lapse. Such account shall be known as the "Solid Waste Disposal Site Restoration Fund" and [~~all~~] moneys placed in the fund shall be used [~~solely~~] for the proper closure of solid waste disposal ***facilities*** [~~sites~~] and insofar as practicable be used to correct the problems at the same site for which the bond or other sureties were originally provided.

(5) No operator or person shall be eligible to receive another permit to operate a solid waste ***management*** [~~disposal site or~~] facility who has forfeited any bond or other surety provided pursuant to this section, unless the land for which the bond or other surety was forfeited has been reclaimed without cost to the state, or the operator or person has paid such sum as the cabinet finds is adequate to reclaim such lands.

(6) Where one (1) operator succeeds another at any solid waste disposal [~~site or~~] facility prior to final closure, either by sale, assignment, lease, or otherwise, the cabinet may release the first operator from all liability under this section, provided that the successor operator meets the requirements of this section and assumes, as part of his obligation under this chapter, all liability for the reclamation and final closure of the area of land affected by the former operation.

(7) In the reclamation of land affected by incomplete or improper closure of a solid waste disposal [~~site or~~] facility for which it has the funds available, the cabinet may avail itself of any services which may be provided by other state agencies or by agencies of the federal government, and may compensate them for such services. The cabinet may cause the reclamation work to be done by its own employees, [~~or~~] by employees of other governmental agencies, or through contracts with qualified persons.

(8) The cabinet may also receive any federal funds, state funds or any other funds for the closure of solid waste disposal [~~sites or~~] facilities.

(9) The cabinet, any other agency, and any person under a contract with the cabinet pursuant to this section shall have the right of access to the land affected to carry out such reclamation.

(10) No city, county, urban-county government or agency of a city, county, or urban-county government, or taxing district, or other political subdivision of the Commonwealth shall be required to file any surety bond with the cabinet pursuant to this section for the operation of a solid waste disposal [~~site or~~] facility by such city, county, urban-county government or agency thereof, or taxing district, or any other political subdivision of the Commonwealth.

Section 36. KRS 224.855 is amended to read as follows:

(1) ***For purposes of this section, "waste disposal facility" means a contained landfill, construction/demolition debris landfill except for a landfill for the disposal of sand, soil, rock, gravel, bridge debris and other materials extracted as part of a public road construction project funded wholly or in part with state funds, residual landfill, solid waste incinerator, waste-to-energy facility, or a hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste.***

(2) No permit ***to construct or expand, when the expansion results in substantial additional capacity, a waste disposal facility*** shall be issued until a complete application has been submitted to and approved by the cabinet and notice of the application [~~for a waste site or facility~~] has been published, as provided for in subsections ***(4)***[~~(3)~~] and ***(5)***[~~(4)~~] of this section, at the expense of the applicant in a manner reasonably calculated to inform that portion of the public which is most likely to be affected by the operation of the proposed waste ***disposal*** [~~site or~~] facility. The publication shall take place after the cabinet has ***determined the application to be technically complete and issued a draft permit*** [~~made a preliminary determination of the application~~].

(3)[~~(2)~~] For ***a*** permit ***application*** [~~applications~~] to construct [~~or operate~~] a solid waste landfill or ***a*** permit ***application*** [~~applications~~] to ***expand, when the expansion results in substantial additional capacity,*** [~~modify~~] an existing solid waste landfill, the cabinet shall, upon first receiving the applications require immediately the general public notice provided for in subsections ***(4)***[~~(3)~~] and ***(5)***[~~(4)~~](a) to (d) of this section and upon determining that the application is administratively complete and at the time technical review begins, give special notice of the application to the county judge/executive or mayor of an urban-county government and members of the fiscal court or urban-county council of the county or urban-county government in which the landfill is or will be located. The special notice shall be in the form of an executive summary of the application. Also, at the time technical review begins, the cabinet shall again require the general public notice provided for in subsections ***(4)***[~~(3)~~] and ***(5)***[~~(4)~~](a) to (d) of this section with the additional information that the executive summary shall be available from the office of the county judge/executive or mayor of an urban-county government. Upon request by a county judge/executive, [~~or~~] mayor of an urban-county government, or a member of fiscal court or an urban-county council, the cabinet shall explain the application in a manner that is complete and expeditious. The cabinet shall notify the county judge/executive or mayor of an urban-county government if there will not be a public hearing on the applications. If there will be a public hearing, the cabinet shall notify the county judge/executive or mayor of an urban-county government fifteen (15) days prior to the hearing date.

(4)[~~(3)~~] At a minimum, publication shall be made at least once by advertisement in a daily or weekly newspaper of general circulation in the locality where the proposed ***waste disposal facility*** [~~site~~] is to be located.

(5)[~~(4)~~] The contents of the public notice of an application [~~for a waste site or facility~~] shall include the following:

(a) The name and address of the applicant;

(b) A brief description of the activity for which a permit is being sought;

(c) A description of the proposed location ***including a description of the primary access routes***;

(d) The name and address of this cabinet; and

(e) The following statement: "Any person who may be aggrieved by the issuance of a permit for this proposed waste ***disposal*** [~~site or~~] facility may file with the cabinet a petition which sets forth the grounds of the objection and demand a hearing pursuant to KRS 224.081(2)." Such hearing shall be held within the county where the waste ***disposal*** [~~site or~~] facility is proposed.

(6)[~~(5)~~] No permit ***to construct or expand, when the expansion results in substantial additional capacity, a waste disposal facility*** shall be issued until at least thirty (30) days have expired following publication of the application. The applicant for a permit ***shall*** [~~must~~] establish the date of publication by a verified affidavit from the newspaper which publishes the advertisement. If a hearing is requested, no permit ***to construct or expand, when the expansion results in substantial additional capacity, a waste disposal facility*** shall be issued prior to a ***final order of the secretary*** [~~completed hearing~~]. In the case of hazardous waste incinerators, landfills, and other sites or facilities for the land disposal of hazardous waste no permit shall be approved or issued prior to notification of the cabinet by the local unit of government of its actions pursuant to subsection ***(7)***[~~(6)~~] of this section.

(7)[~~(6)~~] The fiscal court of the county, urban-county government, or governing body of an incorporated municipality wherein a hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste is proposed, shall conduct a public hearing after public notice has been given in accordance with KRS Chapter 424 and shall vote to approve or disapprove the hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste within thirty (30) days after the hearing described in subsections ***(5)***[~~(4)~~] and ***(6)***[~~(5)~~] of this section. If no hearing is requested under the provisions of subsections ***(5)***[~~(4)~~] and ***(6)***[~~(5)~~] of this section, the fiscal court, urban-county government, or governing body of an incorporated municipality, shall conduct ***a*** [~~such~~] public hearing and vote to approve or disapprove the hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste within sixty (60) days following publication of the application. In making a determination the fiscal court, urban-county government, or governing body of an incorporated municipality shall consider the social and economic impacts of the proposed hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste on the affected community, including changes in property values, community perception, and other psychic costs; costs and availability of public services, facilities, and improvements required to support the incinerator, landfill, or other site or facility and protect public health, safety and the environment; and the relationship of the proposed hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste to local planning and existing development. After a fiscal court, [~~or~~] urban-county government, or governing body of an incorporated municipality has voted to approve or disapprove a hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste, the court, urban-county government, or governing body of an incorporated municipality shall so notify the cabinet in writing within ten (10) days. If a hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste is disapproved by the court, urban-county government, or governing body of an incorporated municipality, the reasons for disapproval shall be set forth clearly and concisely, and [~~so~~] recorded in the minutes. No permit shall be issued by the cabinet if a fiscal court, urban-county government, or governing body of an incorporated municipality disapproves the hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste in the manner prescribed herein.

(8) Upon first receiving a permit application to modify a solid waste landfill by reducing or eliminating any term or condition pertaining to the liner system, the cabinet shall require immediately the general public notice provided for in subsections (4) and (5) of this section.

(9)[~~(7)~~] The provisions of subsection ***(7)***[~~(6)~~] of this section shall not apply to:

(a) A proposed regional integrated waste treatment and disposal demonstration facility and any on-site remedial action facility authorized pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended;

(b) An existing hazardous waste incinerator having all required permits or authorizations as of March 4, 1988, ***but*** [~~provided however, that~~] subsection ***(7)***[~~(6)~~] of this section shall apply to any incinerator unit proposed for construction at an existing facility for which construction commenced after March 4, 1988, and to proposed hazardous waste incinerators for which a permit application has been filed but has not been issued as of March 4, 1988; and

(c) On-site incineration of hazardous waste by the generator of ***the*** [~~such~~] waste at the site of the waste generation including waste generated at another facility owned and operated by that generator[~~,~~] or wholly owned subsidiary.

(10) An application to construct a solid waste landfill shall consist of three (3) parts: a notice of intent to apply for a solid waste permit; an administrative application; and a technical application. Nothing in this section shall prohibit an applicant from submitting more than one (1) part at one (1) time.

(a) An applicant proposing to construct a solid waste landfill shall submit to the cabinet a notice of intent to apply for a solid waste permit. The notice of intent shall contain information specified by the cabinet. The cabinet shall within thirty (30) working days of receipt notify the applicant by certified mail, return receipt requested, of the approval or disapproval of the applicant's notice of intent. If the notice of intent is not complete, the cabinet shall state in writing the information necessary to complete the notice of intent and the thirty (30) day time period shall be tolled until such time as the applicant responds. The cabinet shall notify the applicant of the approval or disapproval of the applicant's notice of intent by certified mail, return receipt requested. If the cabinet disapproves a notice of intent to apply for a solid waste permit, it shall state in writing its reasons for the disapproval.

(b) The applicant shall submit an administrative application for a solid waste landfill consistent with the notice of intent to apply for a solid waste permit. The administrative application shall contain information specified by the cabinet. The cabinet shall within sixty (60) working days of receipt notify the applicant by certified mail, return receipt requested, of the approval or disapproval of the applicant's administrative application. If the administrative application is not complete, the cabinet shall state in writing the information necessary to complete the administrative application and the sixty (60) day time period shall be tolled until such time as the applicant responds. The cabinet shall notify the applicant of the approval or disapproval of the applicant's administrative application by certified mail, return receipt requested. If the cabinet disapproves an administrative application to apply for a solid waste permit, it shall state in writing its reasons for the disapproval.

(c) The applicant shall submit a technical application for a solid waste landfill consistent with the administrative application. The technical application shall contain information specified by the cabinet. The cabinet shall within ninety (90) working days of receipt notify the applicant by certified mail, return receipt requested, of the approval or disapproval of the applicant's technical application. If the technical application is not complete, the cabinet shall state in writing the information necessary to complete the technical

application and the ninety (90) day time period shall be tolled until such time as the applicant responds. The cabinet shall notify the applicant of the approval or disapproval of the applicant's technical application by certified mail, returned receipt requested. If the cabinet disapproves a technical application to apply for a solid waste permit, it shall state in writing its reasons for the disapproval.

(d) The permit review process, from the date of receipt of the notice of intent to the date the cabinet issues a draft permit to construct a solid waste landfill, or denies the application, shall not exceed three hundred sixty-five (365) calendar days, unless the cabinet and applicant agree otherwise. Failure of the cabinet to either issue a draft permit, or deny the application, within three hundred sixty-five (365) calendar days shall be deemed an order appealable pursuant to the provisions of KRS 224.081.

(e) If the cabinet does not request additional information or notify the applicant of the disapproval of the notice of intent or administrative application for a solid waste landfill within the time periods specified in this subsection, that portion of the application under review shall be deemed complete and approved, unless the cabinet and applicant agree otherwise.

(11) During construction of a liner system in a solid waste landfill, the cabinet shall periodically conduct inspections to verify that construction is being made in accordance with administrative regulations adopted by the cabinet and conditions contained in the permit. Except as otherwise provided in this section, the permittee shall not commence installation of any synthetic liner prior to a final inspection of any soil liner. The cabinet shall respond to any request for an inspection within two (2) working days of the request. If the cabinet fails to inspect within two (2) working days, the permittee may proceed to the next phase of construction, including installation of a synthetic liner, after submitting certification from a registered professional engineer that construction has been completed in accordance with applicable regulations and permit conditions. All inspections conducted for the cabinet shall be performed by a professional engineer registered in Kentucky.

(12) An applicant who is issued a permit to construct or expand, when the expansion results in substantial additional capacity, a solid waste landfill shall be issued a permit to operate in the areas included under the construction permit without further action when:

(a) The applicant submits a certification by an engineer registered in Kentucky that the liner system and facilities are constructed in accordance with the approved plans and specifications;

(b) A registered professional engineer for the cabinet inspects the facility and verifies in writing within ten (10) days of the submission of the engineer certification that the facility has been developed according to plans and that necessary equipment is available to operate the facility;

(c) The required financial responsibility for closure has been established using any of the mechanisms required by KRS 224.846 in an amount determined by an approved closure plan and cost estimate.

(13) A permit issued pursuant to this section shall carry with it the right of successive renewal upon expiration with respect to areas within the boundaries of the existing permit. The permittee may request renewal and such renewal shall be issued unless it is established and written findings are made by the cabinet that:

(a) The terms and conditions of the existing permit, this chapter, or applicable administrative regulations adopted by the cabinet are not being satisfactorily met;

(b) The permittee has not provided evidence that any performance bond in effect will continue in full force and effect for any renewal requested as well as any additional bond the cabinet might require;

(c) Any additional revised or updated information required by the cabinet has not been provided.

(14) Any permit renewal shall be for a term not to exceed the period of original permit. Application for permit renewal shall be made at least one hundred eighty (180) days prior to the expiration of the existing permit.

(15) The cabinet shall not adopt any regulation or standard or allow any exemption which applies to privately owned solid waste management facilities more stringently than it applies to publicly or municipally owned solid waste management facilities.

Section 37. KRS 224.857 is amended to read as follows:

The cabinet shall not enforce any provision of this chapter relating to improper disposal of solid waste against an owner, occupant, or person having control or management of any land if the owner, occupant, or person is not the generator of ***the*** [~~such~~] solid waste or is not ***disposing*** [~~dumping~~] or knowingly allowing the ***disposal*** [~~dumping~~] of [~~such~~] solid waste and has made reasonable efforts to prevent the ***disposal*** [~~dumping~~] of solid waste by other persons onto ***the*** [~~said~~] property.

Section 38. KRS 224.860 is amended to read as follows:

Failure on the part of any applicant to demonstrate financial responsibility to construct and operate the ***waste*** site ***or facility*** in accordance with the ***administrative*** [~~rules and~~] regulations promulgated by the ***cabinet*** [~~department~~] shall be the grounds for denial of a permit.

Section 39. KRS 224.868 is amended to read as follows:

(1) (a) For purposes of this section and KRS 224.876(7), special wastes are those wastes of high volume and low hazard which include but are not limited to mining wastes, utility wastes (fly ash, bottom ash, scrubber sludge), sludge from water treatment facilities and waste water treatment facilities, cement kiln dust, gas and oil drilling muds, and oil production brines. Other wastes may be designated special wastes by the cabinet;

(b) Disposal sites or facilities for special wastes shall be exempt from the provisions of KRS 224.866 and the provisions of KRS 224.896, 224.897, and 224.2203 to 224.2215 but may be regulated by the cabinet consistent with the Resource Conservation and Recovery Act of 1976, as amended (Public Law 94-580), and regulations issued pursuant thereto, unless the special waste received is listed or meets the criteria of a hazardous waste in regulations pursuant to KRS 224.864(3). If the special waste is a hazardous waste as specified in regulations pursuant to KRS 224.864(3), the site or facility shall be required by the cabinet to comply with the provisions of KRS 224.866 but shall not be subject to the requirements of KRS 224.855(6);

(c) Generators of special wastes shall register with the cabinet and be subject to the provisions of KRS 224.864, except for generators of coal mining wastes which shall be regulated pursuant to the provisions of KRS Chapter 350; and

(d) The cabinet shall, when promulgating regulations affecting special waste, recognize special waste as a separate and distinct indivisible category and shall recognize the distinct differences between the category of special wastes and other hazardous wastes and solid wastes as defined in KRS 224.005***(30)***[~~(24)~~](a) and KRS 109.012(9) due to the fact that special wastes have large volume but low hazardousness. The cabinet's regulations for the generation, transport, recordkeeping, reporting, treatment, storage, and disposal shall reflect those distinct differences. The cabinet's regulations shall recognize and incorporate, where appropriate, and if consistent with the policies of KRS 224.864 to 224.874, any deadline extensions, studies, and specialized requirements for specific kinds of special wastes that are or may be undertaken at the federal or other levels of government.

(2) Generators of waste oil shall be exempt from the provisions of KRS 224.864 and 224.866 so long as waste oil is not specified as a hazardous waste in regulations pursuant to KRS 224.864(3) but may be regulated by the cabinet consistent with the Resource Conservation and Recovery Act of 1976, as amended (Public Law 94-580), and regulations issued pursuant thereto.

SECTION 40. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

Effective July 1, 1992, the cabinet shall assign the equivalent of a full-time inspector to each solid waste disposal facility operating in Kentucky. The provision of this section shall not apply to a waste site or facility which is operated exclusively by a solid waste generator on property owned by the solid waste generator for the purpose of accepting industrial solid waste from the solid waste generator.

Section 41. KRS 224A.011 is amended to read as follows:

(1) "Administrative fee" means a fee assessed and collected by the authority from borrowers under assistance agreements, to be used for operational expenses of the authority.

(2) "Applicable interest rate" means the rate of interest which shall be used as part of the repayment criteria for an assistance agreement between a governmental agency and the authority, and shall be determined by the authority pertinent to the source of funds from which the assistance agreement is funded.

(3) "Assistance agreement" means the agreement to be made and entered into by and between a governmental agency and the authority, as authorized by this chapter, providing for a lease, loan, services, or grant to the governmental agency or for the purchase of obligations issued by the governmental agency, and for the repayment thereof to the authority by the governmental agency.

(4) "Authority" means the Kentucky Infrastructure Authority, which is created by this chapter.

(5) "Authority revenues" means the totality of all:

(a) Service charges;

(b) Water utility tax receipts, to the extent not otherwise committed and budgeted by the authority during any fiscal period of the authority;

(c) Any gifts, grants, or loans received, to the extent not otherwise required to be applied;

(d) Any and all appropriations made to the authority by the General Assembly of the Commonwealth of Kentucky, to the extent not otherwise required to be applied;

(1) He is deemed to have given his consent to one (1) or more tests of his blood, breath, and urine, or combination thereof, for the purpose of determining alcohol concentration or presence of a substance which may impair one's driving ability, if arrested for any offense arising out of a violation of KRS 189A.010(1) or 189.520(1).

(2) Any person who is dead, unconscious, or otherwise in a condition rendering him incapable of refusal is deemed not to have withdrawn the consent provided in subsection (1) of this section, and the test may be given.

(3) The breath, blood, and urine tests administered pursuant to this section shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person has committed a violation of KRS 189A.010(1) or 189.520(1).

(5) When the preliminary breath test, blood test, or other evidence gives the law enforcement officer reasonable grounds to believe there is impairment by a substance which is not subject to testing by a breath test, then blood or urine tests, or both, may be required in addition to a breath test, or in lieu of a breath test.

(6) Only a physician, registered nurse, phlebotomist, medical technician, or medical technologist not

(7) The person tested shall be permitted to have a person listed in subsection (6) of this section of his own choosing administer a test or tests in addition to any tests administered at the direction of the law enforcement officer. Tests conducted under this section shall be conducted within a reasonable length of time.

SECTION 7. A NEW SECTION OF KRS CHAPTER 189A IS CREATED TO READ AS FOLLOWS:

(a) That, if the person refuses to submit to such tests, the person's privilege to drive may be revoked for a period of six (6) months, or more, pursuant to this chapter; and

(b) That, if a test is taken and the results indicate that the person has an alcohol concentration of 0.10 or greater, or, if the person is under the influence of alcohol or a substance that may impair one's driving ability or a combination of alcohol and such substance, the person shall be subject to criminal penalties and the person's driving license may be revoked for a period of at least ninety (90) days.

(c) Nothing in this subsection shall be construed to prohibit a judge of a court of competent jurisdiction from issuing a search warrant or other court order requiring a blood or urine test, or a combination thereof, of a defendant charged with a violation of KRS 189A.010, or other statutory violation arising from the incident, when a person is killed or suffers physical injury, as defined in KRS 500.080, as a result of the incident in which the defendant has been charged.

Amend printed copy of **HB 11** on page 20, between lines 14 and 15 to add the following:

"***(7) The court may, if it finds reasonable cause to believe that suspension would, for persons who must drive a motor vehicle as a condition of their employment, seriously affect the person's ability to continue in his employment, grant the person occupational driving privileges during the period of suspension.***

(8) If a person whose license has been suspended pursuant to this section or KRS Chapter 186 has not previously filed a petition alleging that the suspension would seriously affect the person's ability to continue his employment, the person may, at any time during the suspension, file a petition in the District Court of appropriate jurisdiction alleging the fact. The court may, upon satisfactory proof that there is reasonable cause to believe that suspension would seriously affect the person's ability to continue in his employment, grant the person occupational driving privileges which shall be limited to the operation of a motor vehicle during the course of his employment, but not including travelling to or from the place of employment or elsewhere during the period for which the suspension would otherwise be imposed. The petitioner shall pay the costs of the proceeding and shall notify the Department of Vehicle Regulation. The department shall provide to the prosecuting attorney evidence which shows that occupational driving privileges have been previously granted or other information pertinent to the petitioner's driving record.

(9) In granting occupational driving privileges, the court may impose any condition it considers reasonable and necessary to limit the use of a motor vehicle by the person. The court shall deliver to the person a permit card, setting forth the time, place, and other conditions limiting the defendant's use of a motor vehicle. The grant of occupational driving privileges shall be conditioned upon the person's having the permit in his possession at all times during which he is operating a motor vehicle.

(10) It shall be a violation of KRS 186.620(2) for a person granted occupational driving privileges to operate a motor vehicle for other than occupational purposes, in violation of any condition imposed by court, or without having the permit in his possession.

(11) The court shall give information in writing to the Department of Vehicle Regulation of any action taken under this section."

(1) The person whose license was suspended or revoked may apply to the circuit clerk for reinstatement of the license. (2) Prior to the license being returned, the Transportation Cabinet shall require that certified, functioning ignition interlock device be installed and maintained in any vehicle owned by the person. If a person is required to operate a motor vehicle in the course and scope of employment and if the vehicle is owned by the employer, the person may operate the vehicle without installation of a functioning, certified ignition interlock device if the employer has been notified that the person's license is so restricted. A motor vehicle owned by a business entity that is wholly or partly owned by the person is not exempt under this section.

(a) As a condition of full reinstatement of the person's driving privileges after the ending date of the suspension resulting from the conviction, the Transportation Cabinet shall require a device under this paragraph for at least the first six (6) months after the ending date of the use of the device caused by the conviction. Violation of the condition imposed under this paragraph is a Class B misdemeanor.

(b) If a certified, functioning ignition interlock device is required pursuant to this section, the person shall pay to the provider, the reasonable costs of leasing, installing, maintaining, and monitoring the device.

(c) The Transportation Cabinet shall suspend the driving privileges or right to apply for driving privileges of a person who fails to install and maintain a certified, functioning ignition interlock device when required by this section. (4) A person commits the offense of unlawfully soliciting another to blow into a certified, functioning ignition interlock device or start a motor vehicle equipped with a certified, functioning ignition interlock device if the person has such a device as a requirement under this section, and the person requests or solicits another to blow into the device or start a motor vehicle so as to circumvent the device. The offense described in this subsection, unlawfully soliciting another to blow into a certified, functioning ignition interlock device or start a motor vehicle equipped with a certified, functioning interlock device, is a Class B misdemeanor.

The system shall be calibrated so that the motor vehicle may not be started if the blood alcohol level of the operator, as measured by the test, exceeds an alcohol concentration of 0.03.

(7) The secretary of the Transportation Cabinet shall certify or cause to be certified ignition interlock devices for use in the Commonwealth and promulgate administrative regulations for the certification of these systems.

(a) The standards shall include, but not be limited to, the following:

5. The system shall resist tampering and give evidence if tampering is attempted;

6. The system shall be difficult to circumvent and shall require premeditation to do so;

7. The system shall require a deep lung breath sample as a measure of breath alcohol concentration available;

8. The system shall operate reliably over the range of automobile environments; and

9. The system shall be manufactured by a party who shall provide liability insurance, if a minimum of one million dollars ($1,000,000) per occurrence and provide for indemnification of the state, its departments, agencies, officers, agents, and employees.

10. The manufacturer shall submit to the Transportation Cabinet a service plan for providing reasonable statewide service. The plan shall include a guarantee to repair or replace a defective system within forty-eight (48) hours after the manufacturer or his agent is notified that the system is defective.

11. The manufacturer shall provide a staffed twenty-four (24) hour toll free telephone number for customer service.

12. The manufacturer shall report biannually to the cabinet a summary of all customer service calls, warranty repair or replacement, and additional charges to participants over and above published prices.

I3. The manufacturer or its agent using procedures approved by the cabinet shall monitor, inspect for tampering and circumvention, and recalibrate each system a minimum of every ninety (90) days and report to cabinet.

I5. The manufacturer or its agent shall perform all installation and training procedures in a secure area pursuant to the manufacturer's written instructions.

I6. The manufacturer shall assume all costs associated with the certification of the system.

(b) The regulations may include in whole or in part the Federal Interlock Certification guidelines recommended by the National Highway Traffic Safety Administration.

SECTION 31. A NEW SECTION OF KRS CHAPTER 189A IS CREATED TO READ AS FOLLOWS:

(c) The sticker shall be displayed during the entire time period the person has an occupational driver's license and the entire time period that the person is required to use a certified, functioning ignition interlock device.

(2) The Transportation Cabinet shall design a suitable sticker, not less than two inches (2") by three inches (3") which identifies persons to whom an occupational driver's license has been issued. The sticker shall readily identify its purpose, be yellow in background color, be tamper resistant, and be serially numbered.

(3) The Transportation Cabinet shall provide the stickers to circuit clerks for issuance to persons permitted to drive with an occupational driver's license.

(4) A person to whom an occupational license has been issued who fails to display the sticker required in this section in the manner prescribed and for the duration of time required by this section shall be guilty of a Class B misdemeanor, and the person's occupational driver's license shall be revoked."; and

"SECTION 30. A NEW SECTION OF KRS CHAPTER 189A IS CREATED TO READ AS FOLLOWS:

(1) The person whose license was suspended or revoked may apply to the circuit clerk for reinstatement of the license. If all requirements of KRS Chapter 186 have been met and the license has not been suspended or revoked by the Transportation Cabinet for other reasons, the license shall be returned.

(2) Prior to the license being returned, the Transportation Cabinet shall require that certified, functioning ignition interlock device be installed and maintained in any vehicle owned by the person. If a person is required to operate a motor vehicle in the course and scope of employment and if the vehicle is owned by the employer, the person may operate the vehicle without installation of a functioning, certified ignition interlock device if the employer has been notified that the person's license is so restricted. A motor vehicle owned by a business entity that is wholly or partly owned by the person is not exempt under this section.

(a) As a condition of full reinstatement of the person's driving privileges after the ending date of the suspension resulting from the conviction, the Transportation Cabinet shall require a device under this paragraph for at least the first six (6) months after the ending date of the use of the device caused by the conviction. Violation of the condition imposed under this paragraph is a Class B misdemeanor.

(b) If a certified, functioning ignition interlock device is required pursuant to this section, the person shall pay to the provider, the reasonable costs of leasing, installing, maintaining, and monitoring the device.

(c) The Transportation Cabinet shall suspend the driving privileges or right to apply for driving privileges of a person who fails to install and maintain a certified, functioning ignition interlock device when required by this section. The suspension shall continue until six (6) months after the ending date of the suspension resulting from the conviction.

(3) A person commits a Class B misdemeanor if the person knowingly furnishes a motor vehicle without a certified, functioning ignition interlock device to someone who is not authorized to drive such a vehicle if the person rents, leases, lends, or otherwise furnishes a motor vehicle to someone the person knows is requested to install and maintain a certified, functioning ignition interlock device and the motor vehicle is not equipped with such a device that is in working order.

(4) A person commits the offense of unlawfully soliciting another to blow into a certified, functioning ignition interlock device or start a motor vehicle equipped with a certified, functioning ignition interlock device if the person has such a device as a requirement under this section, and the person requests or solicits another to blow into the device or start a motor vehicle so as to circumvent the device. The offense described in this subsection, unlawfully soliciting another to blow into a certified, functioning ignition interlock device or start a motor vehicle equipped with a certified, functioning interlock device, is a Class B misdemeanor.

(5) No person required to install or maintain a certified, functioning ignition interlock device shall tamper with the device, circumvent the device, fail to comply with periodic monitoring requirements or attempt to do any of these acts. Violation of this subsection is a Class B misdemeanor.

(6) As used in this section, "certified, functioning ignition interlock device" means a constant monitoring device certified by the secretary of the Transportation Cabinet, which prevents a motor vehicle from being started at any time without first determining the equivalent blood alcohol level of the operator through the taking of deep lung breath sample for testing. The system shall be calibrated so that the motor vehicle may not be started if the blood alcohol level of the operator, as measured by the test, exceeds an alcohol concentration of 0.03.

(7) The secretary of the Transportation Cabinet shall certify or cause to be certified ignition interlock devices for use in the Commonwealth and promulgate administrative regulations for the certification of these systems.

(a) The standards shall include, but not be limited to, the following:

1. The system shall not impede the safe operation of the vehicle;

2. The system shall have features that make circumventing difficult and that do not interfere with the normal use of the vehicle;

3. The system shall correlate well with established measures of alcohol impairment;

4. The system shall work accurately and reliably in an unsupervised environment;

5. The system shall resist tampering and give evidence if tampering is attempted;

6. The system shall be difficult to circumvent and shall require premeditation to do so;

7. The system shall require a deep lung breath sample as a measure of breath alcohol concentration available;

8. The system shall operate reliably over the range of automobile environments; and

9. The system shall be manufactured by a party who shall provide liability insurance, if a minimum of one million dollars ($1,000,000) per occurrence and provide for indemnification of the state, its departments, agencies, officers, agents, and employees.

10. The manufacturer shall submit to the Transportation Cabinet a service plan for providing reasonable statewide service. The plan shall include a guarantee to repair or replace a defective system within forty-eight (48) hours after the manufacturer or his agent is notified that the system is defective.

11. The manufacturer shall provide a staffed twenty-four (24) hour toll free telephone number for customer service.

12. The manufacturer shall report biannually to the cabinet a summary of all customer service calls, warranty repair or replacement, and additional charges to participants over and above published prices.

13. The manufacturer or its agent using procedures approved by the cabinet shall monitor, inspect for tampering and circumvention, and recalibrate each system a minimum of every ninety (90) days and report to cabinet.

14. The manufacturer or its agent shall maintain a record file for each active participant. The file shall contain information on installation, maintenance, tampering, noncompliance and service calls and shall be accessible to authorized personnel of the cabinet or the court system.

15. The manufacturer or its agent shall perform all installation and training procedures in a secure area pursuant to the manufacturer's written instructions.

16. The manufacturer shall assume all costs associated with the certification of the system.

(b) The regulations may include in whole or in part the Federal Interlock Certification guidelines recommended by the National Highway Traffic Safety Administration.

Before granting hardship driving privileges, the court shall order the person to submit to an assessment and evaluation of his drug and alcohol problems. The court may, upon satisfactory proof that there is reasonable cause to believe that revocation would seriously affect the person's ability to continue in his employment, or to continue attending school (educational activities only), or would hinder the person's ability to obtain necessary medical care, or treatment for his drug or alcohol problems, grant the person hardship driving privileges during the period of revocation.

In addition, the court shall order that the person's license to operate all types of motor vehicles be revoked for an additional period of one (1) year, and that the person shall never be eligible for hardship driving privileges again. (2) Prior to the license being returned, the Transportation Cabinet shall require that an approved ignition interlock device be installed in any vehicle owned or operated by the person:

(a) As a condition of full reinstatement of the person's driving privileges after the ending date of the suspension resulting from the conviction, the Transportation Cabinet shall require installation of an ignition interlock system under this paragraph for a period equal to the length of time the license was suspended or revoked for violation of this chapter;

(b) If an ignition interlock system is required pursuant to this section, the person shall pay to the provider, the reasonable costs of leasing, installing, maintaining, and monitoring the device;

(c) The Transportation Cabinet shall continue to suspend the driving privileges or right to apply for driving privileges of a person who fails to install or use an ignition interlock device when required by this section. The offense described in this subsection, unlawfully soliciting another to operate an ignition interlock device or start a motor vehicle equipped with an interlock device, is a Class A misdemeanor.

(5) As used in this section, "ignition interlock system" or "ignition interlock device" means a constant monitoring device certified by the secretary of the Transportation Cabinet, which prevents a motor vehicle from being started at any time without first determining the equivalent alcohol concentration of the operator. The system shall be calibrated so that the motor vehicle may not be started if the blood alcohol concentration of the operator, as measured by the test, exceeds five hundredths percent (.05%).

SECTION 31. A NEW SECTION OF KRS CHAPTER 189A IS CREATED TO READ AS FOLLOWS:

(1) The secretary of the Transportation Cabinet shall certify or cause to be certified ignition interlock systems for use in the Commonwealth and promulgate administrative regulations for the certification of these systems. The standards shall include, but not be limited to, the following:

(c) The system shall correlate well with established measures of alcohol impairment;

(d) The system shall work accurately and reliably in an unsupervised environment;

(e) The system shall resist tampering and give evidence if tampering is attempted;

(g) The system shall operate reliably over the range of automobile environments; and

(h) The system shall be manufactured by a party who shall provide liability insurance.

The administrative regulations shall be updated as changes in the technology of ignition interlock systems improve.

The cabinet shall issue approvals to those devices which have met the requirements specified.

(3) If the Transportation Cabinet permits a person to utilize an ignition interlock system device, it shall do so in writing, shall notify the sheriff of the county in which the defendant resides in writing, and shall cause the manner of installation of the device to be examined by the sheriff of the county in which the defendant resides.

(4) The Transportation Cabinet may charge reasonable fees for testing of equipment; the sheriff may charge not more than twenty-five ($25) for inspecting the installation of the equipment; and the Transportation Cabinet may charge twenty-five dollars ($25) in addition to any other fee for restoration of the operator's license to persons permitted to drive.

(5) No person who has been permitted to equip his motor vehicle with an ignition interlock system device shall, during the period which he is required to use the ignition interlock system device, do or cause to be done any act which would disable the device, circumvent the device or its operation, damage the device, alter the device to give a false reading, or do or attempt to do any other act which would vitiate the intent of the application of the device in preventing the defendant from driving while under the influence of alcohol in the future. Violation of the provisions of this section shall be a Class A misdemeanor for the first offense and a Class D felony for each subsequent offense. In addition, the person's operator's license shall be revoked for a period of twice that authorized for driving while his license is suspended or revoked for violation of KRS 189A.010.

Representative Lear requested that the following remarks be spread upon the Journal:

"I would like to ask, in order that there be no question about our reasons for identifying these classes, I would like to ask that this portion of my remarks concerning the bill be spread upon the record.

We identify persons under 21 as a class of persons whose licenses would be taken at arraignment because these are people who, first of all, are not allowed to be consuming alcoholic beverages at all. Second, they are not allowed to be driving an automobile while under the influence of alcoholic beverages or other substances, or with a blood alcohol of greater than .10. Third, all of the statistics indicate that this is a high risk class. Information we've received from the United States Department of Transportation indicates that 43% of all deaths of persons 16-20 years of age result from motor vehicle crashes. And an estimated 48% of those fatalities were in alcohol-related crashes in the information we received. There are many other statistics that bear out that particular classification.

Second, we identify persons with prior offenses. These are persons who within the past 5 years next preceding their arrest have been convicted of an offense under this chapter or a comparable offense under the laws of other states, or who have had their licenses suspended for refusal to take a breathalyzer test. So, again with this classification you've got a double offender.

Finally, the third group is persons who have refused the test. Those are persons who are charged with two things in effect. One is violating our state's laws regarding the operation of vehicles while under the influence or while having a prohibited blood level, and too, violating our implied consent law. We believe that by targeting those groups we retain the best of the provisions of administrative per se and ensure that license revocation is surer and swifter than we had under existing law or under the bill as originally filed. And the best part of all of this is, we believe that by targeting these groups and ensuring swift revocation of licenses for them, that there is a very good possibility we will still meet the federal guidelines, qualify for federal funds which under this version of the legislation . . . instead of going to the Transportation Cabinet to pay for the administrative hierarchy, will be divided as follows: 25% will go to the Justice Cabinet for measures relating to enforcement, with particular emphasis on the breathalyzer element of prosecutions; second 25% will go to the Administrative Office of the Courts to pay for computerization necessary to fulfill the reporting requirements that we have under the bill. I think best of all, 50% will go to the Cabinet for Human Resources for treatment for indigent persons that are affected by this bill and are ordered to undergo treatment. I believe that those are significant improvements over the original bill with regard to distribution of federal funds.

As with the Gentleman from Marshall, I too would like to say that we got everything we asked for, but I think we have effected a good compromise which advises substantially the laws of this state aimed at drunk driving, and I would urge its adoption, and now I yield to the Gentleman from Kenton 65."

Representative Williams moved the adoption of the following **HR 96**:

HR 96, A RESOLUTION urging the Kenton County Airport Board to study the formation of a joint Boone/Kenton County Airport Board.

WHEREAS, in the early 1940's, businessmen of vision, assisted by Kenton County, purchased land in Boone County, Kentucky on speculation and with the hope it would one day become a great airport; and

WHEREAS, due to the efforts of these businessmen, Kenton County, and other Kentucky and federal officials, the airline industry recognized this land in Boone County, Kentucky as the best location from which to serve Cincinnati, Northern Kentucky and the surrounding area; and

WHEREAS, due to the foresight and diligence of the airport board and the excellent administration and operation by the airport staff, this Boone County airport has grown to be the second largest airport in the Southeastern United States, serving most major cities in the United States and an increasing number of international locations; and

WHEREAS, this airport which is wholly located within Boone County, Kentucky is today named the Greater Cincinnati International Airport and is today controlled by the Kenton County Airport Board; and

WHEREAS, the Kenton County Airport Board is the largest single landowner in Boone County, one of the largest employers in Boone County, and the largest public agency operating wholly within the confines of Boone County; and

WHEREAS, the citizens of Boone County's quality of life can be more immediately and dramatically impacted by the actions of the Kenton County Airport Board than by most other public agencies operating wholly within Boone County; and

WHEREAS, the citizens of Boone County have no representative on the Kenton County Airport Board who is responsible to or appointed by an elected Boone County official; and

WHEREAS, the citizens of Boone County lost their jurisdiction over an airport located entirely within the confines of Boone County, because Boone County was historically a rural county whose agrarian economy did not provide it the wherewithal to speculate along with its more affluent neighbors; and

WHEREAS, it is the intent of the House of Representatives to promote the continued growth and expansion of the airport located within Boone County and known as the Greater Cincinnati International Airport by providing for the greatest possible cooperation between the Airport Board and the citizens of the county in which the airport is located;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

Section 1. That the Kenton County Airport Board is urged to form a task force to study the formation of a joint Boone/Kenton County Airport Board.

Section 2. That the task force be comprised of members of the Kenton County Airport Board, or a subset thereof, and an equal number of Boone County citizens appointed by the Boone County Judge/Executive.

Section 3. That the task force report its findings to the General Assembly prior to the convening of the next regular session in January, 1992.

Section 4. That a copy of this resolution be transmitted to the county judge/executives of Boone and Kenton Counties, and to the Kenton County Airport Board, P. O. Box 752000, Cincinnati, Ohio 45275-2000.

SECTION 14. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

In addition to its other powers, the cabinet shall have the following powers:

(1) In cooperation with waste management districts, area development districts, or counties, to determine what entities are required to submit a solid waste management plan;

(2) To review, approve, disapprove, develop upon failure to receive, and require amendment of solid waste management plans. A plan shall be approved if it meets requirements specified by KRS Chapters 109 and 224, and administrative regulations adopted by the cabinet, and if it is consistent with the statewide solid waste reduction and management plan;

(3) To issue, continue in effect, revoke, modify, suspend, deny, or condition permits for municipal solid waste management facilities as necessary to implement any provisions of KRS Chapter 224, administrative regulations adopted by the cabinet, the area solid waste management plan or the statewide solid waste reduction and management plan, or applicable zoning regulations adopted pursuant to KRS Chapter 100, or pending approval of the plans, to meet solid waste disposal capacity needs of the area and to assure disposal capacity for solid waste generated in Kentucky;

(4) To limit the amount, by weight or volume, of waste that may be accepted for disposal by municipal solid waste facilities in the Commonwealth, consistent with the requirements of KRS Chapter 224 and administrative regulations adopted by the cabinet, to implement provisions of the statewide solid waste

reduction and management plan, or the area solid waste management plan, or as otherwise necessary to assure capacity for disposal of waste generated in the Commonwealth or to protect the environment and the health and welfare of the citizens of the Commonwealth. The cabinet may take into account such factors as:

(a) Operation of the facility in accordance with the most stringent standards adopted in administrative regulations pursuant to KRS Chapter 224;

(b) The nature of any groundwater or surface water problems associated with operation of the facility;

(c) The need for the facility to serve the solid waste management needs of the area in which the facility is located;

(d) The nature of any existing contracts for disposal held by the facility; and

(e) The compliance history of the facility;

(5) To take any actions consistent with KRS Chapter 224, administrative regulations adopted by the cabinet, the statewide solid waste reduction and management plan, and the area solid waste management plan as reasonably necessary to assure that there is sufficient capacity for disposal of waste generated in the Commonwealth and the solid waste management area, and to protect the environment and the health and welfare of the citizens of the Commonwealth; and

(6) To disapprove a grant or loan for a municipal solid waste management facility which is not consistent with the statewide waste reduction and management plan or the area solid waste management plan.

SECTION 15. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

The Environmental Council, the Natural Resources and Environmental Protection Cabinet, and the Department of Education shall establish a program to educate the citizens of the Commonwealth of the importance of reducing and managing waste effectively, the need for individual action to reduce the amount and toxicity of solid waste being disposed, the need for alternative disposal methods to landfilling for toxic materials commonly used in or around households such as cleaners, solvents, pesticides, and automotive and paint products, and the necessity of implementing environmentally protective management and disposal mechanisms for the solid waste that is generated. In helping develop the educational programs, the Department of Education shall identify and adopt mechanisms to inform students throughout the Commonwealth of the importance of reducing and managing solid waste effectively.

SECTION 16. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) Each county shall provide a universal collection program by July 1, 1994, for all municipal solid waste generated within the county. Collection programs may include:

(a) Door-to-door household collection: Collection service may be provided by the county, by contract, or franchise. When door-to-door collection is provided by contract, or franchise, or under local permit, the county shall require reports from the entity providing collection to document the rate of collection.

(b) Direct haul to staffed convenience centers or staffed transfer facilities within the county; The county may allow residents to haul their waste directly to cabinet-approved staffed convenience centers or staffed transfer facilities within the county. The number of convenience centers and transfer facilities shall be adequate to assure reasonable convenience. When the collection program is provided by another entity through contract or franchise, the county shall require reports from the entity providing collection to document the rate of collection; or

(c) Other alternatives proposed by counties: Counties may propose other alternatives and the cabinet shall approve same as long as the county can demonstrate that all of its citizens are being given access to the solid waste collection system which is proposed.

(2) The county shall submit an annual report to the cabinet and to any waste management district of which it is a member detailing its solid waste collection activities in accordance with requirements established by the cabinet by administrative regulation.

(3) The county may enter into agreements with any person for the performance of the responsibilities described in this section, including cities within its geographic boundaries, but the county shall be responsible for providing the universal collection program described in this section, except any city of the first or second class having sole responsibility for developing its portion of the solid waste plan shall be responsible for providing the universal collection within its jurisdiction, and except any city contracting for the collection of its solid waste on the effective date of this Act may continue to contract for the collection of its solid

waste if the contract provides for disposal in the same facility or facilities designated in the area's solid waste management plan.

(4) If a county fails to comply with the provisions of this section, the cabinet shall not endorse projects that generate solid waste under the Kentucky intergovernmental review process for the county.

(5) A commercial or industrial entity which transports or contracts for the transport of the municipal solid waste it generates or which operates an industrial solid waste management facility for its exclusive use may be excluded from participation in the universal collection program.

SECTION 17. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) No permit to construct or expand a municipal solid waste disposal facility shall be accepted for processing by the cabinet unless the application contains a determination from the governing body for the solid waste management area in which the facility is or will be located concerning the consistency of the application with the area solid waste management plan submitted under KRS 224.888(1)(a) through (d) and (l) until January 1, 1993 and the entire plan after January 1, 1993. The goerning body for the area shall, within sixty (60) days of receipt of a written request, make the determination after public notice and opportunity for public comment and public hearing. For applications with a notice of intent filed prior to the effective date of this Act, the cabinet shall continue to process the application but no permit shall be approved until the governing body for the solid waste management area in which the facility is or will be located has made a determination in accordance with this section.

(2) No permit to construct or expand a municipal solid waste disposal facility shall be approved unless the applicant affirmatively demonstrates and the cabinet makes a written finding in the preliminary determination made pursuant to KRS 224.855(1) that the application conforms to and is consistent with all of the following:

(a) The capacity needs identified in the area solid waste management plan;

(b) Other elements of the area solid waste management plan, for permit applications filed after approval of those elements;

(c) The statewide solid waste reduction and management plan, for permit applications filed after completion of the plan; and

(d) Applicable zoning regulations adopted pursuant to KRS Chapter 100.

(3) If the cabinet approves a permit to construct or expand a solid waste management facility after the governing body for the area has determined the application to be inconsistent with the area solid waste management plan, as part of the written finding the cabinet shall state in detail the reasons why it did not accept the determination of the governing body for the area.

(4) For the purposes of this section, the term municipal solid waste disposal facility includes, in addition to those facilities defined in KRS 224.005(15), any residual or contained landfill or incinerator disposing of industrial solid waste for a fee, but does not include a waste site or facility which is operated exclusively by a solid waste generator on property owned by the solid waste generator which accepts only industrial solid waste from the solid waste generator or industrial solid waste generated at another facility owned and operated by the generator or wholly-owned subsidiary.

SECTION 18. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) Consistent with requirements of KRS Chapter 224, increases in the amount of waste from any geographic source permitted to be accepted by any municipal solid waste disposal facility shall not exceed more than five percent (5%) of the average volume of waste accepted during the twelve (12) month period January 1990 through December 1990 unless:

(a) The facility has been constructed in accordance with the most stringent containment standards effective January 1, 1991; or

(b) The facility meets a design standard of at least twelve (12) inches of soil with a maximum permeability of one (1) times ten (10) to the minus seven (7) power centimeters per second or its equivalent, has a leachate collection system installed in a manner approved by the cabinet, and has a groundwater monitoring system approved by the cabinet.

A municipal solid waste disposal facility meeting the requirements of subsection (1)(b) of this section shall not accept waste for disposal after July 1, 1995, unless it meets the most stringent containment standards effective January 1, 1991.

(2) The cabinet shall revise upward or downward the limitation contained in subsection (1) of this section if it determines that the revision is necessary to be consistent with the statewide solid waste reduction and management plan or the area solid waste management plan; to assure capacity for disposal of solid waste generated in Kentucky; to assure capacity for disposal of industrial solid waste generated in Kentucky as the result of economic development; to protect against risks to health, welfare, or the environment; or to allow a solid waste disposal facility to accept those wastes it is required to accept by a contract executed before October 1, 1990.

(3) The provisions of this section shall be incorporated in the permits of solid waste disposal facilities to which it applies not designed in accordance with the most stringent containment standards adopted by the cabinet for these facilities.

SECTION 19. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

The Governor is authorized to negotiate and enter into compacts with other states relating to the management of solid waste including reduction, collection, transportation, and disposal. Such compacts must be ratified by the General Assembly.

SECTION 20. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) In addition to its other powers, the cabinet may suspend the authority of a municipal solid waste management facility to accept waste streams upon any of the following grounds:

(b) Any part of the waste streams in question are being transported by transporters who are not registered or certified in the Commonwealth in accordance with Section 22 of this Act.

(2) The suspension described in subsection (1) of this section shall terminate upon the cabinet's determination that the basis for the suspension has been corrected.

SECTION 21. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) No person shall transport or cause to be transported from outside the Commonwealth to a municipal solid waste management facility in the Commonwealth any waste unless each of the following persons, if not a resident of the Commonwealth at the time the waste is transported, has first irrevocably consented in writing to the jurisdiction of the courts of the Commonwealth and service of process in the Commonwealth, including summons and subpoenas, for any civil or criminal proceeding arising out of or relating to the waste that is shipped to a facility in this state:

(2) The original of the consent-to-service document shall be filed with the cabinet. A copy shall be filed with the owner or operator of each municipal solid waste management facility to which the waste is transported. The original and each copy shall be sent by certified mail, return receipt requested, at least seven (7) days before the first shipment of waste to a waste site or facility in the Commonwealth in the year for which the document is filed. The document shall be updated to reflect any changes in circumstances and refiled.

(3) A person who enters the Commonwealth pursuant to a summons, subpoena, or other form of process authorized by this section is not subject to service of process in connection with nonrelated matters that arise before his entrance into the Commonwealth.

(4) No owner, operator, or employee of a municipal solid waste management facility shall accept for treatment, transfer, storage, or disposal at the facility any waste from outside the boundaries of the Commonwealth unless a copy of the consent-to-service document required by this section and applicable to the waste is on file at the facility.

(5) The owner or operator of a municipal solid waste management facility shall keep the consent-to-service documents filed with him under this section at the facility in such a location and manner that they are readily accessible to the cabinet.

SECTION 22. A NEW SECTION OF KRS CHAPTER 174 IS CREATED TO READ AS FOLLOWS:

(1) As used inthis section, "municipal solid waste transportation vehicle" means any truck, automobile, tractor, or other self-propelled vehicle not operated or driven on fixed rails or track used in the transportation of municipal solid waste; but does not include a vehicle used to transport municipal solid waste from a residence if the vehicle is owned or leased by an individual who lives in the residence, or a vehicle that is ten thousand (10,000) pounds or less.

(2) This section shall not apply to a vehicle used exclusively on private roads or to transport municipal solid waste within the boundaries of or to real property owned or leased by the generator of the municipal solid waste.

(3) This section shall apply to both publicly and privately-owned municipal solid waste transportation vehicles.

(8) Each application for a license to operate a municipal solid waste transportation vehicle or vehicles shall be submitted with a registration fee equal to the product of ten dollars ($10) per year multiplied by the number of municipal solid waste transportation vehicles to be operated in the Commonwealth by the applicant. A license shall be amended annually if the number of municipal solid waste transportation vehicles operated by the applicant increases. The cabinet may promulgate by regulation a schedule for the annual amendment of municipal solid waste transportation licenses to add vehicles covered. Additional vehicles acquired or leased by the licensee after the beginning of the licensing year established by the Transportation Cabinet may be operated under an existing license, without amendment, until the annual amendment date specified by the cabinet. However, the licensee shall obtain a vehicle specific copy of the license from the Transportation Cabinet prior to using the vehicle in Kentucky to transport municipal solid waste. The registration fee for additional vehicles shall be prorated according to the amount of time remaining in the license period as of the amendment date.

(c) A disclosure statement submitted under subsection (2)(a)1. of this section shall be executed under oath or affirmation and shall be subject to the penalty for perjury under KRS Chapter 523;

(d) The cabinet shall investigate to verify the accuracy of the information set forth in a statement required under this section.

(3) No permit shall be issued to an applicant where the disclosure statement or other information available to the cabinet indicates that any waste site or facility owned or controlled by the applicant or its key personnel is currently in violation of this chapter or any law, rule, or regulation of the United States or of any department or agency in the United States pertaining to environmental protection, until the applicant submits proof that the violation has been corrected or is in the process of being corrected to the satisfaction of the regulatory authority, department, or agency which has jurisdiction over the violation, or that the violation is under appeal.

(4) The provisions of subsection (2) of this section shall not apply to an industrial solid waste disposal facility operated exclusively by the industrial solid waste generator on property owned by the industrial solid waste generator and which accepts only industrial solid waste exclusively from the industrial solid waste generator or wholly-owned subsidiary.

(5) This section shall not apply to a waste site or facility which is operated exclusively by a solid waste generator on property owned by the solid waste generator for the purpose of accepting industrial solid waste exclusively from the solid waste generator.

(6) This section shall not apply to a medical waste incinerator which is owned, operated, and located on the property of a hospital or university which is regulated by the cabinet and used for the purpose of treatment, prior to landfill, of medical waste received from the generator exclusively or in combination with medical waste generated by professionals or facilities licensed or regulated or operated by the Commonwealth.

(7) The provisions of this section shall not prohibit the cabinet from establishing by administrative regulation other grounds for the revocation, modification, suspension, or denial of a permit for a waste site or facility.

SECTION 25. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) The cabinet shall establish by administrative regulation a time frame for the review and issuance or denial of applications for a solid waste management facility permit or modification.

(2) The applicant shall have the burden of establishing that the application complies with all requirements of KRS Chapter 224 and the administrative regulations adopted by the cabinet. The cabinet shall make

specific findings with respect to the compliance of the application with this chapter and the regulations of the cabinet.

Section 26. KRS 224.847 is amended to read as follows:

The General Assembly of the Commonwealth of Kentucky hereby finds, determines and declares, as follows:

(1) That Congress enacted the Hazardous and Solid Waste Amendments of 1984 establishing a clear bias against the disposal of hazardous waste in or on the land, and prohibits land disposal of a hazardous waste unless the Environmental Protection Agency determines that the prohibition is not necessary to protect human health and the environment and further recognized the environmental hazards of disposing of limited quantities of hazardous waste into solid waste landfills absent adequate design considerations.

(2) That in 1983 the U.S. Office of Technology Assessment published a comprehensive report which concluded that current land disposal technologies cannot guarantee the containment of hazardous wastes and protection of groundwater supplies.

(3) That a majority of Kentucky is underlaid by geology which is permeable and of little protection to groundwater resources from the contaminates, including hazardous waste, which can leach from a landfill disposal site.

(4) That Congress and the U.S. EPA have expressed the intention, in regards to environmental protection, that each state should be able to regulate to protect the environment in ways that are specific to the needs of each state and that each state does regulate the disposal of small amounts of hazardous waste differently.

(5) That waste flowing into solid waste landfills contains limited quantities of hazardous waste commingled with nonhazardous waste which produces a waste stream that is impossible to separate the hazardous components from nonhazardous contents.

(6) It is therefore the purpose of KRS 224.848 to require all waste streams ***disposed in Kentucky*** [~~coming into Kentucky for land disposal to be demonstrated~~] to be free of limited quantity hazardous waste components or that such waste streams be regulated [~~in the same manner as Kentucky waste generators~~] by being required to dispose of the waste in a landfill meeting strict design standards for groundwater protection.

Section 27. KRS 224.848 is amended to read as follows:

(1) [~~Any solid waste landfill in existence as of July 15, 1988, and accepting waste generated from outside of the boundaries of the Commonwealth shall demonstrate, within thirty (30) days of July 15, 1988, to the cabinet that:~~

~~(a) The site or facility conforms to the restrictions contained in subsection (3) of this section; or~~

~~(b) The waste accepted for disposal from outside of the boundaries of the Commonwealth does not contain limited quantity generator hazardous waste.~~

~~(2) After July 15, 1988,~~] All new solid waste ***disposal facilities and horizontal expansions of existing solid waste disposal facilities*** [~~landfills~~], with the exception of ***construction/demolition*** [~~inert~~] or residual landfills, shall meet the design, operating, monitoring, and recordkeeping requirements for contained landfills as defined in accordance with ***administrative*** regulations ***adopted*** [~~promulgated~~] by the cabinet. Special waste, as defined in KRS 224.868, except for waste from sanitary wastewater treatment facilities, shall be exempt from this section.

(2)[~~(3)~~] Limited quantity generator hazardous waste as defined by the cabinet and its administrative regulations shall not be disposed [~~of~~] in a solid waste ***disposal facility*** [~~landfill~~] unless the ***facility*** [~~landfill~~] meets the recordkeeping, groundwater monitoring, leachate collection and control systems, and liner system requirements of the ***administrative*** regulations ***adopted*** [~~promulgated~~] by the cabinet for contained landfills.

(3)[~~(4)~~] The cabinet shall implement procedures to assist limited quantity hazardous waste generators to dispose of such waste in compliance with the requirements of this section. Such procedures shall include assistance in the development of limited quantity waste collection and disposal programs, and maintenance of a list of [~~solid~~] waste ***sites or facilities*** [~~landfills~~] which meet the requirements of this section.

Section 28. KRS 224.849 is amended to read as follows:

In order to assist in solid waste planning and management, to further the goals of waste reduction and recycling, and to assist in identification of parties in the event of environmental problems arising from the transport or disposal of the waste, the cabinet ***shall adopt administrative regulations creating a manifest system which shall require that each shipment of waste received at a municipal solid waste management***

facility be accompanied by written documentation in a form determined by the cabinet. The manifest shall identify the geographic source or sources of the waste, by county, city, and state; contain a detailed description of types of waste contained in the shipment; list the names and addresses of the persons responsible for the collection and initial shipment of the waste; and list the names and addresses of the persons who subsequently stored, handled, transferred for shipment, contracted for or arranged its transportation or disposal, or transported the waste to the facility for disposal. The manifest shall provide a certification by each person named in the manifest that while the waste was in his custody or control no waste regulated by the cabinet as hazardous waste or infectious waste was knowingly introduced into the waste. A copy of each manifest shall be maintained at the municipal solid waste management facility and shall be open to inspection by representatives of the cabinet, shall be transmitted to the cabinet on a quarterly basis, and shall be considered non-exempt records available for public inspection. Ninety (90) days after the effective date of the initial administrative regulations adopted by the cabinet to effectuate this section, no municipal solid waste management facility shall accept waste unless it is accompanied by a manifest [~~may, as a permit condition, require a manifest system~~].

Section 29. KRS 109.011 is amended to read as follows:

The General Assembly of the Commonwealth of Kentucky hereby finds, determines, and declares, as follows:

(1) That an ever-increasing volume of solid waste ***both*** within ***and outside*** the Commonwealth is being generated as a result of increasing economic and commercial activity, continuing technological progress, and changes in methods of manufacturing, packaging, and marketing of consumer products, which results in additional solid wastes discarded by the users of ***these*** [~~such~~] products;

(2) That the continued economic and population growth of the Commonwealth has required increased industrial and commercial expansion and has made necessary the demolition of obsolete structures, the construction of new structures, the provision of highways and other avenues of transportation, and the construction and installation of public works which, together with pre-existing commercial, industrial, and agricultural operations, have resulted in the generation of further volumes of solid ***waste*** [~~wastes~~];

(3) That the handling of solid wastes has been primarily carried out through the dumping of [~~such~~] wastes on open soil and in landfills, which in some cases are inimical to the public health, safety, and welfare;

(4) That by the enactment by the Congress of the United States of the Resource Conservation and Recovery Act of 1976 (Public Law 94-580), as amended, the collection, sanitary disposal, and recovery of solid ***waste*** [~~wastes~~] has been determined to be a matter of nationwide importance, recognizing that the management of solid ***waste*** [~~wastes~~] should continue to be primarily the function of state, regional, and local agencies; and that pursuant to ***this*** [~~such~~] federal law, the Commonwealth has taken and will take certain actions in respect to the planning and implementation of solid waste plans within the guidelines of time requirements set forth in ***this*** [~~such~~] federal law;

(5) That as a result of the conditions described in the foregoing findings, problems of solid waste collection, management, and treatment, and resource recovery activities in connection therewith have become a matter of statewide concern necessitating action by the General Assembly to:

(a) Enable responsible planning and management agencies to be created to define solid waste management requirements, with all of the foregoing subject to regulation by the Natural Resources and Environmental Protection Cabinet***;*** [~~, and~~]

(b) Assist those units of government primarily responsible for the management of solid waste and the acquisition, financing and operation of facilities to dispose of ***solid waste*** [~~same~~] to fulfill their functions in a responsible and proper manner with primary emphasis on the regionalization of ***these*** [~~such~~] functions; ***and***

(c) Reduce the amount of solid waste generated and disposed in Kentucky;

(6) That it is the intent of the General Assembly of the Commonwealth of Kentucky that the primary responsibility for adequate solid waste collection, management, treatment, disposal, and resource recovery shall rest with [~~counties, or~~] combinations of counties and waste management districts, subject to standards set by ***administrative*** regulations ***adopted*** [~~promulgated~~] by the Natural Resources and Environmental Protection Cabinet. In those cities currently operating solid waste management systems, the city and county may assume joint responsibility of preparing a solid waste management plan. ***If*** [~~Where~~] it is in the best public interest to do so and with the mutual agreement of both the county and city, a county may delegate responsibility for adequate collection, management, treatment, disposal, or ***materials*** [~~resource~~] recovery to a city. ***This*** [~~Such~~] delegation of responsibility is contingent upon the approval of a solid waste management plan by the cabinet. The purpose of delegating responsibilities shall be to effectuate the safe and sanitary

management, use, and handling of solid waste, the protection of the health, welfare, and safety of the citizens and inhabitants of the Commonwealth, and for making the most efficient use of all resources for the benefit of the citizens and inhabitants of the Commonwealth;

(7) That the General Assembly recognizes [~~that~~] the generation of solid waste is inevitable, but [~~that~~] much of it is unnecessary and should be discouraged. [~~;~~] However, where solid waste does exist, it should be considered to the extent possible as a valuable resource, and be made use of wherever and whenever desirable and economically justifiable. [~~;~~] Therefore, it shall be the policy of the Commonwealth to, above all things, encourage resource conservation and preservation of our natural resources before [~~such~~] waste contributes in a needless fashion to the volumes of solid waste and litter produced by our society***;*** [~~,~~] but in dealing with existing solid waste, materials recovery from the solid waste stream is deemed to be the most environmentally sound alternative for handling waste;

(8) It is not the intent of this chapter to prohibit or discourage the participation of the private sector in any aspect of solid waste management. Moreover, it is preferable for solid waste management functions to be performed by the private sector when ***it*** [~~such~~] is in the best interests of the public and conforms with the policies and provisions [~~set forth~~] in this chapter;

(9) ***It is the intent of the General Assembly that counties and waste management districts cooperate to develop and implement the solid waste management plans mandated by KRS Chapter 224 and the administrative regulations adopted by the cabinet with the goal of regionalizing the management of solid waste;***

(10) It is the intent of the General Assembly that waste requiring disposal in municipal solid waste disposal facilities be reduced and that solid waste be managed in an environmentally protective manner;

(11) Notwithstanding any provision of KRS Chapters 82, 83 and 94, it is the intent of the General Assembly that this chapter and KRS 67.083 (3)(o) provide counties with [~~primary~~] authority to develop a solid waste management system for solid waste generated within the geographical boundaries of the county, consistent with the provisions of this chapter and KRS Chapter 224. It is further the intent of the General Assembly that cities be authorized to finance, own, and operate solid waste management systems with the consent of the county or by contract with the county, except that in the event a county fails to submit a [~~plan for~~] solid waste management ***plan*** pursuant to KRS ***Chapter 224*** [~~224.887~~] cities may proceed to develop solid waste management systems consistent with ***administrative*** regulations ***adopted*** [~~promulgated~~] by the ***cabinet*** [~~department~~] pursuant to KRS Chapter 224. Cities that develop solid waste management facilities pursuant to this section shall have all the powers and restrictions set forth for counties in KRS 109.041, 109.056, 109.059, and 109.062; ***and***

[~~(10) It is the intent of the General Assembly that this chapter provide counties with three (3) alternative approaches to the development and implementation of solid waste management plans. With the approval of the department, a single county may function as a solid waste management area as provided in KRS 109.072, or counties may elect to operate as a multicounty area in which they may agree to function pursuant to the terms of a contract as provided in KRS 109.082, or a county or counties may elect to operate as a waste management district pursuant to this chapter; and~~]

(12)[~~(11)~~] It is the intent of the General Assembly that waste management districts [~~and solid waste management areas,~~] which are formed and operated under this chapter[~~,~~] shall comply with the standards set by ***administrative*** regulations ***adopted*** [~~promulgated~~] by the ***cabinet*** [~~department~~] pursuant to KRS Chapter 224.

(13) "Waste management district" means any county or group of counties electing to form under the provisions of KRS 109.115 and operate in conformance with the provisions of this chapter and with Section 4006 of the Resource Conservation and Recovery Act of 1976, as amended (P.L. 94-580).

Section 31. KRS 109.042 is amended to read as follows:

(1) A county or ***waste management district*** [~~urban-county government~~] may employ an enforcement representative to ensure compliance with applicable administrative regulations of the cabinet relating to construction and operation of solid waste ***management facilities*** [~~landfills~~]. ***The local government representative shall have the authority to inspect loads of solid waste and prevent any loads, which fail to comply with administrative regulations, from being disposed of at the solid waste management facility.*** The local government representative shall possess at least minimum qualifications required of representatives of the cabinet performing similar functions.

(2) The cabinet shall ***adopt*** [~~promulgate~~] administrative regulations for local government inspection of solid waste ***management facilities*** [~~landfills~~] and enforcement procedures. (3) A county or ***waste management district*** [~~urban-county government~~] which elects to implement a local inspection and enforcement program for solid waste ***management facilities may*** [~~landfills shall~~] finance the program from the license fees provided for in KRS 68.178.

Section 32. KRS 109.056 is amended to read as follows:

(1) Any county or waste management district***, if authorized by all the counties that comprise the district,*** may levy an annual tax, not to exceed ten cents ($0.10) on each one hundred dollars ($100) of assessed valuation of real property within the area subject to taxation for county purposes. The proceeds of such tax shall be used for solid waste management expenses of the area and for redemption of any bonds issued.

(2) The county or waste management district***, if authorized by the counties that comprise the district,*** may in lieu of the tax provided in subsection (1) ***of this section*** or in addition thereto finance the maintenance, operation, and capital acquisition costs of the area by fees to be collected from all persons receiving services from the area. ***The*** [~~Such~~] charges shall be fixed in [~~such~~] amounts as can be reasonably expected to yield revenues not in excess of the cost of operation and maintenance of the system and for an adequate depreciation fund and amortization of capital acquisition costs.

(3) The service charges authorized by subsections (1) and (2) of this section may be collected by the area directly or the area may enter into an agreement with other utilities either public or private to collect such charges.

Section 33. KRS 109.041 is amended to read as follows:

(1) In addition to all other powers enumerated in Chapter 67 and other sections of the Kentucky Revised Statutes, counties, acting by and through their fiscal courts, may ***own and hold the permit for,*** plan, initiate, acquire, construct, and maintain solid waste management facilities***, enter into contracts or leases with private parties for the design, construction, or operation of a publicly-owned solid waste management facility,*** and ***adopt administrative*** [~~promulgate~~] regulations with respect thereto in accordance with this chapter. It is hereby determined and declared that in the implementation, acquisition, financing, and maintenance of solid waste management facilities, and in the enforcement of their use, counties will be performing state functions duly delegated to them for the public welfare. In such regard, the right of counties to condemn land necessary for the acquisition of solid waste management facilities pursuant to the Eminent Domain Act of Kentucky and to exercise the police power in respect thereto is confirmed. Any county may contract with third parties for the management by public or private means of solid waste within the county.

(2) No ***solid waste management facility*** [~~sanitary landfill~~] shall be acquired and constructed until the construction thereof has been approved in writing by the ***cabinet*** [~~department~~]. Planning for ***a solid waste management facility*** [~~sanitary landfills~~] shall be conducted [~~only~~] in accordance with the policy set forth in KRS 109.011(7) ***and KRS Chapter 224.***

(a) Any ***materials*** [~~resource~~] recovery operation in existence in the county or district on the effective date of the mandatory program;

(b) Any person supplying material to ***materials*** [~~resource~~] recovery operations on the effective date of the mandatory program;

(c) Any new ***materials*** [~~resource~~] recovery operation that reclaims the same type of materials as ***materials*** [~~resource~~] recovery operations included in paragraph (a) of this subsection;

(d) Any new suppliers to ***materials*** [~~resource~~] recovery operations included in paragraphs (a) and (c) of this subsection;

(e) Any ***materials*** [~~resource~~] recovery operation for glass, plastic, or metal beverage containers, unless a commitment has been made by a local government or other political subdivision of the state, by ordinance or contract, to a solid waste project consistent with the provisions of this chapter, that is dependent upon the ***materials*** [~~resource~~] recovery of glass, plastic, or metal beverage containers to meet its financial obligations for said project, and such commitment has been made prior to the operation of any other such ***materials*** [~~resource~~] recovery facility in the county or district; or

(f) Any other ***materials*** [~~resource~~] recovery operation within the county or district not included in paragraphs (a) through (e) of this subsection or the supply of materials to such operation unless it is established that such operation would jeopardize the ability of a local government or other political subdivision of the state to meet financial obligations incurred in the maintenance, operation, or amortization of capital acquisition costs for a solid waste management facility.

(4) Notwithstanding any other provision of the Kentucky Revised Statutes to the contrary, no county or waste management district shall regulate special wastes as defined in KRS 224.868, other than sludge from water and waste water treatment facilities as it pertains to landfarming, or solid waste from agricultural or mining operations.

(5) Any county undertaking the planning, implementation, construction, installation, acquisition, and financing of a solid waste management facility pursuant to this chapter shall have the authority set forth in Chapter 58 of the Kentucky Revised Statutes concerning the financing of such solid waste management facility, including the authority to promulgate, enforce, and collect reasonable rates, rentals, and charges for the use of such solid waste management facility.

(6) Bonds authorized to be issued by any county pursuant to the authority of this chapter for the financing of solid waste management facilities may be sold at either private or public sale as may in the sound discretion of the county be in the best interests of the county.

(7) Any county undertaking solid waste management pursuant to the provisions of this chapter may contract with any person for the provision of solid waste management services. A county may contract with any city to provide solid waste management services or may delegate the responsibility for solid waste management within incorporated areas to a city when the city agrees to assume such responsibility. In connection with solid waste management, any county may enter into contracts with any person for any term of years.

(8) Counties are authorized to charge a reasonable fee to ***transporters*** [~~haulers~~] for the handling of their waste at a solid waste management facility approved by the ***cabinet*** [~~department~~].

(9) Counties are authorized to sell or market materials and energy recovered from solid waste and to enter into long-term contracts guaranteeing supply to insure markets for the sale of recovered products.

(10) In carrying out the provisions of this chapter, counties shall be subject to standards set by regulations ***adopted*** [~~promulgated~~] by the ***cabinet*** [~~department~~] on waste management pursuant to KRS Chapter 224.

(11) No county or waste management district shall prohibit long-term contracts by ordinance or other means.

(12) Counties are expressly authorized in addition to the powers enumerated in KRS Chapter 65 and this chapter to contract with one another in order to regionalize solid waste management to the maximum extent practicable.

(13) Notwithstanding any other provision of law, a fiscal court may, by ordinance, create a solid waste district to exercise the powers of the county pursuant to this chapter, except that a district created for this purpose shall not levy or collect ad valorem property taxes.

SECTION 34. A NEW SECTION OF KRS CHAPTER 109 IS CREATED TO READ AS FOLLOWS:

(1) No elected or nonelected local government officer or employee shall, directly or indirectly, receive any benefits or emoluments from, furnish any material or other thing of value to be used in, or be interested in, any contract let by waste management districts, counties, cities, or any combination thereof, for a solid waste management facility.

(2) Any contract made and procured in violation of subsection (1) of this section is void. Any elected

or nonelected local government officer or employee who violates any provisions of subsection (1) of this section shall be guilty of a Class B misdemeanor, and shall be adjudged to have forfeited any public office or employment which he may hold.

Section 35. KRS 224.835 is amended to read as follows:

(1) No person shall transport to or dispose of waste at any site or facility other than a site or facility for which a permit for waste disposal has been issued by the cabinet. Upon request, any transporter of waste shall receive from the cabinet a current list of permitted waste disposal sites or facilities and shall be subsequently notified of any new permits or changes in the status of permits for waste disposal sites and facilities in the Commonwealth.

(2) The use of open dumps is prohibited except in the case of an open dump which is under a timetable or schedule for compliance approved by the cabinet. The cabinet may enjoin the operation of any open dump which does not have a timetable or schedule of compliance approved by the cabinet.

(3) The cabinet may require any person who violates this section or KRS 224.842 to take appropriate response actions to close and reclaim[~~,~~] or upgrade open dumps to comply with applicable ***administrative*** [~~landfill~~] regulations ***adopted*** [~~promulgated~~] by the cabinet. If a demand for response action is not implemented within a time period specified in a demand or timetable or schedule for compliance issued or approved by the cabinet, the cabinet may enjoin the operation of the open dump and restore the site.

(4) Except as provided in KRS 224.857, the cabinet may assess any person who violates this section by failing to take appropriate actions to close and reclaim or upgrade open dumps, damages in an amount equal to the cost of closure as estimated by the cabinet. The money collected shall be placed in the agency account established under KRS 224.846(4) to be used for the site closure and restoration. Any money remaining after site closure and restoration from the amount assessed shall be returned to the person against whom any assessment was made.

Section 36. KRS 224.846 is amended to read as follows:

(1) Before the cabinet may issue a permit to operate a solid waste disposal [~~site or~~] facility, the operator shall file with the cabinet a bond payable to the Commonwealth of Kentucky with surety satisfactory to the cabinet in a sum to be determined by the cabinet on the recommendation of the secretary of each acre or fraction thereof of the area of land affected, with a minimum bond of ten thousand dollars ($10,000) per site, conditioned upon the faithful performance of the requirements in this chapter and of the rules and ***administrative*** regulations of the cabinet to insure satisfactory closure of the facility. The cabinet may accept liquid or semi-liquid assets deposited in an escrow account for the operating life of the landfill plus not less than two (2) additional years as an alternative guarantee of adequate financial responsibility for closure of the facility. ***The cabinet may accept other satisfactory financial assurance as adequate financial responsibility for a waste site or facility which is generated exclusively by a solid waste generator on property owned by the solid waste generator for the purpose of accepting industrial solid waste exclusively from the solid waste generator.***

(2) An operator may at any time during the term of the permit apply to the cabinet for an amendment of the permit so as to increase or reduce the acreage affected by it. The operator shall file an application and map in the same form and with the same content as required for an original application under this chapter and shall pay a basic fee set by ***administrative*** regulation bearing a reasonable relationship to the cost of processing the permit application and shall file with the cabinet a supplemental bond for each acre or fraction of an acre of the increase approved. If the cabinet approved a reduction in the acreage covered by the original or supplemental permit, it shall release the bond for each acre reduced but in no case shall the bond for the site be reduced below ten thousand dollars ($10,000).

(3) When the facility has been filled, covered, graded, seeded and revegetated according to regulations promulgated by the cabinet and approved by the cabinet the secretary shall release the bond or other guarantee of financial responsibility that has been provided to the cabinet. However, the bond or other guarantee of financial responsibility shall not be released earlier than two (2) years from the date of the last placement of waste at the facility. If such closure requirements are not accomplished by the operator of the facility, the cabinet shall forfeit the bond or demand release of the moneys held to guarantee financial responsibility.

(4) All funds from the forfeiture of bonds or other sureties required pursuant to this section shall be placed in the State Treasury and credited to a special trust and agency account which shall not lapse. Such account shall be known as the "Solid Waste Disposal Site Restoration Fund" and [~~all~~] moneys placed in the fund shall be used [~~solely~~] for the proper closure of solid waste disposal ***facilities*** [~~sites~~] and insofar as practicable be used to correct the problems at the same site for which the bond or other sureties were originally provided.

(5) No operator or person shall be eligible to receive another permit to operate a solid waste ***management***

[~~disposal site or~~] facility who has forfeited any bond or other surety provided pursuant to this section, unless the land for which the bond or other surety was forfeited has been reclaimed without cost to the state, or the operator or person has paid such sum as the cabinet finds is adequate to reclaim such lands.

(6) Where one (1) operator succeeds another at any solid waste disposal [~~site or~~] facility prior to final closure, either by sale, assignment, lease, or otherwise, the cabinet may release the first operator from all liability under this section, provided that the successor operator meets the requirements of this section and assumes, as part of his obligation under this chapter, all liability for the reclamation and final closure of the area of land affected by the former operation.

(7) In the reclamation of land affected by incomplete or improper closure of a solid waste disposal [~~site or~~] facility for which it has the funds available, the cabinet may avail itself of any services which may be provided by other state agencies or by agencies of the federal government, and may compensate them for such services. The cabinet may cause the reclamation work to be done by its own employees, [~~or~~] by employees of other governmental agencies, or through contracts with qualified persons.

(8) The cabinet may also receive any federal funds, state funds or any other funds for the closure of solid waste disposal [~~sites or~~] facilities.

(9) The cabinet, any other agency, and any person under a contract with the cabinet pursuant to this section shall have the right of access to the land affected to carry out such reclamation.

(10) No city, county, urban-county government or agency of a city, county, or urban-county government, or taxing district, or other political subdivision of the Commonwealth shall be required to file any surety bond with the cabinet pursuant to this section for the operation of a solid waste disposal [~~site or~~] facility by such city, county, urban-county government or agency thereof, or taxing district, or any other political subdivision of the Commonwealth.

Section 37. KRS 224.855 is amended to read as follows:

(1) ***For purposes of this section, "waste disposal facility" means a contained landfill; construction/demolition debris landfill except for a landfill for the disposal of sand, soil, rock, gravel, bridge debris and other materials extracted as part of a public road construction project funded wholly or in part with state funds; residual landfill; solid waste incinerator; waste-to-energy facility; or a hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste.***

(2) No permit ***to construct or expand, when the expansion results in substantial additional capacity, a waste disposal facility*** shall be issued until a complete application has been submitted to and approved by the cabinet and notice of the application [~~for a waste site or facility~~] has been published, as provided for in subsections ***(4)***[~~(3)~~] and ***(5)***[~~(4)~~] of this section, at the expense of the applicant in a manner reasonably calculated to inform that portion of the public which is most likely to be affected by the operation of the proposed waste ***disposal*** [~~site or~~] facility. The publication shall take place after the cabinet has ***determined the application to be technically complete and issued a draft permit*** [~~made a preliminary determination of the application~~].

(3)[~~(2)~~] For ***a*** permit ***application*** [~~applications~~] to construct [~~or operate~~] a solid waste landfill or ***a*** permit ***application*** [~~applications~~] to ***expand, when the expansion results in substantial additional capacity,*** [~~modify~~] an existing solid waste landfill, the cabinet shall, upon first receiving the applications require immediately the general public notice provided for in subsections ***(4)***[~~(3)~~] and ***(5)***[~~(4)~~](a) to (d) of this section and upon determining that the application is administratively complete and at the time technical review begins, give special notice of the application to the county judge/executive or mayor of an urban-county government and members of the fiscal court or urban-county council of the county or urban-county government in which the landfill is or will be located. The special notice shall be in the form of an executive summary of the application. Also, at the time technical review begins, the cabinet shall again require the general public notice provided for in subsections ***(4)***[~~(3)~~] and ***(5)***[~~(4)~~](a) to (d) of this section with the additional information that the executive summary shall be available from the office of the county judge/executive or mayor of an urban-county government. Upon request by a county judge/executive, [~~or~~] mayor of an urban-county government, or a member of fiscal court or an urban-county council, the cabinet shall explain the application in a manner that is complete and expeditious. The cabinet shall notify the county judge/executive or mayor of an urban-county government if there will not be a public hearing on the applications. If there will be a public hearing, the cabinet shall notify the county judge/executive or mayor of an urban-county government fifteen (15) days prior to the hearing date.

(4)[~~(3)~~] At a minimum, publication shall be made at least once by advertisement in a daily or weekly newspaper of general circulation in the locality where the proposed ***waste disposal facility*** [~~site~~] is to be located.

(5)[~~(4)~~] The contents of the public notice of an application [~~for a waste site or facility~~] shall include the following:

(a) The name and address of the applicant;

(b) A brief description of the activity for which a permit is being sought;

(c) A description of the proposed location ***including a description of the primary access routes***;

(d) The name and address of this cabinet; and

(e) The following statement: "Any person who may be aggrieved by the issuance of a permit for this proposed waste ***disposal*** [~~site or~~] facility may file with the cabinet a petition which sets forth the grounds of the objection and demand a hearing pursuant to KRS 224.081(2)." Such hearing shall be held within the county where the waste ***disposal*** [~~site or~~] facility is proposed.

(6)[~~(5)~~] No permit ***to construct or expand, when the expansion results in substantial additional capacity, a waste disposal facility*** shall be issued until at least thirty (30) days have expired following publication of the application. The applicant for a permit ***shall*** [~~must~~] establish the date of publication by a verified affidavit from the newspaper which publishes the advertisement. If a hearing is requested, no permit ***to construct or expand, when the expansion results in substantial additional capacity, a waste disposal facility*** shall be issued prior to a ***final order of the secretary*** [~~completed hearing~~]. In the case of hazardous waste incinerators, landfills, and other sites or facilities for the land disposal of hazardous waste no permit shall be approved or issued prior to notification of the cabinet by the local unit of government of its actions pursuant to subsection ***(7)***[~~(6)~~] of this section.

(7)[~~(6)~~] The fiscal court of the county, urban-county government, or governing body of an incorporated municipality wherein a hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste is proposed, shall conduct a public hearing after public notice has been given in accordance with KRS Chapter 424 and shall vote to approve or disapprove the hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste within thirty (30) days after the hearing described in subsections ***(5)***[~~(4)~~] and ***(6)***[~~(5)~~] of this section. If no hearing is requested under the provisions of subsections ***(5)***[~~(4)~~] and ***(6)***[~~(5)~~] of this section, the fiscal court, urban-county government, or governing body of an incorporated municipality, shall conduct ***a*** [~~such~~] public hearing and vote to approve or disapprove the hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste within sixty (60) days following publication of the application. In making a determination the fiscal court, urban-county government, or governing body of an incorporated municipality shall consider the social and economic impacts of the proposed hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste on the affected community, including changes in property values, community perception, and other psychic costs; costs and availability of public services, facilities, and improvements required to support the incinerator, landfill, or other site or facility and protect public health, safety and the environment; and the relationship of the proposed hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste to local planning and existing development. After a fiscal court, [~~or~~] urban-county government, or governing body of an incorporated municipality has voted to approve or disapprove a hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste, the court, urban-county government, or governing body of an incorporated municipality shall so notify the cabinet in writing within ten (10) days. If a hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste is disapproved by the court, urban-county government, or governing body of an incorporated municipality, the reasons for disapproval shall be set forth clearly and concisely, and [~~so~~] recorded in the minutes. No permit shall be issued by the cabinet if a fiscal court, urban-county government, or governing body of an incorporated municipality disapproves the hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste in the manner prescribed herein.

(8) Upon first receiving a permit application to modify a solid waste landfill by reducing or eliminating any term or condition pertaining to the liner system, the cabinet shall require immediately the general public notice provided for in subsections (4) and (5) of this section.

(9)[~~(7)~~] The provisions of subsection ***(7)***[~~(6)~~] of this section shall not apply to:

(a) A proposed regional integrated waste treatment and disposal demonstration facility and any on-site remedial action facility authorized pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended;

(b) An existing hazardous waste incinerator having all required permits or authorizations as of March 4, 1988, ***but*** [~~provided however, that~~] subsection ***(7)***[~~(6)~~] of this section shall apply to any incinerator unit proposed for construction at an existing facility for which construction commenced after March 4, 1988, and to proposed hazardous waste incinerators for which a permit application has been filed but has not been issued as of March 4, 1988; and

(c) On-site incineration of hazardous waste by the generator of *the* [~~such~~] waste at the site of the waste generation including waste generated at another facility owned and operated by that generator[~~,~~] or wholly-owned subsidiary.

(10) An application to construct a solid waste landfill shall consist of three (3) parts: a notice of intent to apply for a solid waste permit; an administrative application; and a technical application. Nothing in this section shall prohibit an applicant from submitting more than one (1) part at one (1) time.

(a) An applicant proposing to construct a solid waste landfill shall submit to the cabinet a notice of intent to apply for a solid waste permit. The notice of intent shall contain information specified by the cabinet. The cabinet shall within thirty (30) working days of receipt notify the applicant by certified mail, return receipt requested, of the approval or disapproval of the applicant's notice of intent. If the notice of intent is not complete, the cabinet shall state in writing the information necessary to complete the notice of intent and the thirty (30) day time period shall be tolled until such time as the applicant responds. The cabinet shall notify the applicant of the approval or disapproval of the applicant's notice of intent by certified mail, return receipt requested. If the cabinet disapproves a notice of intent to apply for a solid waste permit, it shall state in writing its reasons for the disapproval.

(b) The applicant shall submit an administrative application for a solid waste landfill consistent with the notice of intent to apply for a solid waste permit. The administrative application shall contain information specified by the cabinet. The cabinet shall within sixty (60) working days of receipt notify the applicant by certified mail, return receipt requested, of the approval or disapproval of the applicant's administrative application. If the administrative application is not complete, the cabinet shall state in writing the information necessary to complete the administrative application and the sixty (60) day time period shall be tolled until such time as the applicant responds. The cabinet shall notify the applicant of the approval or disapproval of the applicant's administrative application by certified mail, return receipt requested. If the cabinet disapproves an administrative application to apply for a solid waste permit, it shall state in writing its reasons for the disapproval.

(c) The applicant shall submit a technical application for a solid waste landfill consistent with the administrative application. The technical application shall contain information specified by the cabinet. The cabinet shall within ninety (90) working days of receipt notify the applicant by certified mail, return receipt requested, of the approval or disapproval of the applicant's technical application. If the technical application is not complete, the cabinet shall state in writing the information necessary to complete the technical application and the ninety (90) day time period shall be tolled until such time as the applicant responds. The cabinet shall notify the applicant of the approval or disapproval of the applicant's technical application by certified mail, returned receipt requested. If the cabinet disapproves a technical application to apply for a solid waste permit, it shall state in writing its reasons for the disapproval.

(d) The permit review process, from the date of receipt of the notice of intent to the date the cabinet issues a draft permit to construct a solid waste landfill, or denies the application, shall not exceed three hundred sixty-five (365) calendar days, unless the cabinet and applicant agree otherwise. Failure of the cabinet to either issue a draft permit, or deny the application, within three hundred sixty-five (365) calendar days shall be deemed an order appealable pursuant to the provisions of KRS 224.081.

(e) If the cabinet does not request additional information or notify the applicant of the disapproval of the notice of intent or administrative application for a solid waste landfill within the time periods specified in this subsection, that portion of the application under review shall be deemed complete and approved, unless the cabinet and applicant agree otherwise.

(11) During construction of a liner system in a solid waste landfill, the cabinet shall periodically conduct inspections to verify that construction is being made in accordance with administrative regulations adopted by the cabinet and conditions contained in the permit. Except as otherwise provided in this section, the permittee shall not commence installation of any synthetic liner prior to a final inspection of any soil liner. The cabinet shall respond to any request for an inspection within two (2) working days of the request. If the cabinet fails to inspect within two (2) working days, the permittee may proceed to the next phase of construction, including installation of a synthetic liner, after submitting certification from a registered professional engineer that construction has been completed in accordance with applicable regulations and permit conditions. All inspections conducted for the cabinet shall be performed by a professional engineer registered in Kentucky.

(12) An applicant who is issued a permit to construct or expand, when the expansion results in substantial additional capacity, a solid waste landfill shall be issued a permit to operate in the areas included under the construction permit without further action when:

(a) The applicant submits a certification by an engineer registered in Kentucky that the liner system and facilities are constructed in accordance with the approved plans and specifications;

(b) A registered professional engineer for the cabinet inspects the facility and verifies in writing within ten (10) days of the submission of the engineer certification that the facility has been developed according to plans and that necessary equipment is available to operate the facility; and

(c) The required financial responsibility for closure has been established using any of the mechanisms required by KRS 224.846 in an amount determined by an approved closure plan and cost estimate.

(13) A permit issued pursuant to this section shall carry with it the right of successive renewal upon expiration with respect to areas within the boundaries of the existing permit. The permittee may request renewal and such renewal shall be issued unless it is established and written findings are made by the cabinet that:

(a) The terms and conditions of the existing permit, this chapter, or applicable administrative regulations adopted by the cabinet are not being satisfactorily met;

(b) The permittee has not provided evidence that any performance bond in effect will continue in full force and effect for any renewal requested as well as any additional bond the cabinet might require;

(c) Any additional revised or updated information required by the cabinet has not been provided.

(14) Any permit renewal shall be for a term not to exceed the period of original permit. Application for permit renewal shall be made at least one hundred eighty (180) days prior to the expiration of the existing permit. At the time of filing an application for permit renewal, the cabinet shall publish a notice in a daily or weekly newspaper of the largest circulation in the county where the solid waste landfill is located. The notice shall include the following:

(a) The name and address of the applicant;

(b) Identification of the permit for which the renewal is sought; and

(c) A statement informing the public of a thirty (30) day period in which public comments may be submitted to the cabinet on whether the renewal of the permit should be approved pursuant to subsection (13) of this section.

(15) The cabinet shall not adopt any regulation or standard or allow any exemption which applies to privately-owned solid waste management facilities more stringently than it applies to publicly- or municipally-owned solid waste management facilities.

Section 38. KRS 224.857 is amended to read as follows:

The cabinet shall not enforce any provision of this chapter relating to improper disposal of solid waste against an owner, occupant, or person having control or management of any land if the owner, occupant, or person is not the generator of ***the*** [~~such~~] solid waste or is not ***disposing*** [~~dumping~~] or knowingly allowing the ***disposal*** [~~dumping~~] of [~~such~~] solid waste and has made reasonable efforts to prevent the ***disposal*** [~~dumping~~] of solid waste by other persons onto ***the*** [~~said~~] property.

Section 39. KRS 224.860 is amended to read as follows:

Failure on the part of any applicant to demonstrate financial responsibility to construct and operate the ***waste*** site ***or facility*** in accordance with the ***administrative*** [~~rules and~~] regulations promulgated by the ***cabinet*** [~~department~~] shall be the grounds for denial of a permit.

Section 40. KRS 224.868 is amended to read as follows:

(1) (a) For purposes of this section and KRS 224.876(7), special wastes are those wastes of high volume and low hazard which include but are not limited to mining wastes, utility wastes (fly ash, bottom ash, scrubber sludge), sludge from water treatment facilities and waste water treatment facilities, cement kiln dust, gas and oil drilling muds, and oil production brines. Other wastes may be designated special wastes by the cabinet;

(b) Disposal sites or facilities for special wastes shall be exempt from the provisions of KRS 224.866 and the provisions of KRS 224.896, 224.897, and 224.2203 to 224.2215 but may be regulated by the cabinet consistent with the Resource Conservation and Recovery Act of 1976, as amended (Public Law 94-580), and regulations issued pursuant thereto, unless the special waste received is listed or meets the criteria of a hazardous waste in regulations pursuant to KRS 224.864(3). If the special waste is a hazardous waste as specified in regulations pursuant to KRS 224.864(3), the site or facility shall be required by the cabinet to comply with the provisions of KRS 224.866 but shall not be subject to the requirements of KRS 224.855(6);

(c) Generators of special wastes shall register with the cabinet and be subject to the provisions of KRS 224.864, except for generators of coal mining wastes which shall be regulated pursuant to the provisions of KRS Chapter 350; and

(d) The cabinet shall, when promulgating regulations affecting special waste, recognize special waste as a separate and distinct indivisible category and shall recognize the distinct differences between the category of special wastes and other hazardous wastes and solid wastes as defined in KRS 224.005***(30)***[~~(24)~~](a) and KRS 109.012(9) due to the fact that special wastes have large volume but low hazardousness. The cabinet's regulations for the generation, transport, recordkeeping, reporting, treatment, storage, and disposal shall reflect those distinct differences. The cabinet's regulations shall recognize and incorporate, where appropriate, and if consistent with the policies of KRS 224.864 to 224.874, any deadline extensions, studies, and specialized requirements for specific kinds of special wastes that are or may be undertaken at the federal or other levels of government.

(2) Generators of waste oil shall be exempt from the provisions of KRS 224.864 and 224.866 so long as waste oil is not specified as a hazardous waste in regulations pursuant to KRS 224.864(3) but may be regulated by the cabinet consistent with the Resource Conservation and Recovery Act of 1976, as amended (Public Law 94-580), and regulations issued pursuant thereto.

SECTION 41. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

“***(d) The cabinet shall forward the information required in the disclosure statement as provided for in subsection (2)(a) of this section to the Kentucky State Police within ten (10) days of the receipt of the disclosure statement.***

(3) The Kentucky State Police shall, within ninety (90) days after receipt of the disclosure statement from an applicant for a permit, prepare and transmit to the cabinet an investigative report on the applicant, based in part upon the disclosure statement, except that this deadline may be extended for a reasonable period of time,, for good cause, by the cabinet or the Kentucky State Police. In preparing this report, the Kentucky State Police may request and receive criminal history information from the Federal Bureau of Investigation and any other law enforcement agency or organization. The Kentucky State Police and cabinet may provide confidentiality regarding the information received from a law enforcement agency as may be imposed by that agency as a condition for providing the information to the Kentucky State Police.

(4) All applicants shall provide any assistance or information requested by the cabinet or the Kentucky State Police and shall cooperate in any inquiry or investigation conducted by the Kentucky State Police. If, upon issuance of a formal request to answer any inquiry or produce information, evidence, or testimony, any applicant or permittee, any key employee of the applicant or permittee, refuses to comply, the permit of the applicant or permittee may be denied or revoked by the cabinet.

(5) If any of the information required to be included in the disclosure statement changes, or if any additional information should be added after the filing of the statement, the applicant or permittee shall provide that information to the cabinet and the Kentucky State Police, in writing, within thirty (30) days after the change or addition. The failure to provide the information within thirty (30) days may constitute the basis for the revocation or denial of renewal of any permit issued in accordance with this chapter, provided that prior to any denial or revocation, the cabinet shall notify the applicant or permittee of his intention to do so and give the applicant or permittee fourteen (14) days from the date of the notice to explain why the information was not provided within the required thirty (30) day period. The cabinet shall consider this information when determining whether to revoke or deny the permit.

(6) Every permittee who is not otherwise required to file a disclosure statement shall file a disclosure statement within two (2) years after the effective date of this Act pursuant to a schedule for submissions of disclosure statements developed by the cabinet. The schedule shall provide all permittees with at least one hundred eighty (180) days' notice prior to the date upon which the statement must be submitted. All other terms of the schedule shall be established at the discretion of the cabinet.

(7) When a permittee submits a disclosure statement at the time it submits an application for a renewal or modification of its permit, the cabinet shall remove the permittee from the submission schedule established pursuant to subsection (6) of this section.

(8) After receiving a disclosure statement, the Kentucky State Police shall prepare an investigative report and transmit it to the cabinet. The cabinet shall review the disclosure statement and investigative report to determine whether the statement or report contains information that if submitted with a permit

application would require a denial of the permit pursuant to subsections (10), (11), or (12) of this section. If the cabinet determines that the statement or report contains such information, the cabinet may revoke any previously issued permit.

(9) Whenever there is a change in ownership of any solid waste disposal facility, including incinerators, any transfer facility, any off-site infectious waste treatment facility, or any off-site hazardous waste treatment, storage, or disposal facility, the prospective owner shall file a disclosure statement with the cabinet at least thirty (30) days prior to the proposed change in ownership. Upon receipt of the disclosure statement, the Kentucky State Police shall prepare an investigative report and transmit it to the cabinet. The cabinet shall review the disclosure statement and investigative report to determine whether the statement or report contains information that if submitted with a permit application would require a denial of the permit pursuant to subsections (10), (11), or (12) of this section. If the cabinet determines that the statement or report contains such information, the cabinet shall disapprove the change in ownership.

(a) If the parties to a change in ownership decide to proceed with the change prior to the action of the cabinet on the disclosure statement and investigative report, the cabinet may prohibit succession of the permit by the new owners.

(b) As used in this subsection, "change in ownership" includes:

1. Any change in the names contained in the disclosure statement; and

2. Any change, through purchase, assignment, stock transfer, or otherwise, which results in a transfer of control, management, or operation of the site or facility.

(c) Any permittee for a solid waste disposal facility which has undergone a change of ownership prior to the effective date of this Act shall be required to comply with the provisions of this section within ninety (90) days of the effective date of this Act.

(10) No permit shall be issued, modified, or renewed by the cabinet unless the cabinet finds that the applicant, in any prior performance record in the transportation, transfer, treatment, storage, or disposal of solid waste, infectious waste, or hazardous waste, has exhibited sufficient reliability, expertise, and competency to operate the solid waste, or hazardous waste facility, given the potential for harm to human health and the environment that could result from the irresponsible operation thereof, or, if no prior record exists, that the applicant is likely to exhibit that reliability, expertise, and competence.

(11) No permit shall be issued to an applicant where the disclosure statement or other information available to the cabinet indicates that any waste site or facility owned or controlled by the applicant or its key personnel is currently in violation of this chapter or any law, rule, or regulation of the United States or of any department or agency in the United States pertaining to environmental protection, until the applicant submits proof that the violation has been corrected or is in the process of being corrected to the satisfaction of the regulatory authority, department, or agency which has jurisdiction over the violation, or that the violation is under appeal.

(12) No permit shall be issued, modified, or renewed by the cabinet if any key personnel has been convicted of any felony or Class A misdemeanor.

(13) (a) Notwithstanding subsection (12) of this section, no applicant shall be denied the issuance, modification, or renewal of a permit on the basis of a conviction of any key personnel if that applicant has affirmatively demonstrated rehabilitation of the individual or business concern by a preponderance of the evidence. If any key personnel was convicted of a felony or Class A misdemeanor, a permit shall be denied unless in the case of an individual five (5) years have elapsed since the individual was fully discharged from imprisonment, probation, and parole for the offense. In determining whether an applicant has affirmatively demonstrated rehabilitation, the cabinet shall request a recommendation thereon from the Attorney General and shall consider and base the determination on the following factors:

1. The nature and responsibilities of the position a convicted individual would hold;

2. The nature and seriousness of the offense;

3. The circumstances under which the offense occurred;

4. The date of the offense;

5. The age of the individual when the offense was committed;

6. Whether the offense was an isolated or repeated incident;

7. Any social conditions that may have contributed to the offense; and

8. Any evidence of rehabilitation, including good conduct in prison or in the community, counseling or psychiatric treatment received, acquisition of additional academic or vocational schooling, successful participation in correctional work release programs, or the recommendation of persons who have or have had the applicant under their supervision.

(b) In the instance of an applicant that is a business concern, rehabilitation shall be established if the applicant has implemented formal management controls to prevent the occurrence of violations and activities that will or may result in permit denial or revocation or if the applicant has formalized controls as a result of a revocation or denial of a permit. The controls may include without limitation, instituting environmental auditing programs to help ensure the adequacy of internal systems to achieve, maintain, and monitor compliance with applicable environmental laws and standards or instituting an antitrust compliance auditing program to help ensure full compliance with applicable antitrust laws. The business concern shall prove by a preponderance of the evidence that the management controls are effective in preventing the violations that are the subject of concern.

(14) Notwithstanding the disqualification of the applicant or permittee pursuant to this section, the cabinet may issue, modify, or renew a permit if the applicant or permittee severs the interest of or affiliation with the individual or business concern that would otherwise cause that disqualification or may issue or renew a permit on a temporary basis for a period not to exceed three (3) months if the cabinet determines that the issuance or renewal of the permit is necessitated in order to allow generators to locate other facilities for waste disposal."; and

(4) Notwithstanding the provisions of KRS 40.400, 40.430, or any other statute to the contrary, persons who have received the Kentucky veterans' bonus provided under KRS 40.005 to 40.230 or their beneficiaries may apply for the bonus provided for by KRS 40.400 to 40.560 by filing an application on or before the thirty-first day of October, 1991, but if an application is sent by mail, the adjutant general shall receive it if the application is postmarked no later than the thirty-first day of October, 1991. The form of application shall be that specified in KRS 40.460, except that the statement required by KRS 40.460(1)(d) shall be omitted.

Section 6. KRS 40.560 is amended to read as follows:

(1) There shall be a board of review consisting of nine (9) persons who are residents and qualified voters of the Commonwealth, appointed by the Governor without limitation as to political affiliation, religion, race, sex, or past or present service in the armed forces, except that six (6) members of this board shall be veterans. (2) Three (3) members and no more shall constitute a board of review, and shall by concurrence of two (2) members decide any claim which comes before the board in the manner provided in KRS 40.520. The chairman of the board shall designate three (3) members to consider and decide each claim, having due regard for availability for service so that delay may be avoided.

(3) The chairman and secretary shall devote their full time to the affairs of the board and shall receive compensation at the rate to be fixed in accordance with personnel standards fixed by the commissioner of personnel until the functions of the board are performed and the board is dissolved as hereinafter provided. Other members of the board shall be compensated fifty dollars ($50.00) per diem, but only for actual time served in considering and deciding claims for veterans' bonuses pursuant to designation by the chairman. All members of the board shall be reimbursed for necessary travel to and from their places of residence, and in performance of duties pursuant to assignment, at the rate of eighteen cents (18) per mile.

(4) Each claim coming before the board shall promptly be considered and decided by the three (3) members designated for that purpose. In every case, the board shall either affirm the decision of the administrator, or determine that a veterans' bonus should be paid, and to what persons and in what amounts. No written opinions or recitations of reasons for any decision need be made. A statement of the decision made shall be signed by at least two (2) of the three (3) members designated to decide the claim, and upon concurrence of two (2) members, a decision shall be final and not subject to reconsideration.

(5) When, after ***the thirty-first day of January, 1992*** [~~March 1, 1990~~], the board of review shall have decided all cases coming before it for decision, the chairman shall report such fact to the Governor in writing. The Governor shall thereupon declare that the board of review is dissolved, and shall so notify the members, and the functions and duties of the board shall be deemed to have been fully performed.

Section 8. Whereas, to insure continuity in the application process for the bonus provided for Vietnam Veterans under the provisions of KRS 40.410 to 40.560 and this Act, and to maximize the amount of time available for application for the bonus under the time constraints set out in this Act, an emergency is declared to exist, and this Act shall become effective upon its passage and approval by the Governor.

(2) In addition to the refund value provided in subsection (1) of this section, a dealer or person operating

(2) Every dealer shall deposit with the distributor the refund value established in Section 65 of this Act for each beverage container purchased or received from that distributor.

(3) Customer deposits on beverage containers shall be considered to be the property of the person purchasing the container and not the property of the distributor who receives the deposit. Unclaimed customer deposits shall vest in the Commonwealth for the purpose of providing financial assistance in the construction and expansion of landfills to benefit the citizens of the Commonwealth as provided in Section 74 of this Act.

SECTION 67. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) Except as provided in Section 68 of this Act, a dealer shall accept from any person during business hours any empty beverage container of the type, size, and brand sold by the dealer within the past sixty (60) days and shall pay that person the refund value established in Section 65 of this Act for each container returned.

(2) Except as provided in Section 68 of this Act, a distributor shall accept and pick up from any dealer served by the distributor or from any redemption center for a dealer served by the distributor any empty beverage container of the type, size, and brand sold by the distributor within the past sixty (60) days and shall pay the dealer or redemption center the refund value of the container plus the handling fee established in Section 65 of this Act.

(2) A dealer, a person operating a redemption center, or a distributor, may refuse to accept any beverage container which contains material foreign to the normal contents of the container.

(3) A dealer may refuse to accept and to pay the refund value of an empty beverage container if the place of business of the dealer and the type, size, and brand of the container are included in an order of the cabinet approving a redemption center under Section 70 of this Act. However, any dealer participating in the establishment and operation of a redemption center shall prominently display a sign at the place of business of the dealer notifying consumers of the location of the redemption center that serves that particular dealer, the hours the redemption center is open, and the types of containers received at the redemption center.

(4) Every operator of a vending machine which sells beverages in beverage containers shall post a conspicuous notice on each vending machine indicating that a refund is available for each beverage container purchased and where and from whom that refund may be obtained. The provisions of this subsection shall not be construed to require vending machine operators to provide refunds at the premises where vending machines are located.

SECTION 69. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

Every beverage container sold or offered for sale in this Commonwealth by a dealer shall clearly indicate by embossing or by a stamp, or by a label, or other method securely affixed to the beverage container, the refund value of the container and the word "Kentucky" or the abbreviation "KY". However, this requirement shall not apply to any refillable beverage container having the brand name permanently marked thereon which, on the effective date of Sections 64 through 77 of this Act, had a refund value of not less than the refund value for the applicable size established in Section 65 of this Act.

SECTION 70. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

The application shall state the name and address of the person responsible for the establishment and operation of the redemption center; the type, size, and brand names of the containers which will be accepted at the redemption center; and the names and addresses of the dealers to be served by the redemption center. The application shall include any additional information as the cabinet may require.

(3) The cabinet shall approve a redemption center if it finds the redemption center will provide a convenient service to consumers for the return of empty containers. The order of the cabinet approving a redemption center shall state the dealers to be served by the redemption center and the type, size, and brand names of empty beverage containers which the redemption center must accept. The order may contain any other provisions to insure the redemption center will provide a convenient service to the public as the cabinet may determine.

(4) The cabinet may review at any time approval of a redemption center. After written notice to the person responsible for the establishment and operation of the redemption center, and to the dealers served by the redemption center, the cabinet may, after hearing, withdraw approval of a redemption center if the cabinet finds there has not been compliance with its order approving the redemption center, or if the redemption center no longer provides a convenient service to the public.

(5) All approved redemption centers shall meet applicable health standards.

SECTION 72. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(2) Not later than March 1, 1993, an underredeemer shall pay to the Revenue Cabinet that amount of money by which its total value of deposits for the period of July 1, 1992, to December 31, 1992, exceeds its total value of refunds made on containers for that same period. Not later than March 1 of each year after March 1, 1993, an underredeemer shall pay to the Revenue Cabinet that amount of money by which its annual total value of deposits exceeds its annual total value of refunds made on redeemed containers, subject to the overredemption credit contained in subsection (3) of this section.

(3) After March 1, 1993, an underredeemer who becomes an overredeemer in a subsequent year may credit the value of the overredemption in order to reduce the amount of money owed to the Revenue Cabinet under this section in one (1) or more subsequent years as a result of that person again becoming an underredeemer. Floor Amendments (Continued)

The Clerk announced the filing of the following Floor Amendments to a Bill:

Floor Amendment No. 14 to the House Committee Substitute to **SB** 2, by Representative Noe:

Amend printed copy of HCS to **SB** 2 on page 160, after line 10, by inserting:

"SECTION 64. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

(1) The General Assembly hereby finds, determines, and declares that the environmental problems caused by the consumption of disposable (single-use) diapers is a matter of statewide concern, that the continued production and use of disposable diapers only exacerbates the existing problems of waste disposal, depletion of natural resources, and litter, that reducing the amount of single-use diapers entering the waste stream and supporting the use of reusable cloth diapers will significantly improve the solid waste disposal problems Kentucky experiences, while improving the state's economy, and that the following information illustrates the distressing nature of the problem:

(a) Approximately eighteen billion (18,000,000,000) disposable diapers enter the solid waste stream in the United States each year. This is the equivalent of a barge load of diapers being thrown away every six (6) hours. Disposable diapers are one of the largest single components of the household waste stream, third only to food and beverage packaging and newspapers; and

(b) Seventy-five thousand (75,000) tons of plastic and over one million (1,000,000) tons of paper pulp are used each year to produce all types of disposable diapers.

(2) The General Assembly further finds, determines, and declares that cloth diapers provide a simple alternative that is both environmentally and economically sound and should therefore be promoted, that the promotion of cloth diapers through public education will spur economic growth through proliferation of small businesses that provide diaper services and related products, and that the use of cloth diapers by governmental agencies will provide Kentucky taxpayers with a substantial savings and will enhance the revenues of state institutions by decreasing their diaper budgets.

(3) The General Assembly further finds, determines, and declares that it is appropriate to develop innovative methods that encourage and support cloth diaper usage as the alternative to the use of disposable diapers and diapers labeled as biodegradable, as these products do nothing to reduce the volume of waste of landfills of this state.

SECTION 65. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

As used in Sections 64 through 71 of this Act, unless the context otherwise requires:

(1) "Birthing site" means any facility at which the delivery of a newborn infant takes place and which is licensed, certified, or approved by the Cabinet for Human Resources.

(2) "Child care center" means any facility which is maintained for the whole or part of a day for the care of five (5) or more children under the age of sixteen (16) years and not related to the owner, operator, or manager thereof, whether such facility is operated with or without compensation for such care and with or without stated educational purposes, and which facility is required to be licensed by the Cabinet for Human Resources. The term includes facilities commonly known as day care centers, day nurseries, nursery schools, kindergartens, preschools, play groups, day camps, and summer camps.

(3) "Cloth diaper" means any diaper made of material that allows for the reuse of the diaper by washing and sanitizing.

(4) "Cabinet" means the Revenue Cabinet.

(5) "Disposable diaper" means any diaper which is discarded after a single use, but "disposable diaper" does not include diapers intended to be used or which are in fact used by any person weighing over forty (40) pounds or who is over four (4) years of age.

(6) "Publicly funded facility" means any birthing site as defined in subsection (1) of this section and child care center as defined in subsection (2) of this section, which facilities receive public funds, directly or indirectly.

(7) "Sale" means any transfer, exchange, or barter, in any manner or by any means whatsoever, for a consideration. The term includes a gift made for advertising purposes by any person engaged in the business of selling disposable diapers as a means of evading the provisions of Sections 64, 65, and 66 of this Act or for any other purposes whatsoever.

(8) "Wholesaler" means any individual, firm, partnership, or corporation who first receives and distributes, in this state, disposable diapers for sale or resale.

SECTION 66. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

(1) On or after January 1, 1991, no person shall distribute, sell, or offer for sale in this state any package of disposable diapers manufactured after January 1, 1991, unless the package is labeled with a notice to consumers as set forth in this subsection regarding the solid waste impact of the product. The label shall be purchased from the Revenue Cabinet plus an additional charge that the cabinet may impose for the cost of producing the label, except that the cabinet shall procure and provide the labels in the most cost-efficient manner as possible. The label shall be located in a conspicuous place on the front display panel of the package, shall be in letters not less than twelve-point helvetica bold print type in a color that contrasts with the package, and shall state the following: This product may contribute to solid waste disposal problems in your community. Disposable diapers are used once and discarded. You may wish to consider the use of cloth diapers. Cloth diapers have less of an impact on the environment and your community.

(2) Any person who violates subsection (1) of this section shall be subject to a civil penalty, imposed in accordance with the Kentucky Rules of Civil Procedure, not to exceed fifty dollars ($50) per package of diapers.

(3) As used in this section, "person" means an individual, corporation, partnership, or association and includes any wholesaler or retailer.

SECTION 67. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

There is levied and shall be collected and paid to the Revenue Cabinet a tax upon disposable diapers by wholesalers or retailers of one-fourth of one cent ($0.0025) on each diaper. For the purposes of this section, "retailer" means any retailer who receives disposable diapers for sale or resale from any source other than a wholesaler.

SECTION 68. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

(1) Payment of the tax imposed by the provisions of Section 67 of this Act shall be demonstrated by the affixing of labels described in Section 66 of this Act to any package of disposable diapers. The cabinet shall procure labels of a design and legend as required by Section 66 of this Act. The cabinet shall sell the labels for cash to wholesalers or retailers. In addition, the cabinet shall keep accurate records of all labels sold to a wholesaler or retailer. No wholesaler or retailer who obtains labels from the cabinet shall sell or transfer any labels purchased pursuant to the provisions of Section 66 of this Act.

(2) Each wholesaler or retailer shall affix labels or cause the labels to be affixed to packages of disposable diapers and in a manner as the cabinet may specify. The labels may be affixed by a wholesaler or retailer at any time before the disposable diapers are transferred out of the person's possession.

(3) Credit shall be given by the cabinet for all taxes levied pursuant to the provisions of Section 67 of this Act on unsaleable merchandise when the cabinet is satisfied that the same has been returned to the manufacturer or has been destroyed by the wholesaler or retailer. The cabinet shall redeem any unused labels presented by any wholesaler or retailer within one (1) year after the date of issue of the labels at the price paid by the wholesaler or retailer.

(4) Any package of disposable diapers found at any place in this state without a label affixed thereto as provided in Section 66 of this Act, unless the diapers are in the possession of a wholesaler or retailer in the original unopened shipping package or in transit to a wholesaler or retailer, are declared to be contraband goods and may be seized without a warrant by the cabinet, its agents or employees, or by any peace officer in this state when directed or requested by the cabinet to do so. Nothing in this section shall be construed to require the cabinet to confiscate unlabeled packages of disposable diapers when it has reason to believe that the owner thereof is not willfully or intentionally evading the tax imposed by the provisions of Section 67 of this Act.

(5) Any package of disposable diapers seized by virtue of the provisions of this section shall be confiscated and the cabinet shall sell the confiscated goods at a public sale to a wholesaler or retailer to the best advantage of this state. The proceeds from the sale shall be remitted to the State Treasurer and distributed in accordance with Section 70 of this Act. The sale by the state shall not relieve the purchaser at the sale from paying the tax and labeling the packages so sold to a purchaser in the manner required by Sections 66 and 67 of this Act. The act or omission of any officer, agent, or other person acting for or employed by any person, firm, partnership, or corporation shall be deemed to be the act or omission of such person, firm, partnership, or corporation, as well as their own.

SECTION 69. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

(1) All sums of money received and collected in payment of the tax imposed on disposable diapers pursuant to Section 67 of this Act shall be transmitted to the State Treasurer, who shall distribute the money as follows:

(a) One hundred percent (100%) shall be credited to the general fund; and

(b) An amount equal to one hundred percent (100%) of the tax collected pursuant to Section 67 of this Act shall be transferred out of the general fund to the cash fund created in Section 70 of this Act to be available for appropriation by the General Assembly. The transfers shall be made by the State Treasurer as soon as possible after the twentieth day of the month following the collection of the tax.

(2) The secretary of the cabinet shall promulgate administrative regulations to effectuate the purposes of Sections 64 through 71 of this Act.

(3) No provision of Section 67 of this Act shall be construed to prevent the imposing, levying, and collecting of any tax upon sales of disposable diapers or upon the occupation or privilege of selling these products in any city in this state, nor shall the provisions of Section 67 of this Act be interpreted to affect any existing authority of local municipalities to impose a tax on disposable diapers to be used for local and municipal purposes.

SECTION 70. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

(1) There is hereby created in the State Treasury a fund to be known as the "Alternatives To Disposable Products Cash Fund," which shall consist of money collected pursuant to Sections 67 and 68 of this Act. All money in the fund shall be subject to annual appropriation by the General Assembly in accordance with subsection (2) of this section. Any money not appropriated shall revert to the general fund at the end of each fiscal year.

(2) The money in the fund shall be available for appropriation as follows:

(a) For the direct and indirect costs of administering Sections 64 through 71 of this Act, but in an amount not to exceed five percent (5%) of the annual revenues to the fund that are attributable to taxes collected pursuant to Section 67 of this Act; and

(b) To the Cabinet for Human Resources to be distributed in equal shares for the following purposes:

1. Educational programs on the use of cloth diapers as the alternative to disposable diaper use, which programs shall be developed and administered in accordance with subsection (1) of Section 71 of this Act; and

SECTION 71. A NEW SECTION OF KRS CHAPTER 194 IS CREATED TO READ AS FOLLOWS:

The programs shall incorporate at a minimum the following:

(a) The inclusion of information on the benefits of cloth diaper use in any public education program on recycling, which program is sponsored by any governmental agency or private organization;

(b) The inclusion of information on the impact of disposable diaper use in statements for real estate taxes or waste disposal bills;

(c) The provision of information and services that encourage the increased use of cloth diapers to hospitals, child care facilities, physicians, child birth educators, and human resources agencies; and

(d) The participation in or contribution of information to any clearinghouse for information concerning what consumers can do to reduce household waste, including information on alternatives to the use of disposable diapers and a list of diaper services in all areas of the state.

(2) On or before January 1, 1991, the secretary of the Cabinet for Human Resources shall develop and administer a one-year pilot project, using twenty (20) publicly funded facilities throughout the state that wish to participate in the project for the purpose of studying the impact of increasing the use of cloth diapers. The facilities shall include ten (10) birthing sites and ten (10) child care centers, each group of which shall represent rural and urban areas of the state and each of which shall represent the various sized facilities throughout the state. The study shall include, but need not be limited to, determinations concerning the following:

(a) Whether the use of cloth diapers increases or reduces the direct costs of purchasing diapers. For the purpose of making the determination, facilities shall document and report initial conversion costs;

(b) Whether increased use of cloth diapers in publicly funded facilities results in the increased use of cloth diapers by consumers of the facilities;

(c) Whether the use of cloth diapers in publicly funded facilities has any impact on disposable waste in the community served by the facilities; and

(d) Whether, as a result of the project, reliable information is available concerning the health of children diapered with cloth diapers as opposed to disposable diapers, including whether cloth diapering reduces diaper rash or other skin irritations.

(3) The secretary of the Cabinet for Human Resources shall submit written findings concerning the one-year pilot project to the General Assembly no later than April 1, 1992. The one-year pilot project authorization shall be repealed, effective July 1, 1992.

(4) The secretary of the Cabinet for Human Resources may contract with any individual or public or private agency or organization in carrying out the duties required in subsections (1) and (2) of this section.

(5) In performing the functions required in subsections (1) and (2) of this section, the secretary of the Cabinet for Human Resources, or any individual, agency, or organization with whom the secretary contracts, shall be guided and advised by the advisory committee established in subsection (9) of this section.

(6) The secretary of the Cabinet for Human Resources may solicit the assistance of any department or public agency in performing the functions required in subsections (1) and (2) of this section.

(7) The Cabinet for Human Resources shall promulgate administrative regulations necessary for the effectuation of this section.

The money shall be credited to the cash fund created in Section 70 of this Act and shall be appropriated in accordance therein.

SECTION 6. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) No permit to construct or expand a municipal solid waste disposal facility shall be accepted for processing by the cabinet unless the application contains a determination from the governing body for the solid waste management area in which the facility is or will be located concerning the consistency of the application with the area solid waste management plan submitted under KRS 224.888(1)(a) through (d) and (l) for applications submitted before January 1, 1993, and the entire plan for applications submitted after January 1, 1993. The governing body for the area shall, within sixty (60) days of receipt of a written request, make the determination after public notice and opportunity for public comment and public hearing. For applications with a notice of intent filed prior to the effective date of this Act, the cabinet shall continue to process the application but no permit shall be approved until the governing body for the solid waste management area in which the facility is or will be located has made a determination in accordance with this section.

(2) No permit to construct or expand a municipal solid waste disposal facility shall be approved unless the applicant affirmatively demonstrates and the cabinet makes a written finding in the preliminary determination made pursuant to KRS 224.855(1) that the application conforms to and is consistent with all of the following:

(3) If the cabinet approves a permit to construct or expand a solid waste management facility after the governing body for the area has determined the application to be inconsistent with the area solid waste management plan, as part of the written finding the cabinet shall state in detail the reasons why it did not accept the determination of the governing body for the area.

(4) For the purposes of this section, the term municipal solid waste disposal facility includes, in addition to those facilities defined in KRS 224.005(15), any residual or contained landfill disposing of industrial solid waste for a fee.

SECTION 7. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) No person shall transport or cause to be transported from outside the Commonwealth to a municipal solid waste management facility in the Commonwealth any waste unless each of the following persons, if not a resident of the Commonwealth at the time the waste is transported, has first irrevocably consented in writing to the jurisdiction of the courts of the Commonwealth and service of process in the Commonwealth, including summons and subpoenas, for any civil or criminal proceeding arising out of or relating to the waste that is shipped to a facility in this state:

(a) Any person who actually transports the waste;

(b) The employer of the person who actually transports the waste;

(c) Any person acting as a broker or otherwise arranging or contracting for the transportation of the waste, with the exception of persons initially generating municipal solid waste; and

(d) Any person who has contracted with the owner or operator of the facility for management of the waste at that facility.

(2) The original of the consent-to-service document shall be filed with the cabinet. A copy shall be filed with the owner or operator of each municipal solid waste management facility to which the waste is transported. The original and each copy shall be sent by certified mail, return receipt requested, at least seven (7) days before the first shipment of waste to a waste site or facility in the Commonwealth in the year for which the document is filed. The document shall be updated to reflect any changes in circumstances and refiled.

(3) A person who enters the Commonwealth pursuant to a summons, subpoena, or other form of process authorized by this section is not subject to service of process in connection with nonrelated matters that arise before his entrance into the Commonwealth.

(4) No owner, operator, or employee of a municipal solid waste management facility shall accept for treatment, transfer, storage, or disposal at the facility any waste from outside the boundaries of the Commonwealth unless a copy of the consent-to-service document required by this section and applicable to the waste is on file at the facility.

(5) The owner or operator of a municipal solid waste management facility shall keep the consent-to-service documents filed with him under this section at the facility in such a location and manner that they are readily accessible to the cabinet.

(c) Been convicted by final judgment of any felony within five (5) years preceding the filing of the application;

(d) Been adjudged by an administrative agency or a court to have violated the environmental protection laws or administrative regulations of the United States, the Commonwealth, or any other state, and the cabinet determines that the conviction or adjudication is sufficiently probative of the applicant's inability or unwillingness to operate the facility in a lawful manner as to warrant revocation, modification, suspension, or denial of the permit. In making the determination, the cabinet shall consider:

1. The nature and details of the acts attributed to key personnel;

2. The degree of culpability of the applicant, if any;

3. The applicant's policy or history of discipline of key personnel for such activities;

(g) The cabinet shall issue specific findings of fact to support a determination made under this section to revoke, modify, suspend, or deny a permit for a waste site or facility permitted as of the effective date of this Act. Determinations made under this section shall be appealable under KRS 224.081(2). A waste site or facility currently permitted as of the effective date of this Act may apply directly to the Franklin Circuit Court for an injunction to stay the effective date of a determination made under this section pending any appeal.

(3)(a) Before an application for the issuance, renewal, or transfer of a permit for a solid waste management facility may be granted or when there is a change in key personnel of the applicant, the applicant and each person who is a key personnel of the applicant shall submit to the cabinet a disclosure statement that meets the requirements set forth in subsection (3)(b) of this section and is executed under subsection (3)(c) of this section.

(b) In a disclosure statement required under this section, the applicant shall set forth the following information:

1. The name, business address, and Social Security number of the applicant and its key personnel;

7. The location of all waste sites or facilities and solid waste management facilities in which the applicant or any of its key personnel has a financial or equitable interest, or is an officer, director, or manager;

(c) A disclosure statement submitted under subsection (3) of this section shall be executed under oath or affirmation and shall be submitted to the penalty for perjury under KRS Chapter 523;

(d) The cabinet shall investigate to verify the accuracy of the information set forth in a statement required under this section.

(e) On February 1 and August 1 of each year, each applicant who has submitted a disclosure statement under this section shall submit any information necessary to update the disclosure statement.

(7) The provisions of this section shall not prohibit the cabinet from establishing by administrative regulation other grounds other than criminal and compliance history for the revocation, modification, suspension, or denial of a permit for a waste site or facility.

Section 9. KRS 224.849 is amended to read as follows:

(j) Make recommendations to the 1992 General Assembly for any additional action regarding solid waste management in the Commonwealth. Such recommendations shall be coordinated with any reports and findings issued by the local government task force created by Senate Concurrent Resolution 97 of the 1990 General Assembly and the Recycling Development Council created by this chapter.

(2) No permit ***to construct or expand, when the expansion results in substantial additional capacity, a waste disposal facility*** shall be issued until a complete application has been submitted to and approved by the cabinet and notice of the application [~~for a waste site or facility~~] has been published, as provided for in subsections ***(4)***[~~(3)~~] and ***(5)***[~~(4)~~] of this section, at the expense of the applicant in a manner reasonably calculated to inform that portion of the public which is most likely to be affected by the operation of the proposed waste ***disposal*** [~~site or~~] facility. The publication shall take place after the cabinet has ***determined the application to be technically complete and issued a draft permit*** [~~made a preliminary determination of the application~~].

(3)[~~(2)~~] For ***a*** permit ***application*** [~~applications~~] to construct [~~or operate~~] a solid waste landfill or ***a*** permit ***application*** [~~applications~~] to ***expand, when the expansion results in substantial additional capacity,*** [~~modify~~] an existing solid waste landfill, the cabinet shall, upon first receiving the applications require immediately the general public notice provided for in subsections ***(4)***[~~(3)~~] and ***(5)***[~~(4)~~](a) to (d) of this section and upon determining that the application is administratively complete and at the time technical review begins, give special notice of the application to the county judge/executive or mayor of an urban-county government and members of the fiscal court or urban-county council of the county or urban-county government in which the landfill is or will be located. The special notice shall be in the form of an executive summary of the application. Also, at the time technical review begins, the cabinet shall again require the general public notice provided for in subsections ***(4)***[~~(3)~~] and ***(5)***[~~(4)~~](a) to (d) of this section with the additional information that the executive summary shall be available from the office of the county judge/executive or mayor of an urban-county government. Upon request by a county judge/executive, [~~or~~] mayor of an urban-county government, or a member of fiscal court or an urban-county council, the cabinet shall explain the application in a manner that is complete and expeditious. The cabinet shall notify the county judge/executive or mayor of an urban-county government if there will not be a public hearing on the applications. If there will be a public hearing, the cabinet shall notify the county judge/executive or mayor of an urban-county government fifteen (15) days prior to the hearing date.

(4)[~~(3)~~] At a minimum, publication shall be made at least once by advertisement in a daily or weekly newspaper of general circulation in the locality where the proposed ***waste disposal facility*** [~~site~~] is to be located.

(5)[~~(4)~~] The contents of the public notice of an application [~~for a waste site or facility~~] shall include the following:

(a) The name and address of the applicant;

(b) A brief description of the activity for which a permit is being sought;

(c) A description of the proposed location ***including a description of the primary access routes***;

(d) The name and address of this cabinet; and

(e) The following statement: "Any person who may be aggrieved by the issuance of a permit for this proposed waste ***disposal*** [~~site or~~] facility may file with the cabinet a petition which sets forth the grounds of the objection and demand a hearing pursuant to KRS 224.081(2)." Such hearing shall be held within the county where the waste ***disposal*** [~~site or~~] facility is proposed.

(6)[~~(5)~~] No permit ***to construct or expand, when the expansion results in substantial additional capacity, a waste disposal facility*** shall be issued until at least thirty (30) days have expired following publication of the application. The applicant for a permit ***shall*** [~~must~~] establish the date of publication by a verified affidavit from the newspaper which publishes the advertisement. If a hearing is requested, no permit ***to construct or expand, when the expansion results in substantial additional capacity, a waste disposal facility*** shall be issued prior to a ***final order of the secretary*** [~~completed hearing~~]. In the case of hazardous waste incinerators, landfills, and other sites or facilities for the land disposal of hazardous waste no permit shall be approved or issued prior to notification of the cabinet by the local unit of government of its actions pursuant to subsection ***(7)***[~~(6)~~] of this section.

(7)[~~(6)~~] The fiscal court of the county, urban-county government, or governing body of an incorporated municipality wherein a hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste is proposed, shall conduct a public hearing after public notice has been given in accordance with KRS Chapter 424 and shall vote to approve or disapprove the hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste within thirty (30) days after the hearing described in subsections ***(5)***[~~(4)~~] and ***(6)***[~~(5)~~] of this section. If no hearing is requested under the provisions of subsections ***(5)***[~~(4)~~] and ***(6)***[~~(5)~~] of this section, the fiscal court, urban-county government, or governing body of an incorporated municipality, shall conduct ***a*** [~~such~~] public hearing and vote to approve or disapprove the hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste within sixty (60) days following publication of the application. In making a determination the fiscal court, urban-county government, or governing body of an incorporated municipality shall consider the social and economic impacts of the proposed hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste on the affected community, including changes in property values, community perception, and other psychic costs; costs and availability of public services, facilities, and improvements required to support the incinerator, landfill, or other site or facility and protect public health, safety and the environment; and the relationship of the proposed hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste to local planning and existing development. After a fiscal court, [~~or~~] urban-county government, or governing body of an incorporated municipality has voted to approve or disapprove a hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste, the court, urban-county government, or governing body of an incorporated municipality shall so notify the cabinet in writing within ten (10) days. If a hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste is disapproved by the court, urban-county government, or governing body of an incorporated municipality, the reasons for disapproval shall be set forth clearly and concisely, and [~~so~~] recorded in the minutes. No permit shall be issued by the cabinet if a fiscal court, urban-county government, or governing body of an incorporated municipality disapproves the hazardous waste incinerator, landfill, or other site or facility for the land disposal of hazardous waste in the manner prescribed herein.

(8) Upon first receiving a permit application to modify a solid waste landfill by reducing or eliminating any term or condition pertaining to the liner system, the cabinet shall require immediately the general public notice provided for in subsections (4) and (5) of this section.

(9)[~~(7)~~] The provisions of subsection ***(7)***[~~(6)~~] of this section shall not apply to:

(a) A proposed regional integrated waste treatment and disposal demonstration facility and any on-site remedial action facility authorized pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, as amended;

(b) An existing hazardous waste incinerator having all required permits or authorizations as of March 4, 1988, ***but*** [~~provided however, that~~] subsection ***(7)***[~~(6)~~] of this section shall apply to any incinerator unit proposed for construction at an existing facility for which construction commenced after March 4, 1988, and to proposed hazardous waste incinerators for which a permit application has been filed but has not been issued as of March 4, 1988; and

(c) On-site incineration of hazardous waste by the generator of ***the*** [~~such~~] waste at the site of the waste generation including waste generated at another facility owned and operated by that generator[~~,~~] or wholly-owned subsidiary.

(10) An application to construct a solid waste landfill shall consist of three (3) parts: a notice of intent to apply for a solid waste permit; an administrative application; and a technical application. Nothing in this section shall prohibit an applicant from submitting more than one (1) part at one (1) time.

(a) An applicant proposing to construct a solid waste landfill shall submit to the cabinet a notice of intent to apply for a solid waste permit. The notice of intent shall contain information specified by the cabinet. The cabinet shall within thirty (30) working days of receipt notify the applicant by certified mail, return receipt requested, of the approval or disapproval of the applicant's notice of intent. If the notice of intent is not complete, the cabinet shall state in writing the information necessary to complete the notice of intent and the thirty (30) day time period shall be tolled until such time as the applicant responds. The cabinet shall notify the applicant of the approval or disapproval of the applicant's notice of intent by certified mail, return receipt requested. If the cabinet disapproves a notice of intent to apply for a solid waste permit, it shall state in writing its reasons for the disapproval.

(b) The applicant shall submit an administrative application for a solid waste landfill consistent with the notice of intent to apply for a solid waste permit. The administrative application shall contain information specified by the cabinet. The cabinet shall within sixty (60) working days of receipt notify the applicant by certified mail, return receipt requested, of the approval or disapproval of the applicant's administrative application. If the administrative application is not complete, the cabinet shall state in writing the information necessary to complete the administrative application and the sixty (60) day time period shall be tolled until such time as the applicant responds. The cabinet shall notify the applicant of the approval or disapproval of the applicant's administrative application by certified mail, return receipt requested. If the cabinet disapproves an administrative application to apply for a solid waste permit, it shall state in writing its reasons for the disapproval.

(c) The applicant shall submit a technical application for a solid waste landfill consistent with the administrative application. The technical application shall contain information specified by the cabinet. The cabinet shall within ninety (90) working days of receipt notify the applicant by certified mail, return receipt requested, of the approval or disapproval of the applicant's technical application. If the technical application is not complete, the cabinet shall state in writing the information necessary to complete the technical application and the ninety (90) day time period shall be tolled until such time as the applicant responds. The cabinet shall notify the applicant of the approval or disapproval of the applicant's technical application by certified mail, returned receipt requested. If the cabinet disapproves a technical application to apply for a solid waste permit, it shall state in writing its reasons for the disapproval.

(d) The permit review process, from the date of receipt of the notice of intent to the date the cabinet issues a draft permit to construct a solid waste landfill, or denies the application, shall not exceed three hundred sixty-five (365) calendar days, unless the cabinet and applicant agree otherwise. Failure of the cabinet to either issue a draft permit, or deny the application, within three hundred sixty-five (365) calendar days shall be deemed an order appealable pursuant to the provisions of KRS 224.081.

(e) If the cabinet does not request additional information or notify the applicant of the disapproval of the notice of intent or administrative application for a solid waste landfill within the time periods specified in this subsection, that portion of the application under review shall be deemed complete and approved, unless the cabinet and applicant agree otherwise.

(11) During construction of a liner system in a solid waste landfill, the cabinet shall periodically conduct inspections to verify that construction is being made in accordance with administrative regulations adopted by the cabinet and conditions contained in the permit. Except as otherwise provided in this section, the permittee shall not commence installation of any synthetic liner prior to a final inspection of any soil liner. The cabinet shall respond to any request for an inspection within two (2) working days of the request. If the cabinet fails to inspect within two (2) working days, the permittee may proceed to the next phase of construction, including installation of a synthetic liner, after submitting certification from a registered professional engineer that construction has been completed in accordance with applicable regulations and permit conditions. All inspections conducted for the cabinet shall be performed by a professional engineer registered in Kentucky.

(12) An applicant who is issued a permit to construct or expand, when the expansion results in substantial additional capacity, a solid waste landfill shall be issued a permit to operate in the areas included under the construction permit without further action when:

(a) The applicant submits a certification by an engineer registered in Kentucky that the liner system and facilities are constructed in accordance with the approved plans and specifications;

(b) A registered professional engineer for the cabinet inspects the facility and verifies in writing within ten (10) days of the submission of the engineer certification that the facility has been developed according to plans and that necessary equipment is available to operate the facility; and

(c) The required financial responsibility for closure has been established using any of the mechanisms required by KRS 224.846 in an amount determined by an approved closure plan and cost estimate.

(13) A permit issued pursuant to this section shall carry with it the right of successive renewal upon expiration with respect to areas within the boundaries of the existing permit. The permittee may request renewal and such renewal shall be issued unless it is established and written findings are made by the cabinet that:

(a) The terms and conditions of the existing permit, this chapter, or applicable administrative regulations adopted by the cabinet are not being satisfactorily met;

(b) The permittee has not provided evidence that any performance bond in effect will continue in full force and effect for any renewal requested as well as any additional bond the cabinet might require; or

(c) Any additional revised or updated information required by the cabinet has not been provided.

(14) Any permit renewal shall be for a term not to exceed the period of original permit. Application for permit renewal shall be made at least one hundred eighty (180) days prior to the expiration of the existing permit. At the time of filing an application for permit renewal, the cabinet shall publish a notice in a daily or weekly newspaper of the largest circulation in the county where the solid waste landfill is located. The notice shall include the following:

(a) The name and address of the applicant;

(b) Identification of the permit for which the renewal is sought; and

(c) A statement informing the public of a thirty (30) day period in which public comments may be submitted to the cabinet on whether the renewal of the permit should be approved pursuant to subsection (13) of this section.

(15) The cabinet shall not adopt any regulation or standard or allow any exemption which applies to privately-owned solid waste management facilities more stringently than it applies to publicly-or municipally-owned solid waste management facilities.

SECTION 14. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) Notwithstanding any statutory provisions to the contrary, the tax imposed in KRS 143A.020 and applicable to clay, in any form, shall be limited to twelve cents ($0.12) per ton and notwithstanding the severance tax on coal, provided in KRS Chapter 143, the tax on coal used for burning solid waste shall be limited to fifty cents ($0.50) per ton or four percent (4%) of the selling price per ton whichever is less.

(2) The General Assembly of the Commonwealth of Kentucky finds that the accumulative costs of the environmentally responsible landfill disposal of solid waste affects the development of new landfill capacity. Therefore, it being the intent of the General Assembly to help control those costs, a credit is hereby allowed against the tax on clay, imposed by subsection (1) of this section, which is severed or processed within this state and sold to and used as a component of landfill construction by an approved waste management or waste disposal facility within this state.

(3) The credit allowed in subsection (2) of this section shall be equal to the tax imposed by subsection (1) of this section.

(4) The credit allowed in this section shall extend only to a taxpayer who severs or processes the natural resource subject to the tax.

Floor Amendments (Continued)

The Clerk announced the filing of the following Floor Amendments to a Bill:

Floor Amendment No. 28 to the House Committee Substitute to **SB 2**, by Representative Worthington:

Amend printed copy of HCS to GA copy of **SB 2** on page 1, after the enacting clause by inserting:

SECTION 1. KRS CHAPTER 59 IS ESTABLISHED AND A NEW SECTION THEREOF IS CREATED TO READ AS FOLLOWS:

(1) The General Assembly finds the following:

(a) That a critical point has been reached in the management of solid waste in Kentucky because solid waste landfill disposal capacity is being rapidly depleted while new solid waste disposal facilities have not been opened to dispose of solid waste in an environmentally safe manner;

(b) That the expected life of existing Kentucky solid waste disposal sites will be significantly reduced by the increasing and uncontrolled importation of solid waste generated from outside of Kentucky;

(c) The new, more environmentally protective solid waste landfill regulations will, in the near future, cause the closing of about one-half of the solid waste disposal facilities now open in Kentucky;

(d) That local governments in Kentucky have limited staff and financial resources to meet their delegated responsibilities to provide for solid waste disposal needs; and

(e) That the growing volume of solid waste generated in Kentucky increases the critical nature of the decline in solid waste disposal capacity and necessitates that solid waste source reduction measures be utilized.

(2) Based on these findings the General Assembly declares that the following shall be the policy for the Commonwealth:

(a) That the Commonwealth shall work through regional boards and local governments to assure that solid waste landfill disposal facilities are available to meet the long-term landfill disposal capacity needs for the citizens of the Commonwealth;

(b) That the Commonwealth shall develop a strategic solid waste disposal plan which designates waste control regions and which establishes a timetable for implementation of the strategic plan by the management boards of the regions;

(c) That the management boards of the waste control regions shall establish publicly-owned solid waste landfills in order to provide adequate long-term solid waste disposal capacity for the regions; and

(d) That the transfer of solid waste into waste control regions and between regions shall be regulated by a state authority and the regional boards.

SECTION 2. A NEW SECTION OF KRS CHAPTER 59 IS CREATED TO READ AS FOLLOWS:

The Kentucky Solid Waste Authority is hereby created. The authority shall have three (3) members and be an independent public agency as defined by KRS 61.805 with the power in its own name to enter into contracts or other legal relationships, own property, sue or be sued, promulgate administrative regulations, issue subpoenas for the production of records and other data, and undertake any other activity necessary to carry out Sections 1 through 19 of this Act subject to statutory and regulatory controls of public agencies. The authority shall be regarded as performing essential governmental functions solely for the benefit of the citizens of the Commonwealth.

SECTION 3. A NEW SECTION OF KRS CHAPTER 59 IS CREATED TO READ AS FOLLOWS:

The Kentucky Solid Waste Authority shall:

(1) Develop and oversee implementation of a strategic solid waste disposal plan based upon waste control regions to efficiently manage solid waste disposal through publicly-owned solid waste landfills;

(2) Complete the development of the strategic plan within six (6) months of appointment of the authority;

(3) As part of the strategic plan, establish the boundaries of the waste control regions, and create the boards for the regions which shall serve as the organizational units to implement the strategic plan;

(4) Provide technical assistance and financial assistance to the regional boards;

(5) Review and approve the transport of solid waste into and out of waste control regions for consistency with the strategic plan for the waste control regions;

(6) Direct the transport of solid waste between waste control regions as necessary to assure that the solid waste of every waste control region has access to a landfill until publicly-owned landfills are constructed or acquired by the regional board;

(7) Evaluate and declare as surplus any solid waste landfill capacity which results from implementation of the strategic plan for a waste control region;

(8) Review for consistency with the strategic plan regional board actions to carry out the strategic plan's requirements for landfill capacity for twenty (20) years for the disposal of solid waste generated in the waste control regions;

(9) Provide technical assistance to the regional boards and private contractors on solid waste reduction and recycling with the targeted goal that solid waste shall be reduced and recycled by twenty-five percent (25%) by 1997;

(10) Administer collectively the regional board trust funds for the closure and post-closure care of publicly-owned landfills. Interest earned on the collective account shall be credited to the separate funds in proportion to the ratio that the principal of each separate fund bears to the collective account;

(11) Establish and administer a trust fund for the purpose of accumulating and maintaining cash assets to pay the cost of replacing drinking water supplies which may be made undrinkable because of contamination directly attributable to a solid waste landfill. Within ten (10) years the fund shall be no less than five million dollars ($5,000,000) and no more than ten million dollars ($10,000,000). The authority shall assess a fee on each publicly-owned landfill to fund the trust and shall adjust the fee annually as necessary to maintain the trust fund within the mandated limits; and

(12) Assess an additional fee on the disposal of solid waste, as necessary, to assure the payment of the debt service and principal on bonds issued by a regional solid waste disposal board or to assure the adequacy of a solid waste landfill closure and post-closure fund of a regional solid waste disposal board.

SECTION 4. A NEW SECTION OF KRS CHAPTER 59 IS CREATED TO READ AS FOLLOWS:

(1) The strategic solid waste disposal plan shall:

(a) Determine and analyze the present volume, origin, method of transportation, and the destination of solid waste generated within the state and the present methods of managing that solid waste which shall include collection, source reduction, and recycling of solid waste;

(b) Determine the locations, capacity under present permits, daily and yearly average rate of disposal, proposed expansions filed with the Natural Resources and Environmental Protection Cabinet of all solid waste landfills presently permitted to operate within the state, and applications for new solid waste landfills;

(c) Determine the origins, volumes, methods of transport, and the destination within the state of solid waste generated outside of the state;

(d) Determine the location of and daily and yearly average of landfill capacity at facilities in other states used for the disposal of Kentucky solid waste; and

(e) Analyze the transportation costs of collecting and transporting solid waste to landfills located within and outside the state.

(2) The data accumulated within the strategic plan shall be kept as current as practicable but at a minimum shall be updated at least every six (6) months.

(3) The strategic plan shall set out geographical regions within the state, to be called waste control regions, for the purpose of assuring that solid waste landfill capacity will be developed or acquired by the regional boards in a manner that:

(a) Will assure the strategic location of publicly-owned disposal facilities throughout the Commonwealth minimizing overall solid waste management costs for the citizens of Kentucky; and

(b) Will assure the orderly dedication of resources to landfill development to meet expected state solid waste landfill disposal requirements for a twenty (20) year period.

SECTION 5. A NEW SECTION OF KRS CHAPTER 59 IS CREATED TO READ AS FOLLOWS:

(1) The Governor shall appoint, subject to confirmation by the Senate and House of Representatives at the next regular session of the General Assembly of the Commonwealth of Kentucky, three (3) individuals to serve as members of the authority. Management of the authority shall be conducted through a Board of Governors comprised of the members of the authority.

(2) All nominees shall have one (1) or more of the following qualifications:

(a) At least five (5) years' experience in waste management and possessing an engineering or other technical four (4) year college degree;

(b) Experience as a local government solid waste plan developer or a manager of local solid waste management plan implementation and possessing a four (4) year college degree; and

(c) At least five (5) years' experience in waste management planning and possessing a four (4) year college degree.

(3) The Governor shall make the appointments to the authority in order that each of the qualifications of subsection (2) will be met by at least one (1) member of the authority.

(4) The appointments shall be made by the Governor no later than thirty (30) days after the effective date of this Act.

SECTION 6. A NEW SECTION OF KRS CHAPTER 59 IS CREATED TO READ AS FOLLOWS:

(1) The members of the authority shall serve four (4) year terms and may succeed themselves. The determination shall be made by the Attorney General or his designee within fifteen (15) days of the date of receipt of a request for the determination. In the event the Attorney General fails to make the determination within the time frame specified, the requested indemnification shall be deemed as granted.

(7) The indemnification provided in this section shall apply only to acts or omissions occurring subsequent to the effective date of this Act. Amend printed copy of HCS to GA copy of **SB** 2 on page 1, after the enacting clause, by deleting all the text thereafter and substituting the following:

"Section 1. (1) The General Assembly of the Commonwealth of Kentucky finds the following:

(a) On January 14, 1991, the General Assembly was convened to consider, among other items, the enactment of legislation pertaining to the reduction and management of solid waste;

(b) Reflecting the exceptional complexity of this subject and the acknowledgement that the subject directly affects every man, woman, and child in this state, since January 14 the committees of the legislature have deliberated upon the proposals contained in Senate Bill 2 and debated and adopted over one-hundred and fifty revisions to those proposals;

(c) That it is the proper responsibility of the legislature, to read, study, and weigh the effects of proposed legislation upon the people of this Commonwealth. Necessarily, the greater the complexity of a subject and the deeper its impact, the more ponderous the debate;

(d) That regrettably, this democratic process has not had sufficient time in which to work out a consensus on this subject which responsibly accounts for all legitimate interests in this state; and

(e) That hopefully, utilizing the time that is needed a consensus will be forged that will offer to the people of this state some assurances that the demands of the future for the environmentally sound management of solid waste will be met by sensible legislation.

(2) The General Assembly, therefore, declares:

(a) The work to enact effective legislation on the management of solid waste must continue and to that end a task force shall be appointed by the Legislative Research Commission and shall be limited to legislative members. The task force shall be given the charge to work with the same serious intent and defined focus as that which characterized the Education Reform Task Force. The task force shall resolve issues concerning but not limited to the following, with no priority to be inferred from this order:

1. Universal collection;
2. Recycling;
3. Regulatory control of landfills, including rate controls;
4. The deferred administrative regulations relating to solid waste and to make a recommendation to adopt, amend, or repeal the deferred administrative regulations;
5. Landfill standards;
6. Comparing public and private ownership of landfills;
7. Comparing state government and local government responsibility for solid waste management;
8. Local communities' acceptance of and control of landfills;
9. State governments' efforts to foster recycling;
10. Cost controls; and

11. A cost analysis of the various aspects of comprehensive solid waste management legislation, including a cost analysis of each of these specific study items.

(3) The task force shall present to the 1992 session of the General Assembly comprehensive solid waste management legislation.

(4) The work function of the task force is estimated to cost $100,000 which shall be provided from the regular Legislative Resource Commission budget.

Section 2. (1) KRS 13A.330 notwithstanding, the administrative regulations adopted in Title 401, KAR, Chapters 47 and 48, which created the more stringent solid waste landfill standards, that became effective May 8, 1990, shall be suspended until July 1, 1993.

(2) The provisions of KRS Chapter 13A notwithstanding, those administrative regulations contained in Title 401, KAR, Chapters 47 and 48, as set out in subsection (1) of this section, that were in effect January 15, 1990, shall be effective as if they had not been amended or suspended, but no permit to construct a landfill or modify an existing landfill shall be issued by the Natural Resources and Environmental Protection Cabinet prior to the effective date of Acts enacted by the General Assembly at its 1992 Regular Session.

(3) The Legislative Research Commission shall appoint a task force to study all administrative regulations concerning solid waste, and this task force shall report its findings and recommendations to the 1992 Regular Session of the General Assembly.

Section 3. A NEW SECTION OF KRS CHAPTER 224 IS CREATED TO READ AS FOLLOWS:

(1) Consistent with requirements of KRS Chapter 224, increases in the amount of waste from any geographic source permitted to be accepted by any municipal solid waste disposal facility shall not exceed more than five percent (5%) of the average volume of waste accepted during the twelve (12) month period January 1990 through December 1990 unless: the facility meets a design standard of at least twelve (12) inches of soil with a maximum permeability of one (1) times ten (10) to the minus seven (7) power centimeters per second or its equivalent, has a leachate collection system installed in a manner approved by the cabinet, and has a groundwater monitoring system approved by the cabinet.

(2) The cabinet shall revise upward or downward the limitation contained in subsection (1) of this section if it determines that the revision is necessary to assure capacity for disposal of solid waste generated in Kentucky; to assure capacity for disposal of industrial solid waste generated in Kentucky as the result of economic development; or to protect against risks to health, welfare, or the environment."

HR 54, A RESOLUTION requesting Congress to reject any effort to impose government-mandated unrealistic standards on the automotive industry, thus preserving the freedom of the public to exercise its choice of vehicle to meet its needs.

WHEREAS, the automotive industry continues to make steady, continuous improvements in the fuel economy of the fleet it offers for sale to the public; and

WHEREAS, efforts have been made recently in Congress to impose drastic, government-mandated increases in the Corporate Average Fuel Economy (CAFE) standards on the automotive industry for cars and light trucks, calling for a forty percent increase to be achieved by 2001; and

WHEREAS, a major increase in the CAFE standards would sharply limit consumers' choice of vehicles, limiting them to choose from minicompact, subcompact and compact cars; and

WHEREAS, unrealistic standards would seriously reduce the availability of full-size and mid-size vans and pickup trucks - the workhorse of many small businesses and farms; and

WHEREAS, it has been estimated that significantly higher CAFE standards could cost as many as 300,000 U.S. jobs in the next decade; and

WHEREAS, higher CAFE standards would do little to enhance U.S. energy security - reducing oil imports by only one to two percent by the year 2005; and

WHEREAS, many national safety experts have expressed the opinion that a drastic increase in the standards would increase risk of fatalities and injuries because of smaller and lighter automobiles creating a vast difference in vehicle sizes operating on the roads and highways;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

Section 1. That the House of Representatives urges the Congress to reject any effort to impose government-mandated unrealistic standards on the automotive industry, thus preserving the freedom of the public to exercise its choice of vehicle to meet its needs.

Section 2. That the Clerk of the House of Representatives dispatch a copy of this resolution to each member of the Kentucky Congressional Delegation.

WHEREAS, Mrs. Gutzeit has coordinated through her office a Responsible Young Driver Program aimed at educating young people about all aspects of being a responsible driver; and

WHEREAS, the young drivers in Mrs. Gutzeit's jurisdiction receive information packages on driving under the influence and the often fatal consequences of being an irresponsible driver; and

WHEREAS, an extension of Mrs. Gutzeit's work has been the formation of Responsible Young Driver Clubs in the Boone County and Walton-Verona school system; and

WHEREAS, through her commitment to this program, community leaders in the field of education, politics, law enforcement, health, and family have volunteered to serve on an advisory board for promotion of responsible driving; and

WHEREAS, this program has been a great success in Boone County, and through a coordinated effort of state government leaders this program could be used as a model to promote responsible driving in all counties of this Commonwealth;

NOW, THEREFORE,

Section 1. That Pat Gutzeit, Boone County Circuit Clerk, be honored for her implementation of the Responsible Young Driver Program and its successful impact on Boone County youth.

Section 1. KRS 205.575 is amended to read as follows:

(1) As used in this section:

(a) "Hospital indigent care assurance program" (HICAP) means the medicaid hospital indigent care assessment and payments program administered by the Department for Medicaid Services in accordance with this section.

(b) "Department" means the Department for Medicaid Services; and

(c) "Fund" means the ***medicaid assessment revolving*** [~~hospital indigent care~~] trust fund ***(MART)*** which consists of money collected from hospitals ***and other participating providers; or the medicaid assessment improvement trust (MAIT) fund which consists of money transferred from the MART fund in accordance with the provisions of this section. Money paid into the MART fund shall be used first to meet obligations to the providers from which the funds are collected and to maintain contingency reserves as necessary, with any remainder paid into the MAIT fund except for funds reserved for administrative costs. The MAIT fund shall only be used or held in reserve to meet contingencies of the medicaid program which result from unanticipated federal mandates, federal disallowances, or program growth based upon the enacted budget or state law. Both the MART and MAIT funds are*** [~~which is~~] to be matched with funds from the federal medicaid program in accordance with the provisions of this section, and shall be exempt from any state budget reduction acts. ***All funds generated pursuant to Sections 1, 2 and 3 of this Act shall be appropriated to the Department for Medicaid Services and shall be supplementary only and shall not be used to replace funds appropriated to the medicaid program by the General Assembly. All moneys paid by hospitals under HICAP prior to the effective date of this Act were intended to be and shall be considered a tax assessment which was appropriated to the Department for Medicaid Services***;

(d) "Hospital" means an acute care hospital, excluding licensed inpatient psychiatric [~~and rehabilitation~~] facilities licensed under KRS Chapter 216B; [~~and~~]

(e) "Medical assistance program" means the Kentucky medicaid program as described in KRS 205.510 through KRS 205.590 and state regulations pertaining thereto and the federal medicaid program as defined in Title XIX of the Social Security Act and federal regulations pertaining thereto***; and***

(f) "Assessment" means a tax assessment levied on hospitals pursuant to this section.

(2) The commissioner of medicaid services shall adopt a disproportionate share program consistent with the requirements of Title XIX of the Social Security Act which shall include to the extent possible, but not be limited to, the provisions of this section.

(3) The requirements of this section shall apply only as long as federal funds under the medical assistance program are provided and the federal funds are at least equal to the amount of hospital assessments.

(4) The secretary for human resources shall promulgate administrative regulations necessary for the implementation of this section.

(5) Each year the department shall:

(a) Determine each hospital's total costs for services to patients as reported by the hospital to the department in the hospital's most recent medicaid cost report; and

(b) Multiply the hospital's total costs for services to patients by one-half percent (.5%) up to ***five*** [~~one~~] percent ***(5%)*** [~~(1%)~~] as determined feasible by the department. ***The hospital's initial assessment shall be for the calendar quarter ending March 31, 1991.*** [~~relative to the maximum distribution possible under federal regulations to determine~~] Each hospital's assessment ***shall be*** [~~which is~~] subject to adjustment under subsection (9) of this section and which shall be deposited in the ***MART*** [~~hospital indigent care trust~~] fund.

(6) ***(a)*** A hold harmless amount shall be held in reserve from the ***MART*** [~~indigent care trust~~] fund which is sufficient to assure that each hospital receives as payment from the fund an amount not less than the amount of that hospital's assessment ***plus one hundred thousand dollars ($100,000). Up to two*** [~~One~~] percent ***(2%)*** [~~(1%)~~] of the assessments shall be reserved for ***necessary administrative expenditures of the department*** [~~costs of the department relating to administration of the hospital indigent care assurance program~~], such amount to be placed in a trust and agency account of the department established for this purpose. The department may maintain within the ***MART*** fund an undistributed contingency reserve of up to one million dollars ($1,000,000).

(b) Hospitals shall be entitled to at least the following rates of return: for the amount generated by the first one percent (1%) of assessment, the assessment and any federal match on that portion of the assessment based on medicaid occupancy; for the amount generated by the second and third percents of

assessment, an amount which for a facility is equal to the assessment and any federal match on that portion of the assessment based on medicaid occupancy but not more than three hundred percent (300%), in total, of that portion of the assessment; and for the amount generated by the fourth and fifth percents of assessment, an amount which for a facility is equal to the assessment and any federal match on that portion of the assessment based on medicaid occupancy but not more than two hundred percent (200%), in total, of that portion of the assessment. The commissioner of medicaid services shall specify by regulation amounts to be paid to hospital providers if payment amounts are to exceed the maximum specified in this section. The minimum rates of return may be adjusted by administrative regulation as necessary, contingent on changes in the federal matching ratio. Assessment amounts in the MART fund not paid to hospitals, or reserved as contingency or administrative funds shall be transferred to the MAIT fund.

(7) (a) The department shall determine the percentage that each hospital's allowable medicaid days constitute of the sum of total allowable medicaid hospital days. The result shall be the indigent care factor for the hospital. As used in this section, days means the hospital's inpatient days covered by the medical assistance program for eligible recipients as reported to the department.

(b) The department shall multiply the indigent care factor for each hospital by the ***hospital assessment*** amount in the ***MART*** fund, taking into consideration the provisions of subsection (6) of this section, plus the federal matching dollars. The resulting product, subject to adjustment under subsection (9) of this section, shall be the amount that each hospital is to receive under the program.

(c) If any hospital's assessment exceeds the amount it is determined eligible to receive under subsection (7)(b), the department shall pay to the hospital from the hold harmless reserve specified in subsection (6) of this section an amount sufficient to bring the hospital's total payment under the program up to the assessment amount.

(8) Each hospital shall be notified in writing by the department of the results of determinations made pursuant to subsections (5)(b) and (7)(b) of this section. If no hospital submits a request for reconsideration under subsection (9) of this section, the determinations shall be considered final. Requests for reconsideration shall be subject to the provisions of subsection (9) of this section.

(9) Any hospital may submit a written request to the department for reconsideration of the determinations within twenty (20) days of notice of the determinations. The request shall be accompanied by written materials setting forth the basis for reconsideration. If one (1) or more hospitals submit a request, the department shall hold a public hearing within twenty (20) days from the last date on which reconsideration requests may be received. The department shall mail written notice of the date, time and place of the hearing to every hospital at least ten (10) days before the date of the hearing. On the basis of the evidence submitted to the department or presented at the public hearing, the department shall reconsider and may adjust the determinations.

(10) Within twenty (20) days of the public hearing, the department shall provide notice in writing to each hospital of the final determination of the amount it is required to pay and is eligible to receive after the adjustments made in accordance with subsection (9) of this section. Any hospital may appeal the decision of the department as to the amount it is required to pay or is eligible to receive to Franklin Circuit Court.

(11) (a) Each hospital shall submit its assessment to the department in equal quarterly installments according to a schedule adopted by administrative regulation. Variations in payment schedules shall be permitted as deemed necessary by the commissioner of medicaid services according to criteria set forth in administrative regulations.

(b) Any hospital that fails to make payments to the department on or before the schedule specified in this section or under any schedule for delayed payments established by the commissioner of medicaid services shall be fined not less than twenty thousand dollars ($20,000). The commissioner of medicaid services shall waive the penalties provided for in this subsection for good cause shown by the hospital as determined in accordance with criteria set forth in administrative regulations.

(c) The ***MART*** [~~hospital indigent care trust~~] fund shall be established in the State Treasury and all payments from hospitals under this section, excluding the administrative amount provided for in subsection (6) of this section, shall be deposited in the State Treasury to the credit of the fund. All investment earnings of the fund shall be credited to the fund ***and transferred to the MAIT fund as appropriate.*** The department shall maintain records that show the amount of money in the fund at any time that has been paid by each hospital [~~and the amount of investment earnings on that amount~~]. All moneys credited to the fund shall be used [~~solely~~] to make payments to hospitals ***or transferred to the MAIT fund after commitments have been met*** [~~and shall not be used in lieu of regular payments to hospitals under the medical assistance program~~]. A hospital shall not have its most recent non-disproportionate share payment rate reduced as a result of this program.

(12) The department shall make quarterly disbursements from the fund to each hospital within thirty (30) days from the time of the hospital assessment payment. All disbursements to hospitals shall be conditional on:

(a) Expiration of the time of judicial appeals or on court determinations; and

(b) The availability of sufficient moneys in the fund.

(13) The department shall conduct annual audits of the hospital indigent care assurance program to determine that amounts received from or paid to hospitals were correct. If an audit conducted by the department of the amount of payments made and received by hospitals identified amounts that, due to errors by the department, a hospital should not have been required to pay but did pay, should have been required to pay but did not pay, should have not received but did receive, or should have received but did not receive, the department shall:

(a) Make payments to any hospital that the audit reveals paid amounts it should not have been required to pay or did not receive amounts it should have received; or

(b) Take action to recover from a hospital any amounts the audit reveals it should have paid but did not pay or that it should not have received but did receive.

Payments made under subsection (13)(a) of this section shall be made from the fund. Amounts recovered under subsection (13)(b) of this section, less the federal matching share or the state administrative share as specified in subsection (6) of this section, as applicable, shall be deposited to the credit of the fund.

(14) Hospitals participating in the provisions of this section shall:

(a) Display prominently signs which read as follows: "This hospital will accept patients regardless of race, creed, ethnic background or ability to pay"; [~~and~~]

(b) Accept benefits of state health insurance coverage described in KRS 18A.229 and 18A.2281***;***

(c) Provide to medicaid recipients any additional days of coverage per hospital stay, based on medical necessity determined in the usual manner, without responsibility for payment for such days of care accruing to the patient or the medicaid program;

(d) Accept as payment in full benefits of student health insurance described in KRS 304.18-115 where such payment is at least equal to the hospital's medicaid rate; and

(e) Collect and report to the department data on the number of indigent patient days provided pursuant to this section, including additional days of coverage for medicaid recipients.

(15) By September 1, 1991, the Department for Medicaid Services shall determine eligibility under HICAP for indigent individuals and families with income up to one hundred percent (100%) of the federal poverty level; such individuals shall be eligible for inpatient hospital benefits equal to those provided medicaid recipients under the medicaid program, subject to approval by the federal health care financing administration, without responsibility for payment accruing to the patient or the medicaid program, however hospitals may bill any eligible third-party payor for payment of such services.

(16) By February 1, 1992, the department shall provide the General Assembly with a report on the feasibility of including indigent patient days, including additional days of coverage for medicaid recipients, in the determination of the payments under HICAP or other ways of compensating hospitals with a disproportionate share of indigent care as defined in this section.

HB 11, AN ACT relating to driving while impaired.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

SECTION 1. A NEW SECTION OF KRS CHAPTER 189A IS CREATED TO READ AS FOLLOWS:

As used in this chapter, unless the context requires otherwise:

(1) "Alcohol concentration" means either grams of alcohol per 100 milliliters of blood or grams of alcohol per 210 liters of breath;

(2) "Refusal" means declining to submit to any test or tests pursuant to Section 6 of this Act. Declining may be either by word or by the act of refusal. If the breath testing instrument for any reason shows an insufficient breath sample and the alcohol concentration cannot be measured by the breath testing instrument, the law enforcement officer shall then request the defendant to take a blood or urine test in lieu of the breath test. If the defendant then declines either by word or by the act of refusal, he shall then be deemed to have refused; and

(3) When age is a factor, it shall mean age at the time of the commission of the offense.

Section 2. KRS 189A.010 is amended to read as follows:

(1) No person shall operate ***or be in physical control of*** a motor vehicle anywhere in this state:

(a) While the alcohol concentration in his blood or breath is 0.10 or more based on the definition of alcohol concentration in Section 1 of this Act;

(b) While under the influence of alcohol;

(c) While under the influence of any other substance or combination of substances which impairs one's driving ability; or

(d) While under the combined influence of alcohol and [~~while under the influence of alcohol or~~] any other substance which ***impairs*** [~~may impair~~] one's driving ability.

(2) ***In any prosecution for a violation of subsection (1)(b) or (d) of this section in which the defendant is charged with having operated or been in physical control of a motor vehicle while under the influence of alcohol, the alcohol concentration in the defendant's blood as determined at the time of making analysis of his blood, or breath shall give rise to the following presumptions:***

(a) If there was an alcohol concentration of less than 0.05 based upon the definition of alcohol concentration in Section 1 of this Act, it shall be presumed that the defendant was not under the influence of alcohol; and

(b) If there was an alcohol concentration of 0.05 or greater but less than 0.10 based upon the definition of alcohol concentration in Section 1 of this Act, that fact shall not constitute a presumption that the defendant either was or was not under the influence of alcohol, but that fact may be considered, together with other competent evidence, in determining the guilt or innocence of the defendant.

The provisions of this subsection shall not be construed as limiting the introduction of any other competent evidence bearing upon the questions of whether the defendant was under the influence of alcohol or other substances, in any prosecution for a violation of subsection (1)(b) or (d).

(3) The fact that any person charged with violation of subsection (1) of this section is legally entitled to use any substance, including alcohol, shall not constitute a defense against any charge of violation of subsection (1) of this section.

(4) Any person who violates the provisions of subsection (1) of this section shall:

(a) For the first offense ***within a five (5) year period,*** be fined not less than two hundred dollars ($200) nor more than five hundred dollars ($500) or be imprisoned in the county jail for not less than forty-eight (48) hours nor more than thirty (30) days or both. (c) For a third [~~or subsequent~~] offense within a five (5) year period, be fined not less than five hundred dollars ($500) nor more than one thousand ($1,000) and shall be imprisoned in the county jail for not less than thirty (30) days nor more than twelve (12) months and may, in addition to fine and imprisonment, be sentenced to community labor for not less than ten (10) days nor more than twelve (12) months.

(d) For a fourth or subsequent offense within a five (5) year period, be guilty of a Class D felony.

(e) For purposes of this subsection, prior offenses shall include all convictions in this state, and any other state, or jurisdiction for operating or being in control of a motor vehicle while under the influence of alcohol or other substances that impairs one's driving ability, or any combination of alcohol and such substances, or while having an unlawful alcohol concentration, or driving while intoxicated. A court shall receive as proof of a prior conviction a copy of that conviction, certified by the court ordering the conviction.

(5)[~~(3)~~] ***For a second or third offense within a five (5) year period, the*** minimum ***sentence*** [~~sentences~~] of imprisonment or community labor [~~under subsections (2)(b) and (2)(c) of this section~~] shall not be suspended, probated, or subject to conditional discharge or other form of early release. ***For a fourth or subsequent offense under this section, the minimum term of imprisonment shall be one hundred twenty (120) days, and this term shall not be suspended, probated, or subject to conditional discharge or other form of early release. [~~If a person other than the person convicted of violating subsection (1) of this section dies or has suffered physical injury, as defined in KRS 500.080, as a result of the convicted person's operation of a motor vehicle in violation of subsection (1) of this section, the sentence shall include imprisonment as specified in subsection (2)(a) of this section and that portion of the sentence shall not be suspended, probated, or subject to conditional discharge or other form of early release.~~]

(7) In determining the five (5) year period under this section, the period shall be measured from the dates on which the offenses occurred upon which the judgments of conviction were entered.

SECTION 6. A NEW SECTION OF KRS CHAPTER 189A IS CREATED TO READ AS FOLLOWS:

The following provisions shall apply to any person who operates or is in physical control of a motor vehicle or a vehicle that is not a motor vehicle, in this Commonwealth:

(1) He is deemed to have given his consent to one (1) or more tests of his blood, breath, and urine, or combination thereof, for the purpose of determining alcohol concentration or presence of a substance which may impair one's driving ability, if arrested for any offense arising out of a violation of KRS 189A.010(1) or 189.520(1).

(2) Any person who is dead, unconscious, or otherwise in a condition rendering him incapable of refusal is deemed not to have withdrawn the consent provided in subsection (1) of this section, and the test may be given.

(3) The breath, blood, and urine tests administered pursuant to this section shall be administered at the direction of a peace officer having reasonable grounds to believe the person has committed a violation of KRS 189A.010(1) or 189.520(1).

(5) When the preliminary breath test, breath test, or other evidence gives the peace officer reasonable grounds to believe there is impairment by a substance which is not subject to testing by a breath test, then blood or urine tests, or both, may be required in addition to a breath test, or in lieu of a breath test.

(6) Only a physician, registered nurse, phlebotomist, medical technician, or medical technologist not otherwise prohibited by law can withdraw any blood of any person submitting to a test under this section.

(7) The person tested shall be permitted to have a person listed in subsection (6) of this section of his own choosing administer a test or tests in addition to any tests administered at the direction of the peace officer. Tests conducted under this section shall be conducted within a reasonable length of time. Provided, however, the nonavailability of the person chosen to administer a test or tests in addition to those administered at the direction of the peace officer within a reasonable time shall not be grounds for rendering inadmissible as evidence the results of the test or tests administered at the direction of the peace officer.

SECTION 7. A NEW SECTION OF KRS CHAPTER 189A IS CREATED TO READ AS FOLLOWS:

(1) No person shall be compelled to submit to any test or tests specified in Section 6 of this Act, but his refusal to submit to such tests shall result in revocation of his driving privilege as provided in this chapter.

(a) That, if the person refuses to submit to such tests, the person's privilege to drive shall be revoked for a period of six (6) months, or more, pursuant to this chapter; and

Remarks by Representative Mike Ward

Mr. Speaker I rise not to speak on the issue of DUI. I wish to explain my vote but in so doing wish to talk about the issue of the Special Session itself for just a moment. We stand here at the end of the sixth week of this Special Session and only today have we cast the final votes in the two issues we came here to discuss. I rise to say publicly and for the record that if our Governor had done what our leadership told him, repeatedly told him, we would have dealt with these issues in the Committee system before all of us were brought here at great expense to the Commonwealth to await the work of the Committees. These Committees worked as swiftly as possible but let us remember that the work could have been performed before all 138 of us were brought into Special Session. I find it wildly ironic that the Governor in who radio advertisements in the last election alleged that we wanted the power to call ourselves into Special Session to increase our own pay has single handedly wasted over three quarters of a million dollars because we are doing at the end of this six weeks what we could have done at the end of the second week of this Special Session.

FOREWORD

The Constitution requires each house of the General Assembly to keep a Journal of its proceedings. The Journal is intended to assure a public account of legislative activity and constitutes the final official record of action by the General Assembly.

Under the provisions of Sections 6.161, 6.162 and 57.151 of the *Kentucky Revised Statutes*, the Legislative Research Commission is responsible for comparing, editing, correcting, and publishing the Journals as approved by each house of the General Assembly. This Journal represents the fulfillment of this obligation for the Second Extraordinary Session of the House of Representatives of 1991.

The text of a bill is spread in full when it receives a first reading. The vote on passage of a bill is indicated upon its receipt of a third reading, or upon concurrence by the originating house in amendments by the second house. Simple and concurrent resolutions are printed on first reading when applicable or when adopted, and joint resolutions are treated as bills. A table of actions on bills and resolutions is appended. Roll calls on motions to pass legislation have been compiled in an Appendix.

Mrs. Jean Wallace, and Mrs. Wilda Bond prepared the House Journal for the Second Extraordinary Session of 1991. The edited copy and index in this volume reflect the cooperative efforts of the Commission's staff.

SECTION 101. A NEW SECTION OF KRS CHAPTER 5 IS CREATED TO READ AS FOLLOWS:

The Commonwealth of Kentucky is divided into one hundred (100) representative districts as provided by Sections 1 to 100 of this Act.

SECTION 102. A NEW SECTION OF KRS CHAPTER 5 IS CREATED TO READ AS FOLLOWS:

For the purpose of legislative redistricting done by the Second Extraordinary Session of 1991:

(1) The boundaries of the legislative districts created by this chapter shall be those shown on the maps generated by the Legislative Research Commission's geographic information system to accompany the redistricting plan enacted into law. The official paper copies of these maps shall be on file with the State Board of Elections. A duplicate set of maps and associated population information shall be retained by the Legislative Research Commission.

(2) (a) Designated precincts are those precincts in existence on July 15, 1990. Precinct boundaries shown in the maps referred to in subsection (1) of this section are taken from county precinct maps filed with the State Board of Elections and verified and corrected by the Legislative Research Commission staff in consultation with county election officials.

(b) Census tracts and blocks shown in the maps referred to in subsection (1) of this section are those utilized for the making of the 1990 United States Census.

(c) Population data utilized for redistricting is the 1990 United States Census PL 94-171 population data that was deemed to be official by the United States Secretary of Commerce on or before July 15, 1991, and election precinct population data prepared by the Legislative Research Commission staff from the official PL 94-171 population data.

SECTION 103. A NEW SECTION OF KRS CHAPTER 5 IS CREATED TO READ AS FOLLOWS:

The provisions of KRS 117.055 notwithstanding, the county boards of elections shall meet, immediately following the effective date of this Act, for the purpose of reviewing the changes made to legislative district boundaries by the General Assembly in its Second Extraordinary Session of 1991. The county boards of elections shall, to the fullest extent possible, redraw precinct boundaries so as to conform to the new state legislative district boundaries in order to minimize the number of split precincts. The redrawing of precinct boundaries mandated by this section shall be completed for utilization at the primary election to be held in May 1992.

Section 104. The following KRS sections are repealed:

6.031 Representative districts.

6.041 Construction of KRS 6.011 and 6.031.

Section 105. (1) Because of space constraints in the word processing program for bill drafting, the column for the precinct names given in the tables describing the legislative districts within this Act has been truncated so that in some instances the entirety of the name has not been given within the table. The precinct codes reflected in these tables are those of the State Board of Elections, and these codes shall control over the names given in the tables. In codifying this Act, the Reviser of Statutes is directed to include the full name for any precinct whose name has been shown in a truncated form within this Act, based on the precinct code number given on the affected line.

(2) In the tables for legislative districts given in this Act, the single listing of a county or a precinct within a county indicates that all of the territory of that county or precinct is within the specified district. If the name of a county or precinct is given on a separate line but the county is then repeated with precinct names or the precinct is then repeated with census track and block numbers on additional lines, this indicates that only a portion of that county or precinct is within the specified district. In codifying this Act, the Reviser of Statutes is directed to remove the separate line entries for counties and precincts in those cases where the entire county or precinct is not within the specified district.

Section 106. Whereas legislative district boundaries must be legally divided in order for potential candidates to have the opportunity to file candidacy papers prior to the January 28, 1992 filing deadline, an emergency is declared to exist, and this Act shall become effective on January 8, 1992.

WHEREAS, the Congressmen from Kentucky's Fifth and Seventh Congressional Districts have jointly represented the core of Appalachian Kentucky since those districts were established in 1962; and

WHEREAS, with representation by two congressmen, Appalachian Kentucky has made significant economic progress, as evidenced by its growth in total personal income from $5.9 billion in 1969 to $11.4 billion in 1989, that would not have been feasible without federal aid; and

WHEREAS, despite its progress, the economy of the area encompassed by Kentucky's Fifth and Seventh Congressional Districts continues to lag behind the rest of the Commonwealth and will need additional time and continuing leadership in Washington to achieve economic parity; and

WHEREAS, the economic prosperity of Appalachian Kentucky is crucial to the well-being of the entire Commonwealth;

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

Section 1. That it is the sense of the House of Representatives that eastern and south central Kentucky should continue to be represented by two members of the House of Representatives of the United States Congress and that the House of Representatives opposes any proposed congressional redistricting plan that dilutes the representation of the citizens of the Fifth and Seventh Congressional Districts.

SECTION 101. A NEW SECTION OF KRS CHAPTER 5 IS CREATED TO READ AS FOLLOWS:

The Commonwealth of Kentucky is divided into one hundred (100) representative districts as provided by Sections 1 to 100 of this Act.

SECTION 102. A NEW SECTION OF KRS CHAPTER 5 IS CREATED TO READ AS FOLLOWS:

For the purpose of legislative redistricting done by the Second Extraordinary Session of 1991:

(1) The boundaries of the legislative districts created by this chapter shall be those shown on the maps generated by the Legislative Research Commission's geographic information system to accompany the redistricting plan enacted into law. The official paper copies of these maps shall be on file with the State Board of Elections. A duplicate set of maps and associated population information shall be retained by the Legislative Research Commission.

(2) (a) Designated precincts are those precincts in existence on July 15, 1990. Precinct boundaries shown in the maps referred to in subsection (1) of this section are taken from county precinct maps filed with the State Board of Elections and verified and corrected by the Legislative Research Commission staff in consultation with county election officials.

(b) Census tracts and blocks shown in the maps referred to in subsection (1) of this section are those utilized for the making of the 1990 United States Census.

(c) Population data utilized for redistricting is the 1990 United States Census PL 94-171 population data that was deemed to be official by the United States Secretary of Commerce on or before July 15, 1991, and election precinct population data prepared by the Legislative Research Commission staff from the official PL 94-171 population data.

SECTION 103. A NEW SECTION OF KRS CHAPTER 5 IS CREATED TO READ AS FOLLOWS:

The provisions of KRS 117.055 notwithstanding, the county boards of elections shall meet, immediately following the effective date of this Act, for the purpose of reviewing the changes made to legislative district boundaries by the General Assembly in its Second Extraordinary Session of 1991. The county boards of elections shall redraw precinct boundaries so as to conform to the new state legislative district boundaries. As required by KRS 117.055, the county boards of election shall redraw precincts so that each election precinct is composed of contiguous territory and is wholly contained within one (1) representative district. The redrawing of precinct boundaries mandated by this section shall be completed for utilization at the primary election to be held in May 1992.

Section 104. The following KRS sections are repealed:

6.031 Representative districts.

6.041 Construction of KRS 6.011 and 6.031.

Section 105. (1) Because of space constraints in the word processing program for bill drafting, the column for the precinct names given in the tables describing the legislative districts within this Act has been truncated so that in some instances the entirety of the name has not been given within the table. The precinct codes reflected in these tables are those of the State Board of Elections, and these codes shall control over the names given in the tables. In codifying this Act, the Reviser of Statutes is directed to include the full name for any precinct whose name has been shown in a truncated form within this Act, based on the precinct code number given on the affected line.

(2) In the tables for legislative districts given in this Act, the single listing of a county or a precinct within a county indicates that all of the territory of that county or precinct is within the specified district. If the name of a county or precinct is given on a separate line but the county is then repeated with precinct names or the precinct is then repeated with census track and block numbers on additional lines, this indicates that only a portion of that county or precinct is within the specified district. In codifying this Act, the Reviser of Statutes is directed to remove the separate line entries for counties and precincts in those cases where the entire county or precinct is not within the specified district.

Section 106. Whereas legislative district boundaries must be legally divided in order for potential candidates to have the opportunity to file candidacy papers prior to the January 28, 1992 filing deadline, an emergency is declared to exist, and this Act shall become effective on January 8, 1992.

HR 7, A RESOLUTION adjourning the House of Representatives in loving memory and honor of Governor Bert Thomas Combs.

A blanket of sorrow drapes the Commonwealth. Tears flow from the Cumberland Mountains to the Jackson Purchase. Hearts mourn from the Knobs to the Pennyroyal. Kentucky says good night to the Judge.

WHEREAS, Bert Thomas Combs, fiftieth Governor of the Commonwealth of Kentucky, was called home on Wednesday, December 4, 1991, while crossing the flooded Red River; and

WHEREAS, Bert T. Combs was born eighty years ago on August 13, 1911, cradled by the mountains of Manchester, Kentucky, son of Stephen and Martha Jones Combs; and

WHEREAS, the law career of Bert Thomas Combs began in 1937 and continued until his untimely death, a prestigious resume that included serving as City Attorney for Prestonsburg, Kentucky; Commonwealth's Attorney for Floyd County; Judge of the Kentucky Court of Appeals; and Judge for the Sixth United States Circuit Court of Appeals; and

WHEREAS, a gifted statesman and humble politician, Bert Combs molded the future of the Commonwealth between 1959 and 1963 through his sincerity, honesty, and innate progressivism; and

WHEREAS, Bert Thomas Combs was the epitome of a public servant, a gentleman who dedicated his life to education by proposing the community college system, increasing the number of vocational schools, and bringing education to all the people through bookmobiles and an educational television network; and

WHEREAS, during the tenure of Governor Combs, Kentucky enjoyed unprecedented growth in school building and support, as well as the rate of salary increases to, and the retention of, school teachers; and

WHEREAS, refusing to look backward, Bert Thomas Combs shouldered the responsibility of guiding Kentucky to its "appointment with history" by representing sixty-six poor school districts in an historic lawsuit concerning school funding; and

WHEREAS, Bert Thomas Combs was a bulwark for education while defending the inherent right of all Kentucky's children to a proper education; and

WHEREAS, Governor Combs directed the establishment of a merit system for state government employees; caused Kentucky to be the first state in the nation to create a Department of Child Welfare; established a program for the care and training of mentally retarded children; began a medical assistance program for the aged; and encouraged the construction of hospitals, nursing homes and health centers; and

WHEREAS, the unparalleled expansion of Kentucky's highway and turnpike system, and the state park system was instituted by Governor Combs, as well as the construction of the state's famous floral clock; and

WHEREAS, every citizen of this state, as well as future generations are indebted to Bert Combs, champion of education, economic development, highway and airport construction, and the state park system; and

WHEREAS, the hallowed halls of the Capitol will forever echo the closing remarks of Governor Bert Thomas Combs to the 1962 Kentucky General Assembly:

"Kentucky has now embarked on a decent, constructive, progressive program - a program which will enable us to leave our children the heritage of a great state. There are those who say we have set for ourselves too high a goal; that we cannot reach these ideals. But I would remind you, in the words of the poet, that 'Ideals are like stars; you will not succeed in touching them with your hands. But like the seafaring man on the desert of waters, you choose them as your guides, and following them you will reach your destiny.'

I say to you that by charting our course on the lodestars of decency and honesty and constructive thinking, and by following that course to the best of our ability, we will make it possible, not perhaps for ourselves to reach that destiny, but for our children to reach their destiny.";

NOW, THEREFORE,

Be it resolved by the House of Representatives of the General Assembly of the Commonwealth of Kentucky:

Section 1. That the members of the House of Representatives do hereby express their profound sense of bereavement and loss upon the tragic death of our beloved friend and mentor, Bert Thomas Combs.

Section 3. That the citizens of this Commonwealth will never say good-bye to Bert Combs and that his legacy will continue through the hearts and minds of all Kentuckians.

Section 4. That when the House of Representatives adjourns this day, it does so in honor and loving memory of Kentucky's outstanding native son, Bert Thomas Combs.

SECTION 39. A NEW SECTION OF KRS CHAPTER 5 IS CREATED TO READ AS FOLLOWS:

The Commonwealth of Kentucky is divided into thirty-eight (38) senatorial districts as provided by Sections 1 to 38 of this Act.

SECTION 40. A NEW SECTION OF KRS CHAPTER 5 IS CREATED TO READ AS FOLLOWS:

For the purpose of legislative redistricting done by the Second Extraordinary Session of 1991:

(1) The boundaries of the legislative districts created by this chapter shall be those shown on the maps generated by the Legislative Research Commission's geographic information system to accompany the redistricting plan enacted into law. The official paper copies of these maps shall be on file with the State Board of Elections. A duplicate set of maps and associated population information shall be retained by the Legislative Research Commission.

(2) (a) Designated precincts are those precincts in existence on July 15, 1990. Precinct boundaries shown in the maps referred to in subsection (1) of this section are taken from county precinct maps filed with the State Board of Elections and verified and corrected by the Legislative Research Commission staff in consultation with county election officials.

(b) Census tracts and blocks shown in the maps referred to in subsection (1) of this section are those utilized for the making of the 1990 United States Census.

(c) Population data utilized for redistricting is the 1990 United States Census PL 94-171 population data that was deemed to be official by the United States Secretary of Commerce on or before July 15, 1991, and election precinct population data prepared by the Legislative Research Commission staff from the official PL 94-171 population data.

SECTION 41. A NEW SECTION OF KRS CHAPTER 5 IS CREATED TO READ AS FOLLOWS:

The provisions of KRS 117.055 notwithstanding, the county boards of elections shall meet, immediately following the effective date of this Act, for the purpose of reviewing the changes made to legislative district boundaries by the General Assembly in its Second Extraordinary Session of 1991. The county boards of elections shall, to the fullest extent possible, redraw precinct boundaries so as to conform to the new state legislative district boundaries in order to minimize the number of split precincts. The redrawing of precinct boundaries mandated by this section shall be completed for utilization at the primary election to be held in May 1992.

Section 42. The following KRS sections are repealed:

6.011 Senatorial districts.

6.041 Construction of KRS 6.011 and 6.031.

Section 43. (1) Because of space constraints in the word processing program for bill drafting, the column for the precinct names given in the tables describing the legislative districts within this Act has been truncated so that in some instances the entirety of the name has not been given within the table. The precinct codes reflected in these tables are those of the State Board of Elections, and these codes shall control over the names given in the tables. In codifying this Act, the Reviser of Statutes is directed to include the full name for any precinct whose name has been shown in a truncated form within this Act, based on the precinct code number given on the affected line.

(2) In the tables for legislative districts given in this Act, the single listing of a county or a precinct within a county indicates that all of the territory of that county or precinct is within the specified district. If the name of a county or precinct is given on a separate line but the county is then repeated with precinct names or the precinct is then repeated with census track and block numbers on additional lines, this indicates that only a portion of that county or precinct is within the specified district. In codifying this Act, the Reviser of Statutes is directed to remove the separate line entries for counties and precincts in those cases where the entire county or precinct is not within the specified district.

Section 44. Whereas legislative district boundaries must be legally divided in order for potential candidates to have the opportunity to file candidacy papers prior to the January 28, 1992 filing deadline, an emergency is declared to exist, and this Act shall become effective on January 8, 1992.

SB 2, AN ACT relating to Congressional redistricting, and declaring an emergency.

Be it enacted by the General Assembly of the Commonwealth of Kentucky:

PLAN C0460333

SECTION 7. A NEW SECTION OF KRS CHAPTER 118B IS CREATED TO READ AS FOLLOWS:

The Commonwealth of Kentucky is divided into six (6) congressional districts as provided by Sections 1 to 6 of this Act.

SECTION 8. A NEW SECTION OF KRS CHAPTER 118B IS CREATED TO READ AS FOLLOWS:

For the purpose of congressional redistricting done by the Second Extraordinary Session of 1991:

(1) The boundaries of the congressional districts created by this chapter shall be those shown on the maps generated by the Legislative Research Commission's geographic information system to accompany the redistricting plan enacted into law. The official paper copies of these maps shall be on file with the State Board of Elections. A duplicate set of maps and associated population information shall be retained by the Legislative Research Commission.

(2) (a) Designated precincts are those precincts in existence on July 15, 1990. Precinct boundaries shown in the maps referred to in subsection (1) of this section are taken from county precinct maps filed with the State Board of Elections and verified and corrected by the Legislative Research Commission staff in consultation with county election officials.

(b) Census tracts and blocks shown in the maps referred to in subsection (1) of this section are those utilized for the making of the 1990 United States Census.

(c) Population data utilized for redistricting is the 1990 United States Census PL 94-171 population data that was deemed to be official by the United States Secretary of Commerce on or before July 15, 1991, and election precinct population data prepared by the Legislative Research Commission staff from the official PL 94-171 population data.

Section 9. The following KRS sections are repealed:

118.485 Congressional districts.

118.495 Construction of KRS 118.485.

Section 10. In those existing statutes, including KRS 18A.225, 164.010, 194.245, 198A.080, 247.417, and 344.150, which provide for appointments to be made or actions to be taken on the basis of the Commonwealth's having seven congressional districts, the boundaries of the seven congressional districts in existence prior to the adoption of this Act shall continue to be used for these appointments and actions until these statutes are specifically amended by the General Assembly. The congressional redistricting effectuated by this Act shall not cause the termination or shortening of the term of any member of any board, commission, or other entity.

Section 11. (1) Because of space constraints in the word processing program for bill drafting, the column for the precinct names given in the tables describing the legislative districts within this Act has been truncated so that in some instances the entirety of the name has not been given within the table. The precinct codes reflected in these tables are those of the State Board of Elections, and these codes shall control over the names given in the tables. In codifying this Act, the Reviser of Statutes is directed to include the full name for any precinct whose name has been shown in a truncated form within this Act, based on the precinct code number given on the affected line.

(2) In the tables for legislative districts given in this Act, the single listing of a county or a precinct within a county indicates that all of the territory of that county or precinct is within the specified district. If the name of a county or precinct is given on a separate line but the county is then repeated with precinct names or the precinct is then repeated with census track and block numbers on additional lines, this indicates that only a portion of that county or precinct is within the specified district. In codifying this Act, the Reviser of Statutes is directed to remove the separate line entries for counties and precincts in those cases where the entire county or precinct is not within the specified district.

Section 12. Whereas congressional district boundaries must be legally divided in order for potential candidates to have the opportunity to file candidacy papers prior to the January 28, 1992 filing deadline, an emergency is declared to exist, and this Act shall become effective upon its passage and approval by the Governor.
